**The Denial of Nature** Arne Johan Vetlesen, 2015-02-11 A study of the increasingly precarious relationship between humans and nature this book seeks to go beyond work already contributed to the environmental movement It does so by highlighting the importance of experiencing rather than merely theorizing nature while realizing that such experience is becoming increasingly rare thus reinforcing the estrangement from nature that is a source of its ongoing human caused destruction In his original approach to environmental philosophy the author argues for the reinstatement of nature's value outside of its exploitative usefulness for human ends Such a perspective emphasizes the extent to which the environmental problem is a concrete reality requiring urgent action based on a multi sensuous appreciation of humans dependence on nonhuman lifeforms Designed as an accompaniment to undergraduate and postgraduate research *The Denial of Nature* draws on empirically informed literature from the social sciences to examine what life is really like for humans and nature in the era of global capitalism The book contends that capitalist society exploits nature both in the form of human capital and natural capital more relentlessly than any other and offers an environmental philosophy which actively opposes current developments Through discussions of the work of Teresa Brennan Theodor Adorno Martin Heidegger and Hans Jonas and through a radical critique of the nature deficit in Jürgen Habermas theory of capitalist modernity *The Denial of Nature* relies on insights from Critical Realism to bring together several seldom linked philosophies and suggest a new approach to the heavily discussed question of environmental ethics Arne Johan Vetlesen is Professor of Philosophy at the University of Oslo Norway and the author of twenty books among them *Perception Empathy and Judgment An Inquiry into the Preconditions of Moral Performance* 1994 *Closeness An Ethics with H Jodalén* 1997 *Evil and Human Agency* 2005 and *A Philosophy of Pain* 2010

*Love, Perversion or Just Nature?* James Prince, 2015-01-07 It is not always easy to know who is telling the truth you would tell me I can tell you that almost everything that is said or written can be verified One thing is sure and this is that everything I wrote about the word of God everything I wrote about what is from the Bible can be verified So I beg everyone and anyone to get back to me if I said and wrote anything that is not conformed to the scriptures I know perfectly that mistaking is human but I also know that the lie is diabolic and John Jesus brother said no lie comes from the truth See 1 John 2 21 I do not write to you because you do not know the truth but because you do know it and because no lie comes from the truth If you are happy for discovering the truth because of what you read in this book then tell everyone you can and if it is possible do it without risking your life because I wish you can do it for a long time This book contains enough information about the truth the word of God for anyone who wants to be a Jesus disciple to begin his or her mission Don't you ever forget the many Jesus warnings and mine though and remember that you will be flogged in the churches and this most likely unnecessarily May God bless you James Prince with the Jesus discipline A Jesus disciple has only one religion and this is the one he got from Jesus This means to go directly to God and the Father in heaven will receive you See Matthew 6 18 James

**Covenant** Daniel James Pedersen,2017-08-21 Schleiermacher s readers have long been familiar with his proposal for an eternal covenant between theology and natural science Yet there is disagreement both about what this covenant amounts to why Schleiermacher proposed it and how he meant it to be persuasive In The Eternal Covenant Pedersen argues contrary to received wisdom that the eternal covenant is not first a methodological or political proposal but is rather the end result of a complex case from the doctrine of God the notion of a world and an account of divine action With his compound case against miracles Schleiermacher secures the in principle explicability of everything in the world through natural causes However his case is not only negative Far from a mere concession the eternal covenant is an argument for what Schleiermacher calls the essential identity of ethics and natural philosophy Indeed because the nature system is both intended for love and wisely ordered the world is a supremely beautiful divine artwork and is therefore the absolute self revelation of God Schleiermacher s case is a challenging alternative to reigning accounts of God nature divine action and the relationship between religion and science      *The World's Best Poetry: Love; introductory essay: The future of poetry, by J.V. *Literature and Ecotheology* George B. Handley,2024-07-22 Literature and Ecotheology From Chaos to Cosmos challenges us in a time of climate crisis to find more common ground between the dual projects of ecocriticism and ecotheology This book argues that in our postsecular age literature has become an important repository of theological wisdom that can like formal work in ecotheology provide the moral grounds for environmental care However for any cosmological understanding

to be adequate to the challenges before us it must be responsive to the often painful contingencies and uncertainties that inhere in the cosmos something that both ecocriticism and ecotheology have often neglected After a treatment of the ecocritical and ecotheological questions that pertain to the religious secular divide the study then turns to four contemporary American writers Annie Dillard Cormac McCarthy Marilynne Robinson and David James Duncan as examples Each uses the contingency of literary form and its promise of wholeness in order to imagine reasons for hope in light of the unpredictability and untold human and more than human suffering that lie at the heart of nature The book will be of interest to students scholars and researchers interested in ecotheology religious studies environmental literature the environmental humanities and environmental studies more broadly It offers a needed paradigm shift in how Western societies have tended to misuse both secularity and religion
