**Forming National Identity in Iran** Ali Mozaffari, 2014-06-20 Modern Iran is a country with two significant but competing discourses of national identity one stemming from ancient pre Islamic customs and mythology the other from Islamic Shi i practices and beliefs At one time co existing and often mutually reinforcing in more modern times they have been appropriated by intellectuals and the state who have drawn upon their narratives and traditions to support and authenticate their ideologies The result has been an often confused notion of identity in Iran In this essential work Ali Mozaffari explores the complex processes involved in the formation of Iranian national identity He lays particular stress upon the importance of place for it is through the concept of place that collective national identity and ideas of homeland are expressed and disseminated The author reveals the ways in which homeland is conceived both through designated permanent sites and ritual performance illustrating his arguments through an analysis of the ancient Achaemenid capital of Persepolis and the Shi i rituals of Moharram In a final part of the book he extends his analysis to the Ancient Iran Museum and the Islamic Period Museum housed in the National Museum of Iran showing how the major transformations of twentieth century Iran which have so far been perceived in terms of political discourses and historical events are in fact concerned with conceiving place Forming National Identity in Iran offers powerful insights into the forces shaping national identity in Iran which makes it a valuable contribution to the cultural and political importance of place *The Architecture Reference & Specification Book Updated & Revised* Julia McMorrough, 2018-01-09 Most architectural standards references contain thousands of pages of details overwhelmingly more than architects need to know on any given day The updated and revised edition of Architecture Reference Specification contains vital information that s essential to planning and executing architectural projects of all shapes and sizes all in a format that is small enough to carry anywhere It distills the data provided in standard architectural volumes and is an easy to use reference for the most indispensable and most
