Copyright Office,1974 **Africa and the First World War** De-Valera NYM Botchway,Kwame Osei Kwarteng,2018-10-26 The First World War was a widespread conflagration in world history which despite its European origins had enormous effects throughout the world Fettered to European politics and diplomacy through colonialism Africa could not claim a position of neutrality meaning that it mobilised human and natural resources to support the imperial war effort Fighting both within and outside Africa colonised Africans who were compelled or coaxed by the colonial regimes of the warring European countries fought Europeans and Africans too The soldiers fought with great dedication and contributed significantly to successes attained by the belligerent European colonialists Similarly African non combatants like carriers brought zeal and enthusiasm to difficult wartime tasks The impact of the war on Africa was immense with far reaching consequences in specific colonies and touched the lives of all Africans under colonial rule Although the continent s connections to the war were immense and diverse these experiences are not widely known among scholars and the general public This is because over the years most studies and commemorative events of the war have centred on the European theatre of the war and its outcomes This book brings together interesting essays written by scholars of African history society and military about African experiences of the war It complements and problematises some key themes on Africa and the First World War and offers a stimulating historiographical excursion providing possibilities for reconsidering normative conclusions on the war The volume will be of interest to general readers as well as students and researchers in different areas of scholarship including African history war studies postcolonial studies cultural studies labour history and the history of memory among others **Pearl Harbor** Gary Barr,2004 For anyone interested in primary sources and their significance this is the source to turn to Primary source accounts of history add an unmatched authenticity to this series Each book introduces the period and the available sources justifying why we can rely on them who produced them or why they have survived The text also gives historical background and explores what can be learned from the source **The Second Generation** Andreas W. was unnecessary He had pressed for greater regulation of some key areas of finance over the years and had gotten nowhere To argue that he didn't know the risks in irrational markets is to miss the point He knew more than almost anyone the question is why he didn't act and whether anyone else could or would have A close reading of Greenspan's life provides fascinating answers to these questions answers whose lessons we would do well to heed Because perhaps Mallaby's greatest lesson is that economic statesmanship like political statesmanship is the art of the possible The Man Who Knew is a searching reckoning with what exactly comprised the art and the possible in the career of Alan Greenspan

Contextualizing Indigenous Knowledge in Africa and its Diaspora Ibigbolade Aderibigbe, Alloy Ihuah, Felisters Kripono, 2015-09-04 This volume proposes a wholesale adoption of African Indigenous Knowledge Systems AIKS as a paradigm for Africa's renewal and freedom from the whims of foreign interests These systems as argued here involve balancing short term thinking and immediate gratification with longer term planning for future generations of Africans and the continent's diaspora The book will be of interest to anyone concerned with development studies in Africa and its diaspora as it offers plausible solutions to Africa's chronic developmental problems that can only be provided from within Africa rather than through the intervention of external third parties As such it provides vital contributions to the ongoing search for viable answers to the challenges that Africa faces today El-Hi textbooks in print R.
