**Translation** Daniel Weissbort, Ástráður Eysteinnsson, 2006 Translation Theory and Practice A Historical Reader responds to the need for a collection of primary texts on translation in the English tradition from the earliest times to the present day Based on an exhaustive survey of the wealth of available materials the Reader demonstrates throughout the link between theory and practice with excerpts not only of significant theoretical writings but of actual translations as well as excerpts on translation from letters interviews autobiographies and fiction The

collection is intended as a teaching tool but also as an encyclopaedia for the use of translators and writers on translation. It presents the full panoply of approaches to translation without necessarily judging between them but showing clearly what is to be gained or lost in each case. Translations of key texts such as the Bible and the Homeric epic are traced through the ages with the same passages excerpted making it possible for readers to construct their own map of the evolution of translation and to evaluate in their historical contexts the variety of approaches. The passages in question are also accompanied by ad verbum versions to facilitate comparison. The bibliographies are likewise comprehensive. The editors have drawn on the expertise of leading scholars in the field including the late James S Holmes, Louis Kelly, Jonathan Wilcox, Jane Stevenson, David Hopkins and many others. In addition, significant non-English texts such as Martin Luther's Circular Letter on Translation, which may be said to have inaugurated the Reformation, are included, helping to set the English tradition in a wider context. Related items such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in collages marking particularly important moments or developments in the history of translation. This comprehensive reader provides an invaluable and illuminating resource for scholars and students of translation and English literature as well as poets, cultural historians and professional translators.

The canon of Russian poetry has been reshaped since the fall of the Soviet Union. A multi-authored study of changing cultural memory and identity, this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval. Literary canon and national identity are inextricably tied together, the composition of a canon being the attempt to single out those literary works that best express a nation's culture. This process is of course fluid and subject to significant shifts, particularly at times of epochal change. This volume explores changes in the canon of twentieth-century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008. In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy, the way was open for wholesale reinterpretation of twentieth-century poets such as Iosif Brodskii, Anna Akhmatova and Osip Mandelstam, their works and their lives. In the last twenty years, many critics have discussed the possibility of various coexisting canons rooted in official and non-official literature and suggested replacing the term Soviet literature with a new definition: Russian literature of the Soviet period. Contributions to this volume

explore the multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics Among factors which may influence the composition of the canon are educational institutions competing views of scholars and critics including figures outside Russia and the self canonising activity of poets themselves Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre revolutionary cultural traditions through a narrative of the past which foregrounds continuity Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground Required reading for students teachers and lovers of Russian literature Twentieth Century Russian Poetry brings our understanding of post Soviet Russia up to date *Caribou* Charles Wright, 2014-07-08 A powerfully moving meditation on life and the beyond from one of our finest American poets Charles Wright's truth the truth of nature of man's yearning for the divine of aging is at the heart of the renowned poet's latest collection *Caribou* This is an elegy to transient beauty a song for the stepchild hour belonging to neither the light nor dark The hour of disappearing things and an expression of Wright's restless questing for a reality beyond the one before our eyes We are all going into a world of dark It's okay That's where the secrets are The big ones the ones too tall to tell *Caribou*'s strength is in its quiet wry profundity It's good to be here Wright tells us It's good to be where the world's quiescent and reminiscent And to be here in the pages of this stirring collection is more than good *Caribou* is another remarkable gift from the poet around whose influence the whole world seems to orbit in a kind of meditative slow circle Poetry [The Red Thread: Twenty Years of NYRB Classics](#) Edwin Frank, 2019-09-24 To celebrate the 20th anniversary of NYRB Classics a handpicked anthology of selections from the series In Greek mythology Ariadne gave Theseus a ball of red thread to guide him through the labyrinth and the Red Thread offers a path through and a way to explore the ins and outs and twists and turns of the celebrated NYRB Classics series now twenty years old The collection brings together twenty five pieces drawn from the more than five hundred books that have come out as NYRB Classics over the last twenty years Stories essays interviews poems along with chapters from novels and memoirs and other longer narratives have been selected by Edwin Frank the series editor to chart a distinctive entertaining and thought provoking course across the expansive and varied terrain of the Classics series
