Long Road Home Memories Of September 11th:

The Long Road Home Joann B. Namorato, 2002 That fateful September morning started out like any other The skies were a gorgeous blue nothing like the gray hell they would appear hours later Joann Namorato was only working in Downtown Manhattan to help alleviate some of the costs of putting two of her three children through college Despite the financial ease that working in New York City would provide she feared that a terrorist bombing like the one in 1993 would occur However after consulting with friends and family she came to the conclusion that a second attack on the same location was highly unlikely The Long Road Home is an eyewitness account of the events of September 11 2001 through the eyes and heart of a woman whose greatest fear was taking place right in front of her Was it possible that the heart wrenching lessons of courage she had learned during her painful childhood turned out to be the overwhelming factor in guiding her out of the city that day Follow us through this woman s incredible life journey and see how the events of 9 11 01 have changed her life and the lives of so many others forever

The Long Road Home Ben Shephard, 2011-02-22 At the end of World War II long before an Allied victory was assured and before the scope of the atrocities orchestrated by Hitler would come into focus or even assume the name of the Holocaust Allied forces had begun to prepare for its aftermath Taking cues from the end of the First World War planners had begun the futile task of preparing themselves for a civilian health crisis that due in large part to advances in medical science would never come The problem that emerged was not widespread disease among Europe s population as anticipated but massive displacement among those who had been uprooted from home and country during the war Displaced Persons as the refugees would come to be known were not comprised entirely of Jews Millions of Latvians Poles Ukrainians and Yugoslavs in addition to several hundred thousand Germans were situated in a limbo long overlooked by historians While many were speedily repatriated millions of refugees refused to return to countries that were forever changed by the war a crisis that would take years to resolve and would become the defining legacy of World War II Indeed many of the postwar questions that haunted the Allied planners still confront us today How can humanitarian aid be made to work What levels of immigration can our societies absorb How can an occupying power restore prosperity to a defeated enemy Including new documentation in the form of journals oral histories and essays by actual DPs unearthed during his research for this illuminating and radical reassessment of history Ben Shephard brings to light the extraordinary stories and myriad versions of the war experienced by the refugees and the new United Nations Relief and Rehabilitation Administration that would undertake the responsibility of binding the wounds of an entire continent Groundbreaking and remarkably relevant to conflicts that continue to plague peacekeeping efforts The Long Road Home tells the epic story of how millions redefined the notion of home amid painstaking recovery

Peter Gatrell reminds us that the history of Europe has always been one of people on the move. The end of World War II left Europe in a state of confusion with many Europeans virtually stateless. Later as former colonial states gained national independence, colonists and their supporters migrated to often unwelcoming metropolises. The collapse of communism in 1989 marked another fundamental turning point. Gatrell places migration at the center of post-war European history and the aspirations of migrants themselves at the center of the story of migration. This is an urgent history that will reshape our understanding of modern Europe.

Life Is Elsewhere Anne Lounsbury, 2019-11-15. In *Life Is Elsewhere* Anne Lounsbury shows how nineteenth-century Russian literature created an imaginary place called the provinces, a place at once homogeneous, static, anonymous, and symbolically opposed to Petersburg and Moscow. Lounsbury looks at a wide range of texts, both canonical and lesser-known, in order to explain why the trope has exercised such enduring power and what role it plays in the larger symbolic geography that structures Russian literature's representation of the nation's space. Using a comparative approach, she brings to light fundamental questions that have long gone unasked: how to understand, for instance, the weakness of literary regionalism in a country as large as Russia? Why the insistence, from Herzen through Chekhov and beyond, that all Russian towns look the same? In a literary tradition that constantly compared itself to a western European standard, Lounsbury argues the problem of provinciality always implied difficult questions about the symbolic geography of the nation as a whole. This constant awareness of a far-off European model helps explain why the provinces, in all their supposed drabness and predictability, are a topic of such fascination for Russian writers: why these anonymous places are in effect so important and meaningful, notwithstanding the culture's nearly unremitting emphasis on their nullity and meaninglessness.

Open Access edition funded by the National Endowment for the Humanities. [Identity and Power in Narratives of Displacement](#) Katrina M. Powell, 2015-02-11. In this book, Powell examines the ways that identities are constructed in displacement narratives based on cases of eminent domain, natural disaster, and civil unrest, attending specifically to the rhetorical strategies employed as barriers and boundaries intersect with individual lives. She provides a unique method to understand how the displaced move within accepted and subversive discourses and how representation is a crucial component of that movement. In addition, Powell shows how notions of human rights and the public good are often at odds with individual well-being and result in intriguing intersections between discourses of power and discourses of identity. Given the ever-increasing numbers of displaced persons across the globe and the layers of displacement experienced by many, this study sheds light on the resources of rhetoric as means of survival and resistance during the globally common experience of displacement.
