personifications Yet no commentator before the eighteenth century suggests that prosopopoeia signals a form of reduced agency Andrew Escobedo argues that premodern writers including Spenser Marlowe and Milton understood personification as a literary expression of will an essentially energetic figure that depicted passion or concept transforming into action As the will emerged as an isolatable faculty in the Christian Middle Ages it was seen not only as the instrument of human agency but also as perversely independent of other human capacities for example intellect and moral character Renaissance accounts of the will conceived of volition both as the means to self creation and the faculty by which we lose control of ourselves After offering a brief history of the will that isolates the distinctive features of the faculty in medieval and Renaissance thought Escobedo makes his case through an examination of several personified figures in Renaissance literature Conscience in the Tudor interludes Despair in Doctor Faustus and book I of The Faerie Queen Love in books III and IV of The Faerie Queen and Sin in Paradise Lost These examples demonstrate that literary personification did not amount to a dim reflection of realistic fictional character but rather that it provided a literary means to explore the numerous conundrums posed by the premodern notion of the human will This book will be of great interest to faculty and graduate students interested in medieval studies and Renaissance literature

The Mirror of the Self Shadi Bartsch, 2017-07-21 People in the ancient world thought of vision as both an ethical tool and a tactile sense akin to touch Gazing upon someone or oneself was treated as a path to philosophical self knowledge but the question of tactility introduced an erotic element as well In The Mirror of the Self Shadi Bartsch asserts that these links among vision sexuality and self knowledge are key to the classical understanding of the self Weaving together literary theory philosophy and social history Bartsch traces this complex notion of self from Plato's Greece to Seneca's Rome She starts by showing how ancient authors envisioned the mirror as both a tool for ethical self improvement and paradoxically a sign of erotic self indulgence Her reading of the Phaedrus for example demonstrates that the mirroring gaze in Plato because of its sexual possibilities could not be adopted by Roman philosophers and their students Bartsch goes on to examine the Roman treatment of the ethical and sexual gaze and she traces how self knowledge the philosopher's body and the performance of virtue all played a role in shaping the Roman understanding of the nature of selfhood Culminating in a profoundly original reading of Medea The Mirror of the Self illustrates how Seneca in his Stoic quest for self knowledge embodies the Roman view marking a new point in human thought about self perception Bartsch leads readers on a journey that unveils divided selves moral hypocrisy and lustful Stoics and offers fresh insights about seminal works At once sexy and philosophical The Mirror of the Self will be required reading for classicists philosophers and anthropologists alike [In and Out of the Mind](#)

Ruth Padel, 2016-09-26 Ruth Padel explores Greek conceptions of human innerness and the way in which Greek tragedy shaped European notions of mind and self Arguing that Greek poetic language connects images of consciousness even male consciousness with the darkness attributed to Hades and to women Padel analyzes tragedy's biological and daemonological metaphors for what is within

Global Theatre Anthologies: Classical and Modern Plays from India

Bhasa, Kalidasa, Rabindranath Tagore, Rashid Jahan, Dharamvir Bharati, Mohan Rakesh, Datta Bhagat, K.N. Panikkar, Mahesh Dattini, 2025-02-06 The power of theatrical performance is universal, but the style and concerns of theatre are specific to individual cultures. India's dramatic literature demonstrates an extraordinary range, depth, and sophistication. Thousands of years ago, the theory and practice of how to make theatre was detailed in the *Natyashastra*. As a result, powerful plays were written, and over time, a multiplicity of theatrical cultures have developed. Examining recurring themes such as the misuse of authority, the oppressive caste practices, the expression and legitimacy of romantic love, societal gender expectations, and the search for meaning in seemingly empty or destructive human endeavours, this anthology threads together diverse cultures, drawing connections across space and time. Though each play is its own unique entity, exploring them together allows readers to consider what theatrical techniques and cultural concerns may be significant aspects of Indian drama. Featuring work by the first Asian Nobel Laureate, acclaimed political writers, and a female gynaecologist who created startling drama from the women she had encountered, the range of playwrights speaks to the cultural diversity of the drama, with plays ranging from classical Sanskrit drama through major works from the beginning to the end of the 20th Century. Through taking an international perspective, *Global Theatre Anthologies* draws together work from ancient indigenous and modern times, encouraging thinking across boundaries and questioning what theatrical and societal values are part of India's drama and what the relationships are between the old and new world.
