1 **Narrative Pedagogy** Ivor Goodson,Scherto Gill,2011 It is widely recognised that we are living through an age of the narrative Many of the constituent disciplines in the social sciences resonate with this trend by using life history and narrative approaches and methods As we move on from the modernist period which prioritised objectivity into the postmodern regard for subjectivity this resort to narrative is likely to become more apparent and explicit in academic as well as social and commercial discourse One aspect of this narrative form which is commonly overlooked is that of the pedagogic encounter This is the phenomenon which is addressed by all narrative and biographical research Fundamentally reflecting and examining the narrative of our lives in the process of learning this book provides a series of studies and guidelines for what we have termed narrative pedagogy It presents a resource for an exploration of those narrative processes that can lead to meaningful change and development for individuals and groups within a learning environment and in life learning This focus on life history allows us to identify and support routes to learning within the narrative landscape of learners and through these pedagogic encounters **God, Time, and the Incarnation** Richard A. Holland Jr.,2012-02-20 The dominant view among Christian theologians and philosophers is that God is timeless that he exists outside of time in an atemporal eternity In *God Time and the Incarnation* Richard Holland offers a critical evaluation of this traditional view in light of the most central doctrine of Christianity the Incarnation of Christ Holland reviews the history of this controversy highlighting the various theological problems for which atemporal models have been offered as a solution He asserts the central importance of the Incarnation for Christian theology and evaluates several atemporal models in light of this doctrine Finally he suggests that the traditional atemporal view is not compatible with a robust and orthodox view of the Incarnation This book rejects the traditional atemporal view of God s relationship to time and argues based on the Incarnation that God experiences temporal sequence in his existence *Exploring the Meaning of Life* Joshua W. Contemplating Friendship in

Aristotle's Ethics Ann Ward, 2016-09-30 Examines how Aristotle posits political philosophy and the experience of friendship as a means to bind strictly intellectual virtue with morality In this book Ann Ward explores Aristotle's Nicomachean Ethics focusing on the progressive structure of the argument Aristotle begins by giving an account of moral virtue from the perspective of the moral agent only to find that the account itself highlights fundamental tensions within the virtues that push the moral agent into the realm of intellectual virtue However the existence of an intellectual realm separate from the moral realm can lead to lack of self restraint Aristotle Ward argues locates political philosophy and the experience of friendship as possible solutions to the problem of lack of self restraint since political philosophy thinks about the human things in a universal way and friendship grounds the pursuit of the good which is happiness understood as contemplation Ward concludes that Aristotle's philosophy of friendship points to the embodied intellect of timocratic friends and mothers in their activity of mothering as engaging in the highest form of contemplation and thus living the happiest life

Happiness,

Flourishing and the Good Life Garrett Thomson, Scherto Gill, Ivor Goodson, 2020-09-24 Well being studies is an exciting and relatively new multi disciplinary field with data being gathered from different domains in order to improve social policies In its reliance on a truncated account of well being based implicitly on neoclassical economic assumptions however the field is deeply flawed Departing from reductive accounts of well being that exclude the normative or evaluative aspect of the concept and so impoverish the attendant conception of human life this book offers a new perspective on what counts normatively as being well In reconceptualising well being holistically it presents a fresh vista on how we can consider the meanings of human life in a manner that also serves as a source of constructive social critique The book thus undertakes to invert the usual approach to the social sciences in which the research is required to be objective in terms of methodology and subjective with regard to evaluative claims Instead the authors are deliberately objective about values in order to be more open to the subjectivities of human life Happiness Flourishing and the Good Life thus seeks to move away from economic considerations domination of all social spaces in order to understand the possibilities of well being beyond instrumentalisation or commodification A radical new approach to the human well being this book will appeal to philosophers social theorists and political scientists and all who are interested in human happiness
