Surrealism and the People's Republic of China Lauren Walden,2025-11-13 This study investigates cultural exchange between the Surrealist movement and the People s Republic of China 1949 present Surrealist

art was officially prohibited under Mao's rule 1949-1976. However, the book interrogates potent tensions in clandestinely created surrealist artworks by Zhao Shou and Sha Qi who discovered the movement while studying abroad. Furthermore, Walden explores how several European Surrealists aligned Chinese calligraphy with automatism as well as Michel Leiris and Marcel Mariën's travels to Maoist China and their diametrically opposed visions of the nation. Amidst post-socialism, the book posits that the 85 New Wave consciously employed Surrealism to process the traumatic Cultural Revolution (1966-1976) and react to newfound societal freedoms. Subsequently, the volume considers why a new artistic tendency of surrealist pop emerged in the 1990s. At present, Lauren Walden reveals how Surrealism has become officialised and even promoted by Chinese authorities owing to revolutionary resonances between traditional Chinese art and the western avant-garde. The book will be of interest to scholars working in art history, Chinese studies, and Surrealism. Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license.

Remaking China's Great Cities Samuel Y. Liang, 2014-07-25 China's rapid urbanization has restructured the great socialist cities Beijing, Shanghai, and Guangzhou into mega-cities that embrace global capitalism. This book focuses on the urban transformations of these three cities. Beijing is the nation's political and cultural capital, Shanghai is the economic and financial powerhouse, and Guangzhou is the capital of Guangdong Province and the regional center of south China. All are historical cities with rich imperial, colonial, and regional heritages, and all have been drastically transformed in the last six decades. This book examines the cities' continuous urban legacies since 1949 in relation to state governance, economic reforms, and cultural production. By adopting local historical perspectives, it offers more nuanced accounts of the current urban change than the modernization/globalization paradigm and conceptualizes the change in the context of the cities' socialist, colonial, and imperial legacies. Specifically, Samuel Y. Liang offers an overview of the urban planning and territorial expansion of the great cities since 1949, explores the production and consumption of urban housing, its spatial forms, media representations, and socio-political implications, and examines the state-led redevelopment of old urban cores and residential neighborhoods and the urban conservation movement. *Remaking China's Great Cities* will be of great interest to students and scholars working across a range of fields including Chinese studies, Chinese culture and society, urban studies, and architecture.

Youth Economy, Crisis, and Reinvention in Twenty-First-Century China Hui Faye Xiao, 2019-11-22 This book surveys the explosive youth culture in twenty-first-century China, an active and powerful force catalysing cultural innovations, social changes, and collective efforts re-inventing a pluralistic and multivalent youth qingnian in an age of enormous change, division, and uncertainty. Providing a comprehensive analysis of literary, cinematic, musical, televisual, and social media representations about, for, and by disparate youth groups, this book seeks to offer a systematic investigation of a trans-medial and multi-locale youth culture. In so doing, it examines contributions from high school dropouts, industrial workers, migrant laborers, and leftover women, as well as best-selling writers and filmmakers, cultural entrepreneurs,

queer idols and fans and young feminist activists Observing the Chinese youths deployment of small genres such as light novels and short videos in addition to digital media this book ultimately demonstrates the renewal of cultural forms and the transformative power of networked small atomized individuals in reinventing a youthful coalition of silenced belittled and marginalized groups A thoroughly interdisciplinary study Youth Economy Crisis and Reinvention in Twenty First Century China will be useful to students and scholars of Chinese culture and society as well as Literary Studies Cultural Studies Gender Studies and Media Studies
