Season Of High Adventure:

Season of High Adventure S. Bernard Thomas, 2024-06-07 In 1928 Edgar Snow 1905 1972 set out to see the world hoping to make his mark as a travel adventure writer Shanghai was to be a mere stopover but Snow stayed on in China for thirteen more years The idealistic young Midwesterner became a journalist and ultimately developed close friendships with China's emerging revolutionary leaders His 1938 classic *Red Star over China* strongly influenced American views of the Chinese Communists and is still in print nearly sixty years later This biography breaks fresh ground with its unique and extensive use of Snow's diaries of over forty years These writings convey Snow's private hopes and fears his moods and motivations Thomas skillfully links them with Snow's public writings and deeds By recreating the milieu in which Snow worked in China Thomas provides a clearer understanding of both the man and his times Snow came to China devoid of any political agenda or sinological background He returned home a politically astute China hand and famed journalist author His writing had taken on the nature of political action which resulted in troubled soul searching that Snow usually confined to his diary Thomas's portrait of Ed Snow reveals a man caught up in an important historical moment a man who profoundly influenced and was influenced by the events that swirled around him This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

Three Revolutions Simon Hall, 2025-07-01 A salve for our current reactionary times ANDREW HARTMAN The gripping untold story of how six epic journeys launched the three communist revolutions that changed world history forever From the streets of Petrograd during the heady autumn of 1917 to Mao's stunning victory in October 1949 and Fidel's triumphant arrival in Havana in January 1959 the history of the twentieth century was transformed in dramatic and profound ways by the Russian Chinese and Cuban revolutions In *Three Revolutions* the stories of these epoch defining events are told together for the first time At the heart of each revolution was an epic journey Lenin's 1917 return to Russia from exile in Switzerland Mao's Long March of 1934-35 covering some 6 000 miles across China and Fidel Castro's return to Cuba in 1956 following his exile in Mexico Told in tandem with these are the corresponding journeys of three extraordinary journalists John Reed Edgar Snow and Herbert L Matthews whose electric testimony from the frontlines of each revolution would make a decisive contribution to how these revolutions were understood in the wider world Here in Simon Hall's masterful retelling these six remarkable journeys are brought vividly to life Featuring a stellar cast extraordinary drama and an epic sweep *Three Revolutions* raises fundamental questions about the nature of political power the limits of idealism and the role of the journalist questions that remain of utmost urgency today

Going to the Countryside Yu Zhang, 2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the

increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China. Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s. What then was the special significance of going to the countryside before that era? *Going to the Countryside* deals with the cultural representations and practices of this practice between 1915 and 1965, focusing on individual homecoming, rural reconstruction, revolutionary journeys to Yan'an, the revolutionary going down to the people, as well as going to the frontiers and rural hometowns for socialist construction. As part of the larger discourses of enlightenment, revolution, and socialist industrialization, going to the countryside entailed new ways of looking at the world, and ordinary people brought about new experiences of space and time, initiated new means of human communication and interaction, generated new forms of cultural production, revealed a fundamental epistemic shift in modern China, and ultimately created a new aesthetic social and political landscape. As a critical response to the urban turn in the past few decades, this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China studies. Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally, collectively, and institutionally. The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity, interaction, and relationship of these two imagined geographical entities. *Going to the Countryside* argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space; most importantly, the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments.

Maoism Julia Lovell, 2019-09-03 WINNER OF THE 2019 CUNDILL HISTORY PRIZE, SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON FICTION, 2019, SHORTLISTED FOR THE NAYEF AL RODHAN PRIZE FOR GLOBAL UNDERSTANDING, SHORTLISTED FOR DEUTSCHER PRIZE, LONGLISTED FOR THE 2020 ORWELL PRIZE FOR POLITICAL WRITING. Revelatory and instructive, a beautifully written and accessible book. The Times. For decades the West has dismissed Maoism as an outdated historical and political phenomenon. Since the 1980s China seems to have abandoned the utopian turmoil of Mao's revolution in favour of authoritarian capitalism. But Mao and his ideas remain central to the People's Republic and the legitimacy of its Communist government. With disagreements and conflicts between China and the West on the rise, the need to understand the political legacy of Mao is urgent and growing. The power and appeal of Maoism have extended far beyond China. Maoism was a crucial motor of the Cold War; it shaped the course of the Vietnam War and the international youth rebellions that conflict triggered and brought to power the murderous Khmer Rouge in Cambodia; it aided and sometimes handed victory to anti-colonial resistance movements in Africa; it inspired terrorism in Germany and Italy and

wars and insurgencies in Peru India and Nepal some of which are still with us today more than forty years after the death of Mao In this new history Julia Lovell re evaluates Maoism as both a Chinese and an international force linking its evolution in China with its global legacy It is a story that takes us from the tea plantations of north India to the sierras of the Andes from Paris s fifth arrondissement to the fields of Tanzania from the rice paddies of Cambodia to the terraces of Brixton Starting with the birth of Mao s revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People s Republic today this is a landmark history of global Maoism *The Raider* Stephen R. Platt,2025-05-13

While today s presidential tweets may seem a light year apart from the scratch of quill pens during the era of the American Revolution the importance of political communication is eternal This book explores the roles that political narratives media coverage and evolving communication technologies have played in precipitating shaping and concluding or prolonging wars and revolutions over the course of US history The case studies begin with the Sons of Liberty in the era of the American Revolution cover American wars in the nineteenth and twentieth centuries and conclude with a look at the conflict against ISIS in the Trump era Special chapters also examine how propagandists shaped American perceptions of two revolutions of international significance the Russian Revolution and the Chinese Revolution Each chapter analyzes its subject
