Cover [Why Every Christian Should Be A Vegan](#)

Ryan Hicks, 2018-03-07

Today much of Christendom is closely associated with the eating of animals. Some churches even have hunting and fishing trips. Meat, eggs, and dairy are a staple in most professing Christians' diets. Is any of this in line with God's will or pleasing to Him? Could it be that so many passages of Scripture that traditions have told us are teaching the ethics of killing animals are actually stating something completely different? This book takes a Scriptural approach to the subject of humanity's treatment of animals: what God desires from us and what the Bible says about it all. If you have been raised thinking that animals are here to be food for humans or for our entertainment, then by reading this book you will discover many edifying truths. There are so many topics covered that almost every question one could have about veganism from a Christian perspective is answered.

[A Treatise on Christian Banking](#) Morten Bosterud, 2022-08-01 From a moral perspective all banking practice and theory can be seen as value driven Therefore there will be no such thing as value neutral banking activities and the application of Christian ethical and pastoral principles adds insights to the field of banking for all its involved stakeholders This book contributes to the specific scientific discourse of practical theology as this typically appears within the subfields of ethics and pastoral studies Christian ethics and pastoral principles as applied in banking make up a largely neglected area in the wider academic discourse found within practical theology and the research presented in this book contributes new knowledge to the field with particular emphasis on banking practice It is expected that the theories presented herein will be of interest for other scholars not only within the realm of practical theology but also in a cross domain perspective where scholars in a broad field of disciplines may find the research and academic positions of interest Such academic fields would include economics finance business administration sociology history anthropology and perhaps more This expectation may not least be derived from the increasing focus on Corporate Social Responsibility CSR as this has emerged over the last decades within the wider business realm in general whence the world of banking has followed suit Alongside this development an emergence of Islamic banking has been seen which has showed substantial growth and success

Pride Goes Before Destruction Matthew A. King, 2023-06-20 The exciting follow up to *I Will Abolish the Bow* Christianity Personhood and the End of Animal Exploitation *Pride Goes Before Destruction* takes a critical look at factory farming which is driven by humanity's pride towards animals Fitting to the title this relationship with animals has bled into human affairs as factory farming is responsible not only for animal cruelty but also for antibiotic resistance environmental destruction climate change and many other issues Matthew A King criticizes humanity's pride and offers a biblical solution to its consequences The New Covenant in Jesus Christ Bristling with persuasive historical evidence and thoughtful biblical interpretation King makes a compelling case for the inclusion of animals within the sphere of Christian moral consideration which can help heal humanity's fractured relationship with the

planet and even their own health Additionally this book answers many questions and offers supplemental material to build on the arguments established in I Will Abolish the Bow **A Faith Embracing All Creatures** Tripp York, Andy Alexis-Baker, 2012-11-09 What is the purpose of animals Didn't God give humans dominion over other creatures Didn't Jesus eat lamb These are the kinds of questions that Christians who advocate compassion toward other animals regularly face Yet Christians who have a faith based commitment to care for other animals through what they eat what they wear and how they live with other creatures are often unsure how to address these biblically and theologically based challenges In A Faith Embracing All Creatures authors from various denominational national ethnic and cultural backgrounds wrestle with the text theology and tradition to explain the roots of their desire to live peaceably with their nonhuman kin Together they show that there are no easy answers on what the Bible says about animals Instead there are nuances and complexities which even those asking these questions may be unaware of Editors Andy Alexis Baker and Tripp York have gathered a collection of essays that wrestle with these nuances and tensions in Scripture around nonhuman animals In so doing they expand the discussion of nonviolence peacemaking and reconciliation to include the oft forgotten other members of God's good creation
