Mystery At The Old Place:

Mystery at the Old Place Helen Fuller Orton, 1945 **A Place of Darkness** Kendall R. Phillips, 2018-03-01 Horror is one of the most enduringly popular genres in cinema. The term horror film was coined in 1931 between the premiere of *Dracula* and the release of *Frankenstein*, but monsters, ghosts, demons, and supernatural and horrific themes have been popular with American audiences since the emergence of novelty cinematographic attractions in the late 1890s. *A Place of Darkness* illuminates the prehistory of the horror genre by tracing the way horrific elements and stories were portrayed in films prior to the introduction of the term horror film. Using a rhetorical approach that examines not only early films but also the promotional materials for them and critical responses to them, Kendall R. Phillips argues that the portrayal of horrific elements was enmeshed in broader social tensions around the emergence of American identity and, in turn, American cinema. He shows how early cinema linked monsters, ghosts, witches, and magicians with Old World superstitions and beliefs in contrast to an American way of thinking that was pragmatic, reasonable, scientific, and progressive. Throughout the teens and twenties, Phillips finds supernatural elements were almost always explained away as some hysterical mistake, humorous prank, or nefarious plot. The Great Depression of the 1930s, however, constituted a substantial upheaval in the system of American certainty and opened a space for the reemergence of Old World gothic within American popular discourse in the form of the horror genre, which has terrified and thrilled fans ever since. **The Haunted House on Film** Paul Meehan, 2019-12-06

A popular phenomenon since antiquity, the image of the haunted house is one that has translated elegantly into the modern medium of film. The haunted house transcends genre, appearing in mysteries, gothic romances, comedies, and horror films. This book is the first comprehensive historical and critical study of themes surrounding haunted houses in film. Covering more than 100 films, it spans from the Mystery House thrillers of the silent era to the high-tech, big-budget productions of the 21st Century. Included are the works of such acclaimed directors as D. W. Griffith, Robert Wise, Mario Bava, Alfred Hitchcock, Stanley Kubrick, Tim Burton, and Guillermo del Toro. The book also covers the real-life haunted house phenomenon and movies based on paranormal case files, including those featured in films like the *Conjuring* series. **Catalog of Copyright Entries.**

Third Series Library of Congress. Copyright Office, 1973 *Ecclesiasticus I* George Dion Dragas, 2004 The central theme of the Church provides the basis for the collection of statements and essays in this book. They were produced for various occasions and are designed to reach the lay Christian. Two or three of them, however, attempt to go deeper into the wonderful but complex mystery of the Church. Orthodox Christians will find them useful in considering some central perspectives of their ecclesiastical heritage. It will help non-Orthodox Christians to acquaint themselves with Orthodox ways of thinking concerning the One Holy Catholic and Apostolic Church and thus facilitate contemporary dialogue and rapprochement. This provides starting points for further thought, discussion, and inquiry. **A Place To Call Home** Pasquale De
