Coetzee developed literary strategies in common to cope with crisis periods they were anticipating living through or looking back on Matthew Cheney outlines how the three writers shaped their art to create an author-audience relationship congruent with the goals of critical pedagogy espoused by such thinkers as Paulo Freire and bell hooks Seeking to stimulate ethical thought Woolf Delany and Coetzee required their readers to be active interpreters of their texts forms contents and contexts By pushing against fiction's fictionality these writers of very different backgrounds geographies privileges situations tastes and styles discovered complex ways to address the world wars in England the AIDS crisis in New York and apartheid in South Africa going so far as to question the value of fiction itself *The Machine that Sings* Gordon A. Tapper, 2013-10-18 Examining how Crane's corporeal aesthetic informs poems written across the span of his career *The Machine That Sings* focuses on four texts in

which Crane's preoccupation with the body reaches its apogee. Tapper treats *Voyages*, *The Wine Merchant*, and *Possessions* as a triptych of erotic poems in which Crane plays out alternative resolutions to the dialectic between purity and defilement, a conceptual dynamic which Tapper argues is central to both Crane's poetics of difficulty and his representations of homosexual desire. Tapper concentrates on the three sections of *The Bridge* most concerned with recuperating animality: *National Winter Garden*, *The Dance*, and *Cape Hatteras*. *The Subject of Race in American Science Fiction* Sharon DeGraw, 2006-12-19 While the connections between science fiction and race have largely been neglected by scholars, racial identity is a key element of the subjectivity constructed in American SF. In his Mars series, Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism. Writing in the 1930s, George S. Schuyler revised Burroughs' normative SF triangle of white author, white audience, and white protagonist and promoted an individualistic, highly variable concept of race instead. While both Burroughs and Schuyler wrote SF focusing on racial identity, the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored. Beginning in the 1960s, Samuel R. Delany more fully joined SF and African American literature. Delany expands on Schuyler's racial constructionist approach to identity, including gender and sexuality in addition to race. Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature. Connecting the popular fiction of Burroughs, the controversial career of Schuyler, and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today. **The Individual and Utopia** Clint Jones, Cameron Ellis, 2016-03-09 Central to the idea of a perfect society is the idea that communities must be strong and bound together with shared ideologies. However, while this may be true, rarely are the individuals that comprise a community given primacy of place as central to a strong communal theory. This volume moves away from the dominant current macro-level theorising on the subject of identity and its relationship to and with globalising trends, focusing instead on the individual's relationship with utopia so as to offer new interpretive approaches for engaging with and examining utopian individuality. Interdisciplinary in scope and bringing together work from around the world, *The Individual and Utopia* enquires after the nature of the utopian as citizen, demonstrating the inherent value of making the individual central to utopian theorizing and highlighting the methodologies necessary for examining the utopian individual. The various approaches employed reveal what it is to be an individual yoked by the idea of citizenship and challenge the ways that we have traditionally been taught to think of the individual as citizen. As such, it will appeal to scholars with interests in social theory, philosophy, literature, cultural studies, architecture, and feminist thought whose work intersects with political thought, utopian theorizing, or the study of humanity or human nature. **Conversations with Samuel R. Antonin Artaud and the Healing Practices of Language Joeri Visser, 2021-06-03 The life of Antonin Artaud 1896-1948 was tormented by physical and mental illnesses Already in his earlier works Artaud tried to express his physical and mental suffering but perceived in describing his feelings the obstructive and illness-inducing role of language This is the first book written in English that analyses the role of a healing language with which Artaud engaged in his later writings Joeri Visser guides us through the years in which Artaud suffered increasingly from mental instability and considered the act of writing his only means of survival In doing so Visser unfolds a literary and a philosophical analysis of how language and life work together and how a creative play with language can help us to reengage sustainably with the joyous as well as the terrible forces of life
