the pyramids of Egypt Stonehenge the stone figures of Easter Island and the massive stones at Baalbek Lebanon Were they the work of ancient humans or of equally ancient extraterrestrials How Antigravity Built the Pyramids delves into specific stories and theories A 9th century story of a mysterious papyrus with the power to move large stones at the Giza Necropolis The Mayan story of the construction of the Pyramid of the Magician said to be overseen by a small humanoid who could whistle large stones into place Native American stories of ancient priests being able to make stones light to move easily Author Nick Redfern argues it was not literally music and whistling that somehow raised large stones but both have one thing in common sound Acoustics Almost certainly acoustic levitation was at the heart of these incredible feats The truth of the science behind acoustic levitation was lost and forgotten for ages with little more left than fanciful tales of music whistles a curious papyrus and strange metal rods that could achieve incredible feats in the air Today we are finally starting to get a grasp on this incredible technology a technology that may have been the work of ancient humans aliens from faraway worlds or perhaps a combination of the two
