The Dynamics of Disaster Susan W. Kieffer, 2013-10-14 If you are an amateur weather geek disaster wonk or budding student of earth sciences you will want to read this book Seattle Times In 2011 there were fourteen natural calamities that each destroyed over a billion dollars worth of property in the United States alone In 2012 Hurricane Sandy ravaged the East Coast and major earthquakes struck in Italy the Philippines Iran and Afghanistan In the first half of 2013 the awful drumbeat continued a monster supertornado struck Moore Oklahoma a powerful earthquake shook Sichuan China a cyclone ravaged Queensland Australia massive floods inundated Jakarta Indonesia and the largest wildfire ever engulfed a large part of Colorado Despite these events we still behave as if natural disasters are outliers Why else would we continue to build new communities near active volcanoes on tectonically active faults on flood plains and in areas routinely lashed by vicious storms A famous historian once observed that civilization exists by geologic consent subject to change without notice In the pages of this unique book leading geologist Susan W Kieffer provides a primer on most types of natural disasters earthquakes tsunamis volcanoes landslides hurricanes cyclones and tornadoes By taking us behind the scenes of the underlying geology that causes them she shows why natural disasters are more common than we realize and that their impact on us will increase as our growing population crowds us into ever more vulnerable areas Kieffer describes how natural disasters result from changes in state in a geologic system much as when water turns to steam By understanding what causes these changes of state we can begin to understand the dynamics of natural disasters In the book's concluding chapter Kieffer outlines how we might better prepare for and in some cases prevent future disasters She also calls for the creation of an organization something akin to the Centers for Disease Control and Prevention but focused on pending natural disasters

Nature-Based Flood Risk Management on Private Land Thomas Hartmann, Lenka Slavíková, Simon McCarthy, 2019-08-22 This open access book addresses the various disciplinary aspects of nature based solutions in flood risk management on private land In recent decades water management has been moving towards nature based solutions These are assumed to be much more multi purpose than traditional grey infrastructures and seem to be regarded as a panacea for many environmental issues At the same time such measures require more and mostly privately owned land and more diverse stakeholder involvement than traditional grey engineering approaches They also present challenges related to different disciplines Nature based solutions for flood risk management not only require technical expertise but also call for interdisciplinary insights from land use planning economics property rights sociology landscape planning ecology hydrology agriculture and other disciplines to address the challenges of implementing them Ultimately nature based flood risk

management is a multi disciplinary endeavor Featuring numerous case studies of nature based flood risk management accompanied by commentaries this book presents brief academic reflections from two different disciplinary perspectives that critically highlight which specific aspects are of significance and as such underscore the multi disciplinary nature of the challenges faced

Design for Regenerative Cities and Landscapes Rob Roggema, 2022-05-06 This book discusses the way to design and plan for regenerative cities and landscapes Where sustainability aims to safeguard the resources for future generations and the resilience concept focuses on dealing with shocks to keep the system functioning regeneration aims to give back more than it takes from the system This principle is often used in analytical and assessment literature but not yet elaborated in a spatial planning and design context which this book does It offers insights from a range of perspectives spatial scales such as the country level neighbourhood public space streets and the building levels scientific fields and continents amongst which Africa Oceania and Europe

The Top Books of the Year Looking At Landscapes Flooding And Drought The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Looking At Landscapes Flooding And Drought : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Looking At Landscapes Flooding And Drought : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
