The Origins of the Love Song Nino Tsitsishvili,2022-11-18 The book offers a radically new perspective on the origins of the love song and human sexuality in an evolutionary context By comparing different human societies and animal species past and present it reveals that love songs romantic love and exclusive pair bonds are not the original evolutionary features of Homo sapiens One of the key findings of the book is that early humans practiced multiple partner sexual relations similar to our closest relatives bonobos and chimpanzees but with the emergence of culture and sexual taboo their behaviour had to adjust It contends that since the exodus from Africa and the rise of culture humans started to distance themselves

from the rest of the animal kingdom drastically restraining their innate sexual nature The book will appeal to both scholars and laypeople with an interest in evolutionary theory socio biology anthropology and the origins of culture Living the Truth in Love Janet Smith, 2015-07-08 Living the Truth in Love grew out of the desire to provide answers to the questions posed for the Synod on Marriage called by Pope Francis How can the Christian community give pastoral attention to families with persons with same sex attraction While avoiding any unjust discrimination how can the Church give such persons pastoral care in light of the Gospel How can God's will be proposed to them in their situation People who want to be instruments of Christ's love to those who experience same sex attraction SSA seek guidance on how best to do so They need to listen to the stories of those who experience SSA and the stories of those who have accompanied them on their journeys They also need to ground their responses in a genuine Christian understanding of the human person and of human sexuality This volume includes essays that lay out the Christian view of the human person and of human sexuality essays that challenge the bifurcation of sexualities into heterosexual and homosexual Topics include an explanation of the meaning of the word disorder a discussion of the therapeutic power of friendship and an application of Saint John Paul II's personalism to the question of same sex attraction Psychologists and counselors explain various ways of affirming those who experience SSA and of leading them to experience the power of Christ's healing love Several of those who experience SSA tell their touching and inspiring stories *Life, Love and Children* Irina Pollard, 2012-12-06 Discussion of bioscience ethics requires understanding of the science that underpins biological systems impinging on our lives Unencumbered by the formal structure of ethics bioethics presents a forum for discussion of practical matters of individual and collective concern This comprehensive text is a guide to the essentials of bioscience ethics and an interface between applied science and applied bioethics Early chapters embrace topics affecting human reproduction substance abuse and parenthood aging gametes and congenital malformations child abuse and its biological consequences Intermediate chapters deal with end of life care and euthanasia human fertility assisted reproductive technologies genetic engineering and cloning Remaining chapters challenge human dominated ecosystems Population growth economic activity and warfare with its environmental consequences are reviewed A background section describes the evolution of ethical consciousness explores the future and proposes that the reworking of ethical boundaries can enhance mature decision making in harmony with changing technology Love and Survival Dean Ornish, 2016-05-10 The Medical Basis for the Healing Power of Intimacy We all know that intimacy improves the quality of our lives Yet most people don't realize how much it can increase the quality of our lives our survival In this New York Times world renowned physician Dean Ornish M D writes I am not aware of any other factor in medicine that has a greater impact on our survival than the healing power of love and intimacy Not diet not smoking not exercise not stress not genetics not drugs not surgery He reveals that the real epidemic in modern culture is not only physical heart disease but also what he calls spiritual heart disease loneliness isolation alienation and depression He shows how the very defenses that we

The Semiotics of Love brings together work on early symbolism literary practices and contemporary communication on the theme of romance and the idea of love to forge an understanding of the semiotic cultural side of romance Moving beyond psychological and neuroscientific scholarly analyses of love Marcel Danesi works to interrogate the cultural constructions of love across societies This book analyzes romantic love from the general perspective of semiotics that is from its more generic interpretive angle rather than its more technical one The specific analytical lens used is based on the notion that we convert our feeling structures into sign structures words symbols and sign based constructions texts rituals etc which then allow us to reflect upon something cognitively rather than just experience it physically and emotionally Half in Love With Death Joel Paris,2017-09-25

Half in Love With Death presents a new way for therapists to manage chronically suicidal patients an incredibly challenging task for clinicians and one where an insufficient amount of literature exists to guide professionals Author Joel Paris suggests an approach that defies conventional wisdoms about whether suicide can be predicted or prevented He asserts that managing chronically suicidal patients begins with tolerating suicidality understanding the inner world of patients avoiding repeated hospitalizations and focusing on life situations that maintain suicidal ideas and behaviors Each chapter in the book develops a theoretical perspective based on empirical data and many are illustrated by clinical examples Topics addressed throughout the text include distinctions among various types of suicidality the inner world of the chronically suicidal patient with a particular focus on pain emptiness and hopelessness the relationship between chronic suicidality and personality disorders especially the category of borderline personality the effectiveness of psychotherapy and pharmacotherapy for chronically suicidal patients and the risks of litigation in managing this patient population This volume is a crucially important resource for clinicians who treat chronically suicidal patients as it fills a gap in existing literature and provides enlightened guidelines that stem from a large body of research in the field **Money and Love: Building a Financial Life Together** Maria Eduarda KSB,2025-02-27

The myth of Prometheus has inspired countless generations of humanists throughout the ages Prometheus who stole fire from the gods and gave it to humans to help them survive remains a symbol for those who reject theistic orthodoxies and who fearlessly challenge accepted beliefs Artists such as Byron Goethe Beethoven and Wagner have been influenced by this story Most importantly Prometheus is a symbol for selfless love In this collection of essays the

Promethean myth and its relationship to the philosophy of love is explored from its origins in Ancient Greece to its similarities and contrasts with the figure of Christ. Special emphasis is given to the work and writings of Paul Kurtz, the foremost contemporary defender of humanism as a worldview who has made the figure of Prometheus a special part of his own philosophy.

