Social Workers' Desk Reference, 2015-01-13 People all over the world are confronted by issues such as poverty a lack of access to quality education unaffordable and or inadequate housing and a lack of needed health and mental services on a daily basis Due to these issues there is a need for social workers who have access to relevant and timely scholarly materials in order to meet the needs of those facing these issues The social psychological and biological factors

resulting from these issues determine the level of a person's mental health at any given point in time and it is necessary for social workers to continue to evolve and develop to the new faces and challenges of the times in order to adequately understand the effects of these issues. In the first and second editions of the Social Workers Desk Reference the changes that were occurring in social work practice education and research were highlighted and focused upon. This third edition continues in the same tradition and continues to respond to the changes occurring in society and how they are impacting the education research and practice of social work as a whole. With 159 chapters collaboratively written by luminaries in the profession this third edition serves as a comprehensive guide to social work practice by providing the most recent conceptual knowledge and empirical evidence to aid in the understanding of the rapidly changing field of social work. Each chapter is short and contains practical information in addition to websites and updated references. Social work practitioners, educators, students and other allied professionals can utilize the Social Workers Desk Reference to gain interdisciplinary and interprofessional education practice and research.

Assessment in Social Work Practice Carol H. Meyer, 1993 This book confronts the current bureaucratic and fiscal constraints that have inhibited social workers from assessing clients and offers concrete ways of handling a wide array of cases.

Social Work Processes Beulah Roberts Compton, Burt Galaway, 1979

Social Work, Cats and Rocket Science Elaine James, Rob Mitchell, Hannah Morgan, 2019-09-19 This book tells stories of just how powerful social work can be. At its heart are stories drawn from frontline practice ranging from first interviews through to complex decision making. Along the way we meet the social worker who assessed a cat though for all the right reasons. We witness the cost of failing to protect the rights of adults exemplified in the tragic death of Connor Sparrowhawk. We also see the transformations that can happen when social workers really get it right as in the case of Peter whose love of balloons led them to feature in his care plan. These stories from practice are combined with guidance and reflective exercises to offer valuable practice wisdom and learning for new and experienced social workers alike. By turns funny, wise and moving this book articulates the personal and professional qualities needed to practise rights based social work. It reveals the potential of the profession to make a difference to the lives of individuals and to communities.
