

A person with long dark hair, seen from behind, wearing a dark, form-fitting outfit with a glowing orange collar. They are looking out over a dystopian cityscape with tall buildings, smoke, and red and blue neon lights. The sky is hazy and grey.

Black Utopia Alex Zamalin, 2019-08-20 Within the history of African American struggle against racist oppression that often verges on dystopia a hidden tradition has depicted a transfigured world Daring to speculate on a future beyond white supremacy black utopian artists and thinkers offer powerful visions of ways of being that are built on radical concepts of justice and freedom They imagine a new black citizen who would inhabit a world that soars above all existing notions of the possible In Black Utopia Alex Zamalin offers a groundbreaking examination of African American visions of social transformation and their counterutopian counterparts Considering figures associated with racial separatism postracialism anticolonialism Pan Africanism and Afrofuturism he argues that the black utopian tradition continues to challenge American political thought and culture Black Utopia spans black nationalist visions of an ideal Africa the fiction of W E B Du Bois and Sun Ra's cosmic mythology of alien abduction Zamalin casts Samuel R Delany and Octavia E Butler as political theorists and reflects on the antiutopian challenges of George S Schuyler and Richard Wright Their thought proves that utopianism rather than being politically immature or dangerous can invigorate political imagination Both an inspiring intellectual history and a critique of present power relations this book suggests that with democracy under siege across the globe the black utopian tradition may be our best hope for combating injustice

Carolina He is a moral theologian and Papal Missionary of Mercy He serves as an adjunct professor of theology at Belmont Abbey College and is the author of several books including *Way of the Cross for Loved Ones Who Have Left the Faith* and *Living in Peace* New Directions in Theology and Science Peter Harrison,Paul Tyson,2022-01-31 This book sets out a new agenda for science theology interactions and offers examples of what that agenda might look like when implemented It explores in innovative ways what follows for science theology discussions from recent developments in the history of science The contributions take seriously the historically conditioned nature of the categories science and religion and consider the ways in which these categories are reinforced in the public sphere Reflecting on the balance of power between theology and the sciences the authors demonstrate a commitment to moving beyond traditional models of one sided dialogue and seek to give theology a more active role in determining the interdisciplinary agenda The Message of Humanity Ian W. Payne,2025-02-20 Who do humans think they are A cacophony of answers in the face of global challenges like climate change artificial intelligence racism nationalism terrorism feminism abortion gene therapy gender constructivism shows we do not agree To a deeply divided despondent world the Bible speaks today about the human condition and destiny by pointing us to Jesus Christ the true human the image of God Ian Payne s conviction is that the most important answer to the question of humanity is God He expounds a comprehensive selection of Old and New Testament passages and examines a range of issues in being human today The book is structured in three parts following the biblical narrative Part 1 Created in the image of God Part 2 Image of God renewed in Christ Part 3 Issues in being human This biblical theology shows that hope and meaning for humans are found in remembering and trusting God s gift of life and goal of redemption and restoration With an integrated study guide this book is perfect for personal and group study and preachers application of the passages covered *Living in the Light* Derrick McCaron,2013-05-24 The letters of John are some of the most simple yet profound texts in the New Testament The Apostle John wrote three epistles at the close of the first century to counteract the heresy of Gnosticism and to focus on what it meant to know God by walking in His light He contrasted the Christian life in stark opposites light and darkness love and hatred truth and lies life and death In *Living in the Light* Derrick McCaron reveals the heart of John s message salvation is not found in hidden secret knowledge but in the fellowship of Christ Moreover the evidence of salvation is seen by loving others abiding in the truth and obedience to God s commands *Living in the Light* is a verse by verse commentary on the epistles of John This volume is ideal for believers who are looking to go deeper in their discipleship with Christ With an emphasis on practical application and precise exposition this book will enhance the reader s personal Bible study **John Chrysostom on Divine Pedagogy** David Rylaarsdam,2014-10-30 Contrary to the portrayals of Chrysostom as a theologically impaired moralizing sophist this book argues that his thinking is remarkably coherent when it is understood on his own terms and within his culture Chrysostom depicts God as a teacher of philosophy who adaptably guides people toward salvation Since the theme of divine adaptability influences every major area of Chrysostom s thought

tracing this concept provides a thorough introduction to his theology. It also explains at least in part several striking features of his homilies including his supposed inconsistencies, his harsh rhetoric and apparent political naivete, his intentionally abridged and exoteric theological discussions and his lack of allegiance to an Antiochene school. In addition to illuminating such topics, the concept of adaptability stands at one of the busiest intersections of Late Antique culture for it is an important idea found in rhetoric and discussions about the best methods of teaching philosophy. Consequently, adaptability is an ingredient in the classical project of *paideia*, and Chrysostom is a Christian philosopher who seeks to transform this powerful tradition of formation. He gives his Christianized *paideia* a theological foundation by adapting and seamlessly integrating traditional pedagogical methods into his reading and communication of Scripture. David Rylaarsdam provides an in-depth case study of one prominent leader's attempt to transform culture by forming a coherent theological discourse that was adapted to the level of the masses.

What God Said Dr. Chris Okeke, 2020-07-29 Those who come to God by faith in His son Jesus Christ are ambassadors for Jesus Christ. 2 Corinthians 5:20 As ambassadors we represent God on earth. We are not here on our own interests but God's. We have been mandated to accomplish certain responsibilities for the kingdom of God. Such responsibilities are what this book is all about. It speaks directly to your heart and empowers you to do what God said in His word. Jesus Christ spoke to His audience including you and I. If you love me, keep my commandments. John 14:15 The whole duty of man is to fear God and to keep His commandments. Ecclesiastes 12:13 Yes, God smiles when He sees His children doing what He said. Doing what God said is where the joy of the Lord comes from. May the Holy Spirit open your eyes to see the blessings that awaits for you as you do. **WHAT GOD SAID** A must read book for the 21st century church. It serves to complement the previous volume *The Era of Global Risk: An Introduction to Existential Risk Studies* by providing open access to original research and insights in this rapidly evolving field. At its heart, this book highlights the ongoing development of new academic paradigms and theories of change that have emerged from a community of researchers in and around the Centre for the Study of Existential Risk. The chapters in this book challenge received notions of human extinction and civilization collapse and seek to chart new paths towards existential security and hope. The volume curates a series of research articles including previously published and unpublished work exploring the nature and ethics of catastrophic global risk, the tools and methodologies being developed to study it, the diverse drivers that are currently pushing it to

unprecedented levels of danger and the pathways and opportunities for reducing this In each case they go beyond simplistic and reductionist accounts of risk to understand how a diverse range of factors interact to shape both catastrophic threats and our vulnerability and exposure to them and reflect on different stakeholder communities policy mechanisms and theories of change that can help to mitigate and manage this risk Bringing together experts from across diverse disciplines the anthology provides an accessible survey of the current state of the art in this emerging field The interdisciplinary and trans disciplinary nature of the cutting edge research presented here makes this volume a key resource for researchers and academics However the editors have also prepared introductions and research highlights that will make it accessible to an interested general audience as well Whatever their level of experience the volume aims to challenge readers to take on board the extent of the multiple dangers currently faced by humanity and to think critically and proactively about reducing global risk