**Sex, Love, and Friendship**, 2022-07-18. This collection joins together sixty essays on the philosophy of love and sex. Each was presented at a meeting of The Society for the Philosophy of Sex and Love held between 1977 and 1992 and later revised for this edition. Topics addressed include ethical and political issues, AIDS, abortion, homosexual rights, and pornography; conceptual matters: the nature, essence, or definition of love, friendship, sexual desire, and perversion; the study of classical and historical figures: Plato, Aristotle, Spinoza, Kant, and Kierkegaard; and issues in feminist theory: sexual objectification, the social construction of female sexuality, reproductive and marital arrangements. Authors include Jerome Shaffer, Sandra Harding, Michael Ruse, Richard Mohr, Russell Vannoy, Claudia Card, M. C. Dillon, Gene Fendt, Steven Emmanuel, T. F. Morris, Timo Airaksinen, and Sylvia Walsh. The editor, who is the author of *Pornography* (1986), *The Structure of Love* (1990), and *Sexual Investigations* (1996), has also contributed six pieces and an Introduction.

**Love**, Anthony Walsh, 2017-07-05. Love is a little word with a universe of meanings and has engaged people's interest throughout human history. The need to give and receive love lies deep within human nature. Philosophers, poets, theologians, sociologists, and scientists have all attempted to explain its exact origin, but is it an evolutionary adaptation or a social construct? Walsh discusses that the nature of and need for love has biological origins. He draws upon Darwin's sexual selection theory to define the perceptions of love by infants through the process of experience-dependent brain wiring. He observes that mother love makes a child capable of loving and that father love makes a child feel worthy of love. He appraises the origin and purpose of romantic love in his discussions on sexual reproduction by looking at chemical and neurological responses to love and the influence of love on one's physical and mental health. With frequent quotes from literary masters like Shakespeare to orient one's scientific and humanistic understanding of love, Walsh goes on to explore various styles of romantic love, including monogamy, promiscuity, bartering love, and betrayed love; the effects of a skewed sex ratio on dating and mating practices; and the age-old quest for a perfect society populated by perfect people obeying the biblical command to love one another.

**Shyness & Love**, Brian G. Gilmartin, 2012-11-29. *Shyness & Love* covers the only major study conducted to date on social anxiety disorder as it is manifested in informal, unstructured male-female dating and courtship situations. It focuses on the causes, both biomedical as well as situational, of love shyness and the consequences for those afflicted with it. Gilmartin also discusses promising treatment modalities and what schools and communities can do to prevent severe love shyness from developing in the first place. *Shyness & Love* examines the early family life as well as the peer group interactions of love-shy men. The book provides many statistical comparisons between the sampled love-shys and a comparison group of non-love-shy males of normal, but not superior, social self-confidence levels. These statistical comparisons allow for some informed speculations regarding the

numerous interacting causes that underlie social phobia in informal unstructured heterosexual social situations These statistical comparisons also provide the reader with some powerful suggestions regarding ways the American social structure e g schools family life and communities might be rearranged so that severe and intractable forms of love shyness would never have an opportunity to develop in growing boys and teenagers in the first place Since the publication of the first edition of this book it has been determined that as many as forty percent of men afflicted with love shyness are simultaneously comorbid for Asperger s Syndrome also known as high functioning autism As many as half of all love shy males are comorbid for the male lesbian syndrome sometimes also referred to as the passive non competitive male syndrome This second edition contains a new foreword that presents the latest findings in love shyness research It is more concise than the original Shyness Love yet retains the most significant chapters      **Science, Scripture, and Same-Sex Love** Michael B.

Regele,2014-10-31 Some church leaders assert that same sex practices are incompatible with Christian teaching The issues threaten to divide our churches and our nation Michael B Regele explores current scientific findings in biological brain research psychology and sociology which he compares with scriptural teaching from the Bible to show that a faithful reading of the Scriptures is consistent with Christian teaching that affirms same sex love leading to same sex marriage and full participation of LGBT people in church leadership Regele offers compelling research and well supported answers to common place questions such as Is sexual orientation a choice that individuals make Is same sex attraction sinful in itself Is it true that lesbian gay bi sexual and transgender LGBT people are more promiscuous than heterosexual people Is it true that same sex relationships do not last as long as hetero sex relationships Is abstinence for life the only choice for a Christian LGBT person Or can they enter into intimate and sexual relationships and still be active participants in a Christian community Is same gender marriage acceptable from a Christian standpoint      *Love, Money, and Parenting* Matthias Doepke,Fabrizio

Zilibotti,2020-11-03 Doepke and Zilibotti investigate how economic forces shape how parents raise their children They show that in countries with increasing economic inequality such as the United States parents push harder to ensure their children have a path to security and success Economics has transformed the hands off parenting of the 1960s and 70s into a frantic overscheduled activity Growing inequality has also resulted in an increasing parenting gap between richer and poorer families raising the disturbing prospect of diminished social mobility and fewer opportunities for children from disadvantaged backgrounds The authors discuss how investments in early childhood development and the design of education systems factor into the parenting equation and how economics can help shape policies that will contribute to the ideal of equal opportunity for all From publisher description      **Institution Quarterly** ,1927      **Welfare Magazine** ,1927
