Shakespeare, Theatre, and Time Matthew Wagner, 2013-03-01 That Shakespeare thematized time thoroughly almost obsessively in his plays is well established time is among other things a devourer Love's Labour's Lost one who can untie knots Twelfth Night or perhaps most famously simply out of joint Hamlet Yet most critical commentary on time and Shakespeare tends to incorporate little focus on time as an essential if elusive element of stage praxis This book aims to fill that gap Wagner's focus is specifically performative asking after time as a stage phenomenon rather than a literary theme or poetic metaphor His primary approach is phenomenological as the book aims to describe how time operates on Shakespearean stages Through philosophical historiographical dramaturgical and performative perspectives Wagner examines the ways in which theatrical activity generates a manifest presence of time and he demonstrates Shakespeare's acute awareness and manipulation of this phenomenon Underpinning these investigations is the argument that theatrical time and especially Shakespearean time is rooted in temporal conflict and thickness the heightened sense of the present moment bearing the weight of both the past and the future Throughout the book Wagner traces the ways in which time transcends thematic and metaphorical functions and forms an essential part of Shakespearean stage praxis **Shakespeare and Accentism** Adele Lee, 2020-12-28 This collection explores the consequences of accentism an under researched issue that intersects with racism and classism in the Shakespeare industry across languages and cultures past and present It adopts a transmedia and transhistorical approach to a subject that has been dominated by the study of Original

Pronunciation Yet the OP project avoids linguistically foreign characters such as Othello because of the additional complications their aberrant speech poses to the reconstruction process It also evades discussion of contemporary global practices and underpinning the enterprise is the search for an aural purity that arguably never existed By contrast this collection attends to foreign speech patterns in both the early modern and post modern periods including Indian East Asian and South African and explores how accents operate as metasigns reinforcing ethno racial stereotypes and social hierarchies It embraces new methodologies which includes reorienting attention away from the visual and onto the aural dimensions of performance
