Mysticism Metaphysics And Maritain:

Mysticism, Metaphysics and Maritain James Arraj, Jim Arraj, 1993 **Degrees of Knowledge** Jacques Maritain, 2020-10-31 Jacques Maritain's masterpiece proposes a hierarchy of forms of knowledge that culminate in mystical experience and wisdom which is a gift of the Holy Ghost Maritain argues that the intellectual life is meant to be complemented by the spiritual life and should culminate in sanctity Distinguish to Unite Jacques Maritain, 1959 The Premodern Condition Bruce Holsinger, 2005-12 Bruce Holsinger identifies and explains an affinity for medievalism and medieval studies among the leading figures of critical theory His book contains original essays by Bataille and Bourdieu translated into English that testify to the strange persistence of medievalisms in French postwar writings Degrees of Knowledge Jacques Maritain, 1998 The First American edition of a British best seller In The Principle of Duty Kundalini Energy and Christian Spirituality Philip St. Romain, 2010-03-31 Account of the awakening of the kundalini process by Philip St Romain with reflection on the meaning of this process from the perspective of Christian spirituality Foreword by Thomas Keating Appendices by James Arraj 2nd edition Original work by Crossroads NY 1991 **Respect and Economic Democracy** Luk Bouckaert, Pasquale Arena, 2010 Plotinus on the Contemplation of the Intelligible World Mateusz Stróżyński, 2024-11-21 This study offers an innovative understanding of the central role of the act of contemplation in the philosophy of Plotinus **Catholic Neurotheology** Andrew Newberg, Mary Clare Smith, 2024-07-02 The topic of neurotheology has garnered increasing attention in the academic religious scientific and popular worlds It is the field of study that explores the intersection between the brain and religious and spiritual phenomena However there have been no extensive attempts at exploring specifically how Catholic religious thought and experience may intersect with neurotheology The purpose of Catholic Neurotheology is to fully engage this groundbreaking area Topics are related to a neurotheological approach to the foundational Catholic beliefs derived from Scripture and Tradition an exploration of the various elements of Catholicism and of Catholic rituals and practices and a review of Catholic spiritualities and mysticism Specific Catholic scholars are considered in terms of the relationships among their ideas teachings and different brain processes Catholic Neurotheology engages these topics in an easy to read style and incorporates scientific religious philosophical and theological aspects of the emerging field of neurotheology By reviewing the concepts in a stepwise simple yet thorough discussion readers regardless of their background will be able to understand the complexities and breadth of neurotheology from a Catholic perspective More broadly issues include a review of the neurosciences and neuroscientific techniques religious and spiritual experiences theological development and analysis liturgy and ritual philosophy epistemology and ethics and social implications all from a Catholic perspective *Thomas Aquinas and Teilhard de Chardin* Donald J. Goergen, 2022-10-21 In an increasingly divided and secularized world in an age of unbelief we yearn for increased unity for a sense of the transcendent for a humanism that does not force one to choose between God and the world This humanism

requires an integration of ancient wisdom with modern learning or one might say faith and reason religion and science Christology and cosmology As the Gospel of Matthew puts it the sage goes into the storehouse to bring out both something old and something new To this Christian humanism both Thomas Aquinas and Pierre Teilhard de Chardin have significant contributions to make One is not forced to choose between them but rather to see in these two visionaries one medieval one modern complementary insights One philosophically precise the other scientifically trained they challenge us to look again at our search for wholeness for holiness Can we see something of what they saw Can we seek something of what they sought

God, Self and Ego Philip St. Romain, 2010-04-22 What do we mean by the terms God Self and Ego The answer depends on one's view of human nature and its relationship to the divine Using the philosophy and theology of St Thomas Aquinas to qualify his terms author Philip St Romain describes different possible relationships between God Self and Ego and the disciplines to support these

A Theology of Creation Thomas S. Hibbs, 2023-08-15 This book provides the first sustained philosophical treatment of Pope Francis's *Laudato Si* and articulates a theology of creation to recover our place within the cosmos In the encyclical *Laudato Si* Pope Francis discerns beneath the imminent threat of ecological catastrophe an existential affliction of the human person who is lost in the cosmos increasingly alienated from self others nature and God Pope Francis suggests that one must reimagine humanity's place in the created cosmos In this ambitious and distinctive contribution to theological aesthetics Thomas S Hibbs provides the basis for just such a recovery working from *Laudato Si* to develop a philosophical and theological diagnosis of our ecological dislocation a narrative account of the sources of the crisis and a vision of the way forward Through a critical engagement with the artistic theory of Jacques Maritain Hibbs shows how certain strains of modern art both capture our alienation and anticipate visions of recovered harmony among persons nature and God In the second half of the book in an attempt to fulfill Pope Francis's plea for an aesthetic education and to apply and test Maritain's theory Hibbs examines the work of poets and painters He analyzes the work of poets Robinson Jeffers and William Everson and considers painters Georges Rouault a friend to Maritain and Makoto Fujimura whose notion of culture care overlaps in

suggestive ways with Francis's notion of integral ecology Throughout this tour de force Hibbs calls for a commitment to an ecological poetics a project that responds to the crisis of our times by taking poets and painters as seriously as philosophers and theologians

Approaches to Metaphysics William Sweet, 2006-02-28 Today when systematic philosophy and reason itself are challenged both outside of and within philosophy is it still possible to do metaphysics This volume provides a broad perspective on contemporary approaches to the nature and the fundamental questions of metaphysics Drawing on scholars from continental Europe Asia Canada the United States and Great Britain and representing a variety of philosophical cultures and traditions this volume surveys and extends work in metaphysics and its implications for broader philosophical concerns e g in ethics and social philosophy in mathematics and logic and in epistemology It also addresses such questions as the role of history and historicity in undertaking metaphysics the nature of metaphysics the priority of metaphysics over epistemology and the challenges of empiricism and postmodernism
