Shalom Geneva Peace:

Shalom, Geneva Peace Phyllis Shalant, 1992 Thirteen year old Andi's life is changed when she befriends the glamorous uninhibited Geneva Peace and her Hebrew school is taken over by a handsome rabbinic intern **The Israeli Peace Movement** Tamar S. Hermann, 2009-09-14 This book discusses the predicament of the Israeli peace movement which paradoxically following the launching of the Oslo peace process between Israel and the Palestinians in 1993 experienced a prolonged fatal decline in membership activity political significance and media visibility After presenting the regional and national background to the launching of the peace process and a short history of Israeli peace activism the book focuses on external and internal processes and interactions experienced by the peace movement after some basic postulates of its agenda were actually although never explicitly embraced by the Rabin government The book concludes that despite its organizational decline and the zero credit given to it by the policy makers in retrospect it appears that the movement contributed significantly to the integration of new ideas for possible solutions to the Middle East conflict in the Israeli mainstream political discourse *The Warrior and the Pacifist* Lester R. Kurtz, 2018-05-23 This book looks at two contradictory ethical motifs the warrior and the pacifist across four major faith traditions Buddhism Judaism Christianity and Islam and their role in shaping our understanding of violence and the morality of its use The Warrior and the Pacifist explores how these faith traditions which now mutually inhabit our life spaces bring with them across the millennia the moral teachings that have traveled from prehistoric humanity embedded in the beliefs rituals and institutions socially constructed by humans to deal with ultimate concerns core aspects of daily personal and social life and life transitions **The Geneva Preliminary Meeting of the Universal Religious Peace Conference, September, 1928**, 1928 The Trinity, Creation and Pastoral Ministry Graham Buxton, 2007-01-01 In this book the author proposes a three way conversation between theology science and pastoral ministry His approach draws on a Trinitarian understanding of God as a relational being of love whose life spills over into all created reality human and nonhuman By locating human meaning and purpose within God's creation community this book offers the possibility of a transforming engagement between those in pastoral ministry and the scientific community **Theological Anthropology in the Anthropocene** Jan-Olav Henriksen, 2022-12-14 The Anthropocene presents theology and especially theological anthropology with unprecedented challenges There are no immediately available resources in the theological tradition that reflect directly on such experiences Accordingly the situation calls for contextually based theological reflection of what it means to be human under such circumstances This book discusses the main elements in theological anthropology in light of the fundamental points a that theological anthropology needs to be articulated with reference to and informed by the concrete historical circumstances in which humanity presently finds itself and b that the notion of the Anthropocene can be used as a heuristic tool to describe important traits and conditions that call for a response by humanity and which entail the need for a renewal of what a Christian self

understanding means Jan Olav Henriksen explores what such a response entails from the point of view of contemporary theological anthropology and discusses selected topics that can contribute to a contextually based position Social Information Technology: Connecting Society and Cultural Issues Kidd, Terry T., Chen, Irene, 2008-04-30 This book provides a source for definitions antecedents and consequences of social informatics and the cultural aspect of technology It addresses cultural societal issues in social informatics technology and society the Digital Divide government and technology law information security and privacy cyber ethics technology ethics and the future of social informatics and technology Provided by publisher **When Peace Is Not Enough** Atalia Omer, 2013-06-03 The state of Israel is often spoken of as a haven for the Jewish people a place rooted in the story of a nation dispersed wandering the earth in search of their homeland Born in adversity but purportedly nurtured by liberal ideals Israel has never known peace experiencing instead a state of constant war that has divided its population along the stark and seemingly unbreachable lines of dissent around the relationship between unrestricted citizenship and Jewish identity By focusing on the perceptions and histories of Israel's most marginalized stakeholders Palestinian Israelis Arab Jews and non Israeli Jews Atalia Omer cuts to the heart of the Israeli Arab conflict demonstrating how these voices provide urgently needed resources for conflict analysis and peacebuilding Navigating a complex set of arguments about ethnicity boundaries and peace and offering a different approach to the renegotiation and reimagination of national identity and citizenship Omer pushes the conversation beyond the bounds of the single narrative and toward a new and dynamic concept of justice one that offers the prospect of building a lasting peace

New SCM Dictionary of Christian Spirituality Philip Sheldrake, 2013-05-20 This dictionary attempts to give direct access to the development of Christian Spirituality It is a series of pieces written by experts to provide instant accurate and thought provoking information of high scholarship **Zionist Israel and Apartheid South Africa** Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the

two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa
