My father-in-law  
A professor he  
Says a poet  
I can never be  
Although in print  
I may be  
I do not have  
A college degree

{This should have been in my first book, *Shadows of footsteps*,  
I don't know how I left it out.}

The Wallace Stevens Case Thomas C. Grey, 1991 Wallace Stevens was not only one of America's outstanding modernist poets but also a successful insurance lawyer a fact that continues to intrigue many readers Though Stevens tried hard to separate his poetry from his profession legal theorist Thomas Grey shows that he did not ultimately succeed After stressing how little connection appears on the surface between the two parts of Stevens's life Grey argues that in its pragmatic account of human reasoning the poetry distinctively illuminates the workings of the law In this important extension of the recent law and literature movement Grey reveals Stevens as a philosophical poet and implicitly a pragmatist legal theorist who illustrates how human thought proceeds through assertion qualification and qualified reassertion and how reason and passion fuse together in the act of interpretation Above all Stevens's poetry proves a liberating antidote to the binary logic that is characteristic of legal theory one side of a case is right the other wrong conduct is either lawful or unlawful At the same time as he discovers in Stevens a pragmatist philosopher of law Grey offers a strikingly new perspective on the poetry itself In the poems that develop Stevens's reality imagination complex poems often criticized as remote apolitical and hermetic Grey finds a body of work that not only captivates the reader but also provides a unique instrument for scrutinizing the thought processes of lawyers and judges in their exercise of social power **Law's Hermeneutics** Simone

Glanert, Fabien Girard, 2017-02-17 Bringing together leading academics hailing from different cultural and scholarly horizons this book revisits legal hermeneutics by making particular reference to philosophy sociology and linguistics On the assumption that theory has much to teach law that theory motivates and enables the writings of such intellectuals as Martin Heidegger Hans Georg Gadamer Jacques Derrida Paul Ricoeur Giorgio Agamben Jürgen Habermas Ronald Dworkin and Ludwig Wittgenstein receive special consideration As it explores the matter of reading the law and as it inquires into the emergence of meaning within the dynamic between reader and text against the background of the reader's worldly finiteness this collection of essays wishes to contribute to an improved appreciation of the merits and limits of law's hermeneutics which it

argues is emphatically not to be reduced to a simple tool for textual exegesis      *The Green Bag* ,1891 Includes index 1 v
