Beauty'S Way Lori Myles-Carullo, 2011-08-26

Inspired by the Navajo traditions Beauty Way this book acts as an exposition on various vital aspects of life as well as how to uncover and create true beauty within them all Author Lori Myles Carullo struggled with chronic illness for many years and through the depth of her own healing journey developed a passion for sharing the wisdom she gained in the process The essence of beauty explored here is neither about personal appearance nor image but rather the rich lived experience of the heart awakening to love and letting go of fear Each one of us has a great capacity for radical honesty courage and transformation and often life provides us with exactly what we need to draw these forth in dramatic and powerful ways Whether our wake up calls occur through loss transition illness or relationship struggles we all have the choice to either contract or expand through our experiences creating therefore less or more beauty in our lives and the lives of others Beautys Way gifts you with practical suggestions through personal story and anecdote of how to bring more beauty to your existence and to the greater whole Each chapter ends with specific exercises that will assist you in gaining greater awareness into key parts of lifesome naturally thought of as good such as love and joy as well as other more challenging ones that we often do our best to distract ourselves from due to fear including pain and grief By offering our heartfelt compassion and love to it all a greater realization and manifestation of healing beauty is forever possible

Developing Priorities and a Style: Selected Readings in Education for Teachers and Parents Richard Dean Kellough, 1974

The Form of Love James Kuzner, 2021-08-03 Can poetry articulate something about love that philosophy cannot The Form of Love argues that it can In close readings of seven metaphysical poems the book shows how poets of the early modern period and beyond use poetic form to turn philosophy to other ends in order not to represent the truth about love but to create a virtual experience of love in all its guises The Form of Love shows how verse creates love that can't exist without poetry's specific affordances and how poems can in their impossibility prompt love's radical reimagining Like the philosophies on which they draw metaphysical poems imagine love as an intense form of non-sovereignty of giving up control They even imagine love as a liberating bondage to a friend a beloved a saint a God or a garden Yet these poems create strange striking versions of such love made in rather than through the devices structures and forces where love appears Tracing how poems think Kuzner argues requires an intimate form of reading close even too close attention to and thinking with the text Showing how poetry thinks of love otherwise than other fields the book reveals how poetry and philosophy can nevertheless enter into a relation that is itself like love

The Seasoned Life Paul Kasonsole-Mukungu,2016-09-15 This book draws parallels of our human lifespan to that of the weather seasons of spring summer autumn and winter The author assumes the useful years of our being to be eighty He divides these years equally into the four seasons being twenty years each The spring season is viewed to be promissory belonging to the parents or the system that nurtures the young into the confident and independent person of the latter years Come summer we become adults as we reach the peak of our physical growth and energy Autumn in the life of plants is the fall of leaves Likewise humanly red flags start showing up at this time signaling the reality of our mortality From the summer years until somewhere in the winter years we are wired to be productive But it is the winter season that calls for us to be collected and to pass on what we have gathered over the mileage of our lives to those in waiting The author notes that while we all can survive spring summer and autumn we surely go to sleep in winter We never start the cycle all over again At best the winter can be long In other words we can live to around anything past eighty However he argues that past eighty we live a preventative life pattern The message of the book is that all seasons are beautiful and it is in our interest to take advantage of each season while it lasts
