Shaping An American Institution Robert E Wood And Sears Roebuck:

Shaping an American Institution James C. Worthy, 1986 *Retail Nation* Donica Belisle, 2011-02-15 The experience of walking down a store aisle replete with displays salespeople and infinite choice is so common we often forget retail has a short history Retail Nation traces Canada's transformation into a modern consumer society back to an era 1890 to 1940 when department stores such as Eaton's ruled the shopping scene and promised to strengthen the nation Department stores emerge as agents of modern nationalism but the nation they helped to define white consumerist middle class was more limited and contested than nostalgic portraits of the early department store suggest **The Bass Handbook of Leadership** Bernard M. Bass, Ruth Bass, 2009-12-01 For thirty three years and through three editions Bass Stogdill's Handbook of Leadership has been the indispensable bible for every serious student of leadership Since the third edition came out in 1990 the field of leadership has expanded by an order of magnitude This completely revised and updated fourth edition reflects the growth and changes in the study of leadership over the past seventeen years with new chapters on transformational leadership ethics presidential leadership and executive leadership Throughout the Handbook the contributions from cognitive social psychology and the social political communications and administrative sciences have been expanded As in the third edition Bernard Bass begins with a consideration of the definitions and concepts used and a brief review of some of the betterknown theories Professor Bass then focuses on the personal traits tendencies attributes and values of leaders and the knowledge intellectual competence and technical skills required for leadership Next he looks at leaders socioemotional talents and interpersonal competencies and the differences in these characteristics in leaders who are imbued with ideologies especially authoritarianism Machiavellianism and self aggrandizement A fuller examination of the values needs and satisfactions of leaders follows and singled out for special attention are competitiveness and the preferences for taking risks In his chapters on personal characteristics Bass examines the esteem that others generally accord to leaders as a consequence of the leaders personalities The many theoretical and research developments about charisma over the past thirty years are crucial and are explored here in depth Bass has continued to develop his theory of transformational leadership the paradigm of the last twenty years and he details how it makes possible the inclusion of a much wider range of phenomena than when theory and modeling are limited to reinforcement strategies He also details the new incarnations of transformational leadership since the last edition Bass has greatly expanded his consideration of women and racial minorities both of whom are increasingly taking on leadership roles A glossary is included to assist specialists in a particular academic discipline who may be unfamiliar with terms used in other fields Business professors and students executives in every industry and politicians at all levels have relied for years on the time honored guidance and insight afforded by the Handbook **The Impulse Factor** Nick Tasler, 2012-12-11 Some people can take risks move abroad switch careers and give up everything to chase their dreams with hardly a second thought For others looking before they leap is

vital to making even simple decisions In his first book Nick Tasler research and development director for cutting edge think tank TalentSmart turns conventional wisdom on its head by explaining that there are actually two factors that determine whether an individual will be impulsive or cautious The first is genetic and the second is Tasler s theory of Conditional Impulsivity in which the gravity of a particular situation can trigger unusually risky responses from a cautious person More than just a book The Impulse Factor provides a clear understanding of why we make the choices we do and the tools to turn those decisions into something great

International Bibliography of Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians

Learning by Doing in Markets, Firms, and Countries Naomi R. Lamoreaux, Daniel M. G. Raff, Peter Temin, 2007-11-01 Learning by Doing in Markets Firms and Countries draws out the underlying economics in business history by focusing on learning processes and the development of competitively valuable asymmetries The essays show that organizations like people learn that this process can be organized more or less effectively which can have major implications for how competition works The first three essays in this volume explore techniques firms have used to both manage information to create valuable asymmetries and to otherwise suppress unwelcome competition The next three focus on the ways in which firms have built special capabilities over time capabilities that have been both sources of competitive advantage and resistance to new opportunities The last two extend the notion of learning from the level of firms to that of nations The collection as a whole builds on the previous two volumes to make the connection between information structure and product market outcomes in business history

Business Ethics from the 19th Century to Today David George Surdam, 2020-01-29 This book combines elements of economic and business history to study business ethics from the nineteenth century to today It concentrates on American and British business history delving into issues such as slavery industrialization firm behavior and monopolies and Ponzi schemes This book draws on the work of economists and historians to highlight the importance of changing technologies religious beliefs and cultural attitudes showing that what is considered ethical differs across time and place

"The Urban Department Store in America, 1850-1930" Louisa Iarocci, 2017-07-05 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is

the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants **By the Sweat of Your Brow** David J. Schnall, 2001 Fulfillment can never result from work related productivity and financial success alone BOOK JACKET
