

A close-up, high-resolution portrait of William Shakespeare, showing his face and a white ruff collar. The image has a slightly grainy, artistic texture.

Shakespeare's POLITICS

A Contextual Introduction

ROBIN HEADLAM WELLS

Shakespeares Politics

John A. Murley, Sean D. Sutton

Shakespeare's Politics:

Shakespeare's Politics Allan Bloom, Harry V. Jaffa, 1964 Taking the classical view that the political shapes man's consciousness Allan Bloom considers Shakespeare as a profoundly political Renaissance dramatist He aims to recover Shakespeare's ideas and beliefs and to make his work once again a recognized source for the serious study of moral and political problems In essays looking at Julius Caesar Othello and The Merchant of Venice Bloom shows how Shakespeare presents a picture of man that does not assume privileged access for only literary criticism With this claim he argues that political philosophy offers a comprehensive framework within which the problems of the Shakespearean heroes can be viewed In short he argues that Shakespeare was an eminently political author Also included is an essay by Harry V Jaffa on the limits of politics in King Lear A very good book indeed one which can be recommended to all who are interested in Shakespeare G P V Akrigg This series of essays reminded me of the scope and depth of Shakespeare's original vision One is left with the impression that Shakespeare really had figured out the answers to some important questions many of us no longer even know to ask Peter A Thiel CEO PayPal Wall Street Journal Allan Bloom was the John U Nef Distinguished Service Professor on the Committee on Social Thought and the co director of the John M Olin Center for Inquiry into the Theory and Practice of Democracy at the University of Chicago Harry V Jaffa is professor emeritus at Claremont McKenna College and Claremont Graduate School

Shakespeare's Politics Robin Headlam Wells, 2009-03-06 An introduction to the political and historical context to Shakespeare's tragedy and history plays written in an accessible jargon free style

Perspectives on Politics in Shakespeare John A. Murley, Sean D. Sutton, 2006-08-11 Political science is becoming ever more reliant on abstract statistical models and almost divorced from human judgment hope and idealism William Shakespeare offers the political scientist an antidote to this methodological alienation this self imposed exile from the political concerns of citizens and politicians Shakespeare the most quoted author in the English speaking world presents his characters as rulers citizens and statesmen of the most famous regimes governed by their respective laws and shaped by their respective political and social institutions The actions deliberations mistakes and successes of his characters reveal the limitations and strengths of their regimes whether they be Athens Rome or England The contributors to this volume esteemed scholars of political science show us that Shakespeare's poetic imagination displays the very essence of politics and inspires valuable reflection on the fundamental questions of statesmanship and political leadership Perspectives on Shakespeare's Politics explores such themes as classical republicanism and liberty the rule of law and morality the nature and limits of statesmanship and the character of democracy

Shakespeare's Political Histories John H. Cameron, 2023-12-22 This book posits that Shakespeare's First Tetralogy draws inspiration from the Italian political histories of the early modern period These works of history influenced by the Roman historian Tacitus delve into the exploration of the machinations of power politics in governance and the shaping of historical events The argument is that closely analysing these Italian political histories can

significantly enhance our understanding of the politic aspects dramatized in Shakespeare's early English History plays. Specifically the writings of Niccolo Machiavelli are highlighted as contributing to this understanding. These politic histories were accessible in a variety of forms to many English early modern writers including Shakespeare. Thus they serve as foundation for political and strategic analogies enriching our interpretation of Shakespeare's politic histories. While delving into the Italian politic historians can illuminate Shakespeare's achievement it is suggested that we should regard the English History plays as politic histories in their own right. In essence they are dramatized versions of precisely the same kinds of politic historical writing with its emphasis on *ragion di Stato* or *raison d'état*. This emphasis on what the Elizabethans called stratagems introduces new approaches to interpreting the plays. Considering the motivation and action of its characters entails novel approaches that challenge the established reading of the plays. Machiavellian characters particularly Richard III and shed light on previously overlooked characters particularly Buckingham and Stanley revealing their considerably greater strategic acumen. This exploration provides fresh avenues for reading the Shakespeare's politic histories and better appreciate their Italian connection.

Shakespeare and Politics Bruce E. Altschuler, Michael A. Genovese, 2015-11-17 William Shakespeare more than any other author was able to capture the essence of human nature in all its manifestations. His political plays offer enduring insights into our humanity, our vanity, our noble and baser drives, what makes us great and what makes us loathsome. He tells us about ourselves and about our world. This volume gleans valuable lessons from the writings of William Shakespeare and applies them to contemporary politics. Original chapters covering over a dozen different plays take up perennial political themes including power and leadership, corruption and virtue, war and peace, evil and liberty, persuasion and polarization, and empire and global overreach.

Features of the text **Shakespeare, Politics and Politicians** Henry Buckley Charlton, 1929 **Shakespeare and Politics** Catherine M. S. Alexander, 2004-09-02 This important collection of essays shows a full range of writing on Shakespeare and politics with shifts of focus as diverse as biography, text and contexts, language and film, and from perspectives that are literary, historical, religious, theoretical and cultural. A new introductory article by John J.oughin provides a commentary on the essays, relates them to other work in the field and gives an overview of the subject. The comprehensive collection is a stimulating and provocative introduction to a subject that is complex but never dull.

Shakespeare and the Body Politic Bernard J. Dobski, Dustin A. Gish, 2013-04-25 Metaphors animate Shakespeare's corpus and one of the most prominent is the image of the body. Sketched out in the eternal lines of his plays and poetry and often drawn in exquisite detail, variations on the body metaphor abound in the works of Shakespeare. Attention to the political dimensions of this metaphor in Shakespeare and the Body Politic permits readers to examine the sentiments of romantic love and family life, the enjoyment of peace, prosperity and justice, and the spirited pursuit of honor and glory as they inevitably emerge within the social, moral and religious limits of particular political communities. The lessons to be learned from such an examination are both timely and timeless. For the tensions between the desires and

pursuits of individuals and the health of the community forge the sinews of every body politic regardless of the form it may take or even where and when one might encounter it In his plays and poetry Shakespeare illuminates these tensions within the body politic which itself constitutes the framework for a flourishing community of human beings and citizens from the ancient city states of Greece and Rome to the Christian cities and kingdoms of early modern Europe The contributors to this volume attend to the political context and role of political actors within the diverse works of Shakespeare that they explore Their arguments thus exhibit together Shakespeare s political thought By examining his plays and poetry with the seriousness they deserve Shakespeare s audiences and readers not only discover an education in human and political virtue but also find themselves written into his lines Shakespeare s body of work is indeed politic and the whole that it forms incorporates us all Perspectives on Politics in Shakespeare John A. Murley, Sean D. Sutton, 2006-08-11 Political science is becoming ever more reliant on abstract statistical models and almost divorced from human judgment hope and idealism William Shakespeare offers the political scientist an antidote to this methodological alienation this self imposed exile from the political concerns of citizens and politicians Shakespeare the most quoted author in the English speaking world presents his characters as rulers citizens and statesmen of the most famous regimes governed by their respective laws and shaped by their respective political and social institutions The actions deliberations mistakes and successes of his characters reveal the limitations and strengths of their regimes whether they be Athens Rome or England The contributors to this volume esteemed scholars of political science show us that Shakespeare s poetic imagination displays the very essence of politics and inspires valuable reflection on the fundamental questions of statesmanship and political leadership Perspectives on Shakespeare s Politics explores such themes as classical republicanism and liberty the rule of law and morality the nature and limits of statesmanship and the character of democracy **Shakespeare's King Lear and Indian Politics** William Miller, 1900
