Shatibi's Philosophy Of Islamic Law:

Shatibi's Philosophy of Islamic Law Muhammad Khalid Masud Masud, 2023-12-09 A welcome contribution to the small number of English language works on Islamic legal theory and it is a work which all libraries that have an interest in Islamic Studies and cognate areas should acquire. Journal of Near Eastern Studies 1982 Dr Masud has clearly put much thought and effort into the making of Islamic Legal Philosophy and the result is a work of which serious students of both Islamic modernism and of the history and theory of Islamic law will have to take account. It is a work that must be taken into consideration in any future research into the question of *maslaha* for on this point the author shows himself capable of keen observation and insights. Bulletin of the School of Oriental and African Studies 1979 Throughout the centuries there has been a basic question asked among Islamic jurists and Muslims: Why did Allah issue the commandments that Allah did? While some schools of thought such as the Ash'ari philosophers think that this is an invalid question altogether for if Allah had reasons for doing what Allah does or did then He would be caused or compelled by some outside power—a theological impossibility—other schools have thought have gone to the other extreme such as the Mutazilites some of who have suggested Allah had to do what is best for humanity. Muhammad Khalid Masud's detailed consideration of one philosopher al-Shatibi offers a much more complex consideration of possible principles behind the injunctions of Islamic law. *Shari'ah*. Primarily this book is a consideration of the concept of *maslaha* or the good and the role it plays not only in the actual injunctions of Islamic law but also in reasoning about the law making determinations in specific cases and what extent the concept of the good of humanity can provide insights into the law. Masud masterfully outlines the development of the concept of *maslaha*, his treatment of al-Razi being of particular importance and sets the scene of al-Shatibi during a time of great social change. **Shatibi's**

Philosophy of Islamic Law Muhammad Khalid Masud, 1997 Talks about the work on Al-Shatibi and his legal philosophy

Shāṭibī's Philosophy of Islamic Law Muhammad Khalid Masud, 1995 *Shatibi's Philosophy of Islamic Law* Muhammad Khalid Masud, 1973 This thesis studies Shatibi's d. 790-1388 frequently quoted yet little explored and often misunderstood concept of *maslaha*. The thesis argues that Shatibi's doctrine that the protection of the *maslaha* of men is the main objective of Islamic law was a product of the grave need of his time to adapt Islamic legal theory to new social conditions. Certain theological and moral considerations had limited the validity of *maslaha* as a principle of legal reasoning. After an analysis of such considerations Shatibi proposed *maslaha* as the most fundamental source of Islamic law. Shatibi was however reluctant to accept the logical conclusions of his argument and let his definition of *ta'abbud* be ambiguous.

Maqasid Al-Shariah and Biomedicine Aasim I. Padela, 2025-02-04 Written by a uniquely positioned scholar, this book addresses a notable gap in scholarship by exploring links between the *maqasid al-Shari'ah* and contemporary healthcare. Discussions about *maqasid* have become prevalent within Muslim public, professional, academic, and policy circles as they are seen as means to bridge the classical tradition with modern exigencies. Accordingly, this book critically engages with *maqasid*

thought in relation to the concepts goals practices and social structures of biomedicine highlighting both the potential and limitations of current approaches It aims to inspire an interdisciplinary dialogue motivating scholars to refine maq sid theories update implementation frameworks and conduct applied research to address contemporary bioethical challenges By addressing questions about the relevance of maq sid to health and societal well being and their potential to inform healthcare practices and policies the book lays essential groundwork for scholarly engagement at the intersection of Islamic law and biomedicine

Sharia and Justice Abbas Poya,2018-05-22 Justice is considered the basic norm of human coexistence Every legal order refers to the concept of justice and Muslims also regard their religious norms the Sharia as offering just solutions to legal questions But is the assumption that the Sharia is just merely an acceptance of a status quo correct And is justice the necessary aim of the Sharia In this volume renowned scholars discuss these questions from different perspectives In principle the first normative source of Islam the Qur an orders justice and fair conduct Rohe At the same time an analysis of the concept of justice in the classical age of Islam Ahmed and Poya also shows that there existed ambivalent understandings of this concept The relationship of the idea of justice in Islam to political questions Ende to war Poya and to modern reform Mir Hosseini again confirms the importance of the concept for a critical reflection on traditional assumptions and existing circumstances The discussion on the hijab in Western countries Ladwig shows paradigmatically how justice can regulate the relationship between the secular state and the Sharia The essays in this volume endeavor to show that debates about justice in Islam as well express an underlying tension between the perception of an order as just on the one hand and the feeling of injustice under the same order on the other This discussion validates the idea that justice should be understood as a concept subject to a perpetual reexamination according to changing times and circumstances

Reconstructing Jihad amid Competing International Norms H. Rane,2009-04-26 This book examines the Israel Palestine conflict from a constructivist perspective It argues that in the context of international norms and identity factors a contemporary methodology for the reconstruction of jihad is essential for achievement of a just peace

Genetic Privacy: An Evaluation Of The Ethical And Legal Landscape Terry Sheung-hung Kaan,Calvin Wai-loon Ho,2013-07-04 Privacy is an unwieldy concept that has eluded an essentialised definition despite its centrality and importance in the body of bioethics The compilation presented in this volume represents continuing discussions on the theme of privacy in the context of genetic information It is intended to present a wide range of expert opinion in which the notion of privacy is examined from many perspectives in different contexts and imperatives and in different societies with the hope of advancing an understanding of privacy through the examination and critique of some of its evolving component concepts such as notions of what constitute the personal the context of privacy the significance and impact of the relational interests of others who may share the same genetic inheritance and mechanisms for the protection of privacy as well as of their limitations among others More specifically the discussions in this volume encourages us to think broadly about privacy as encompassing values that are entailed in the

sociality of context and of relations and also as freedom from illegitimate and excessive surveillance A long standing question that continues to challenge us is whether genetic information should be regarded as exceptional as it is often perceived A conclusion that could be derived from this volume is that while genetic information may be significant it is not exceptionally so The work presented in this volume underlines the continuing and growing relevance of notions of privacy to genomic science and the need to take ownership of a genetic privacy for the future through broad rigorous and open discussion
