Shakespearean Staging 1599 1642:

Shakespearean Staging, 1599-1642 T. J. King, 1971 Shakespearean Staging, 1599-1642 Thomas James King, 1971 This unique survey of pre Restoration staging techniques examines all the extant plays first performed by English professional actors during the years 1599 1642 T J King has assembled material from 276 texts including promptbooks printed plays with manuscript prompter s markings and playbooks printed from playhouse copy in order to show how Shakespeare s plays and those of his contemporaries were staged during this period He finds that all texts that depend on playhouse copy could be acted with commonplace stage properties in front of such unlocalized facades as those shown in the extant pictorial evidence

Deciphering Elizabethan Fiction Reid Barbour, 1993 From 1570 to 1630 prose fiction was an upstart in English culture still defined in relation to poetry and drama yet invested with its own considerable power and potential In these years a community of writers arrived on the scene in London and strove to make a name for themselves largely from the prose that they produced at an astonishing rate Modern scholars of the Renaissance have attempted to measure this prose against such standards as humanist culture or the emerging novel But the prose fiction written by Lyly Greene and their imitators has eluded modern readers even more than the works of Shakespeare and Spenser In Deciphering Elizabethan Fiction Reid Barbour studies three interwoven case histories those of Robert Greene Thomas Nashe and Thomas Dekker and explores their favorite tropes and figures In response to one another these three writers attempt to define liberate and question the boundaries of prose That is they want to secure for prose a new and powerful status in an age when its parameters are unclear and its rivals still valorized but its parameters unbounded Barbour argues that Nashe absorbs but also rejects the agendas of Greene s prose offering alternative tropes in their place Dekker parodies Nashe but unsettles any scheme for stabilizing prose including those set forth by Nashe himself This work centers on three terms that Greene Nashe and Dekker obviously could not get off their minds decipher discover and stuff The first two terms pervasive in Greene make specific and complex demands on narrative and its readers With stuff however Nashe and Dekker cultivate an extemporal and a material prose and challenge the fictions that decipher and discover from romance to roguery These key words not only situate prose in regard to poetry drama and the world they also raise crucial Renaissance questions about order and duty faith and doubt Accordingly their frame of reference extends from Renaissance poetics and narratology to a nascent Epicureanism and neoskepticism In an about face prose becomes the standard by which the rest of Elizabethan and early Stuart culture is measured even as prose is constituted by that culture With three of the most popular English Renaissance writers as his focus Barbour reassesses the question of how or whether Elizabethan fiction is an ancestor of the novel Students of the novel have recently intensified their search for the origins of Defoe Dickens and Woolf But Elizabethan prose fiction challenges the novel rather than founds it In its conclusion then Deciphering Elizabethan Fiction considers responses to Elizabethan prose from Behn to Joyce
