Magic and Magicians in the Greco-Roman World Matthew Dickie, 2003 This study is the first to assemble the evidence for the existence of sorcerers in the ancient world it also

addresses the question of their identity and social origins The resulting investigation takes us to the underside of Greek and Roman society into a world of wandering holy men and women conjurors and wonder workers and into the lives of prostitutes procuresses charioteers and theatrical performers This fascinating reconstruction of the careers of witches and sorcerors allows us to see into previously inaccessible areas of Greco Roman life Compelling for both its detail and clarity and with an extraordinarily revealing breadth of evidence employed it will be an essential resource for anyone studying ancient magic

Woman's Work for Woman, 1882 *Old Wives' Tales* Mary Chamberlain, 2012-05-30 We may all know that dandelions make us wet the bed and that stewed prunes are a cure for constipation but how many of us were aware that a poultice of chicken manure is a remedy for baldness Or that eel liver will aid a difficult labour The woman healer is as old as history For millennia she has been doctor nurse and midwife and even in the age of modern medicine her wisdom is handed down in the form of old wives tales Using extensive research into archives and original texts and numerous conversations with women in city and countryside Mary Chamberlain presents a stimulating challenge to the history of orthodox medicine and an illuminating survey of female wisdom which goes back to the earliest times What are old wives tales Where do they come from Do they really work These questions and many more are answered in this fascinating compendium of remedies and cures handed down from mother to daughter from the beginning of time Popular Magic: Cunning-folk in English History Owen Davies, 2007-06-01 Cunning folk were local practitioners of magic providing small scale but valued service to the community They were far more representative of magical practice than the arcane delvings of astrologers and necromancers Mostly unsensational in their approach cunning folk helped people with everyday problems how to find lost objects how to escape from bad luck or a suspected spell and how to attract a lover or keep the love of a husband or wife While cunning folk sometimes fell foul of the authorities both church and state often turned a blind eye to their existence and practices distinguishing what they did from the rare and sensational cases of malvolent witchcraft In a world of uncertainty before insurance and modern science cunning folk played an important role that has previously been ignored New Perspectives on Witchcraft, Magic, and Demonology: Witchcraft in the modern world Brian Paul Levack, 2001 **The Cunning Folk's Book of Cottage Witchcraft** Danu Forest, 2025-06-08 Connect with the Spirits of Your Land Through 100 Spells and Recipes Whether you live in a bustling city or a rural cottage this book has a multitude of ways to embrace the power of your surroundings Celtic wisewoman Danu Forest guides you on a journey of self discovery and connection to the natural world Sharing the wisdom of past and present cunning folk practitioners like her whose power comes from the land and its spirits Danu shows how to easily weave magic into your everyday life Acting as both a historical record and modern grimoire this book features detailed information on household spirits herb craft trance work and wildlife magic It also provides over a hundred spells charms and recipes for healing love protection and much more Candle Scrying Tea Leaf Reading Ritual House Cleansing Dream Charm Bag Healing Witch s Ladder Banishing Powder Comfort and Blessing Spray Ancestral Honoring Oil

Prosperity Simmer Pot Valerian Love Sachet **Heathen Paths** Pete Jennings, 2007 A detailed researched and inspired book on Norse and Anglo Saxon tradition Paganism This book is written from a different perspective to other books published on aspects of what is known variously as Asatru The Northern Tradition and Odinism to present a handbook of accumulated data so that people can read and interpret it for themselves aided by sometimes conflicting or complementary opinions clearly labelled enabling the reader to develop and adapt their own theories and practices rather than have them laid out by someone else Where possible Pete compares more than one source of information Trying to subjectively observe a movement from within whilst being a part of it oneself is a delicate path to tread but in this book Pete does an admirable job separating them from the historical data being presented
