Attitudes Toward Lesbians and Gay Men explores the pervasiveness and widespread social acceptance of heterosexism in the United States by analyzing existing social and political systems for their representative beliefs. As a scholar or student of psychology, sociology, women's studies, gay/lesbian studies, or social work who is concerned with the need for positive change in attitudes toward same-sex relationships, this book is for you. You will learn more about current indicators of heterosexism and homonegativity at multiple levels of representation and better understand the cultural obstacles and openings for attitudinal transformation. In *The Construction of Attitudes Toward Lesbians and Gay Men*, empirical research, critical social analysis, theoretical development, and case study applications are used to investigate negative attitudes toward homosexuals. Some of the individual, social, and cultural prejudices that you will examine include HIV/AIDS stigma and HIV/AIDS knowledge, negative legal imagery of homosexuals portrayed by courts such as in the 1996 majority opinion in *Romer v. Evans*, the lack of civil rights for homosexuals, including laws forbidding homosexual marriage, homophobia in academia based on institutional policies for spouse benefits, Judeo-Christian mythologies, stereotypical masculine and feminine images portrayed by the media, sociocultural and historical origins of sexism. *The Construction of Attitudes Toward Lesbians and Gay Men* is a critical investigation of representations of homonegativism in American culture. You will gain a deeper understanding of individual identities and relational behaviors within today's dominant culture through an analysis of collective ideologies, institutional policies, and more. The immense research and knowledge contained in this book provides you with a multifaceted view of current indicators of heterosexism and homonegativity and works to eliminate anti-gay/lesbian prejudice.

Bisexual and Gay Husbands Fritz Klein, Thomas R. Schwartz, 2014-02-04. What happens when married men face their gay/bisexual needs? This astonishing volume offers an intimate look into the lives and thoughts of bisexual men. Already married to women, these men are undeniably attracted to other men. Their struggle with conflicting needs, desires, and loyalties is not filtered through theories or evoked in brief interviews. It comes straight from their own keyboards. The stories told in *Bisexual and Gay Husbands* are taken from an Internet mailing list which allows people to speak freely and in anonymity yet also encourages the development of a tightly knit community. Men at all stages of the coming-out process share their experiences, their secrets, their pain, shame, anger, and hope. One man writes, "I have found the answer to my bisexual needs and am afraid to embrace it. I need help and advice to know what to do. What you people have done in your lives may hold the key to helping me decide on a course of action. I am either going to create a dream come true or hell on earth as I destroy my marriage. I can't tell which, and of course you can't either. But you CAN tell me how you are handling the problems I am facing." *Bisexual and Gay Husbands* includes advice and information on the issues that touch these men most deeply, including how to tell my wife and kids what it means to self-identify as bisexual or gay, what kinds of relationships do I want with men, can triads work, how do I deal with my children's reaction, do I have to leave my wife? The insight, intelligence, and honesty revealed in *Bisexual and Gay Husbands* make it a riveting read, but it also has great clinical

and historic value for therapists sex theorists and bisexual men and their families

Male to Male Edward Tejirian, 2013-04-03 Explore the feelings of men toward other men without the pigeonholing found in terms like gay and straight *Male to Male Sexual Feeling Across the Boundaries of Identity* starts with the evidence that most studies on male sexuality have ignored the same sex feelings of men whose identities are heterosexual Of the more than fifty men in this book almost half were aware of some degree of same sex feeling But beyond percentages the primary focus of *Male to Male* is the exploration through their own words of how these men experienced same sex feelings what these feelings meant to them the fears surrounding them and the consequences of the collision between their heterosexual identities and their same sex feelings In addition to comparative data on women s same sex feelings as well as on what men say in regard to their feelings about women *Male to Male* includes material from two in depth case studies The first is on Clark an African American man who moved into sex with men in prison His story shows that the need to see gay men as feminine is really a cultural defense against the powerful pull toward the male to male bond and points to the movement to fulfill that bond when this defense is dropped The second is on Zack a gay police officer His story explores the different dimensions and meanings of the male to male bond as these unfolded in his own life while telling about the heterosexually identified men who came out to him about their own same sex feelings *Male to Male* will help you explore same sex feelings in heterosexual men and women same sex feelings in the military prison culture and the heterosexual role the fear of domination the aesthetics of fear and power the dynamics of rape passionate relationships between heterosexual identified men and much more *Male to Male* provides evidence showing that the identity that really counts constituting the deepest source from which men s sexual feelings for each other spring is not specifically a gay or heterosexual identity That source is rather a male identity and beyond that a human identity
