

The beauty of a woman, isn't in the clothes she wears. The figure that she carries or the way she combs her hair. The beauty of a woman is seen in her eyes, because that's the doorway to her heart, the place where love resides. The true beauty in a woman, is reflected by her soul. It's the caring that she gives and the passion that she shows. And the beauty of a woman, with passing years, only grows.

The Lady's Book of Flowers and Poetry Lucy Hooper, 1852 **The Lady's Book of Flowers and Poetry** Lucy Hooper, 2022-07-27 Reprint of the original first published in 1860 **Village Bells, Lady Gwendoline, and Other Poems** John Brent (Author of *The Sea-Wolf.*), 1865 **Village Bells, Lady Gwendoline, and other poems** John BRENT (F.S.A.), 1865 *The Young Lady's Book of Elegant Poetry* Author of *The young man's own book*, 1836 *The Cambridge Companion to Victorian Women's Poetry* Linda K. Hughes, 2019-03-14 Inclusive cutting edge essay collection by leading scholars on Victorian women poets and their diverse poetic forms and identities *Wild Flower Lyrics, and Other Poems* James Rigg, 1897 **The Art of Poetry** Shira Wolosky, 2008-09-19 In *The Art of Poetry* Shira Wolosky provides a dazzling introduction to an art whose emphasis on verbal music wordplay and dodging the merely literal makes it at once the most beguiling and most challenging of literary forms A uniquely comprehensive step by step introduction to poetic form *The Art of Poetry* moves progressively from smaller units such as the word line and image to larger features such as verse forms and voice In fourteen engaging beautifully written chapters Wolosky explores in depth how poetry does what it does while offering brilliant readings of some of the finest lyric poetry in the English and American traditions Both readers new to poetry and poetry veterans will be moved and enlightened as Wolosky interprets work by William Shakespeare John Donne William Blake William Wordsworth Emily Dickinson Robert Frost Sylvia Plath and others The book includes a superb two chapter discussion of the sonnet s form and history and represents the first poetry guide to introduce gender as a basic element of analysis In contrast to many existing guides which focus on selected formal aspects like metrics or present definitions and examples in a handbook format *The Art of Poetry* covers the full landscape of poetry s subtle art while showing readers how to comprehend a poetic text in all its dimensions Other special features include Wolosky s consideration of historical background for the developments she discusses and the way her book is designed to acquaint or reacquaint readers with the core of the lyric tradition in English Lively accessible and original *The Art of Poetry* will be a rich source of inspiration for students general readers and those who teach poetry **Approaches to Teaching the Romance of the Rose** Daisy Delogu, Anne-Hélène Miller, 2023-03-21 One of the most influential texts of its time the *Romance of the Rose* offers readers a window into the world view of the late Middle Ages in Europe including notions of moral philosophy and courtly love Yet the *Rose* also explores topics that remain relevant to readers today such as gender desire and the power of speech Students however can find the work challenging because of its dual authorship by Guillaume de Lorris and Jean de Meun its structure as an allegorical dream vision and its encyclopedic length and scope The essays in this volume offer strategies for teaching the poem with confidence and enjoyment Part 1 Materials suggests helpful background resources Part 2 Approaches presents contexts critical approaches and strategies for teaching the work and its classical and medieval sources illustrations and adaptations as well as the intellectual debates that surrounded it **Poetry and Pragmatism** Richard Poirier, 1992

Richard Poirier one of America's most eminent critics reveals in this book the creative but mostly hidden alliance between American pragmatism and American poetry. He brilliantly traces pragmatism as a philosophical and literary practice grounded in a linguistic skepticism that runs from Emerson and William James to the work of Robert Frost, Gertrude Stein and Wallace Stevens and on to the cultural debates of today. More powerfully than ever before, Poirier shows that pragmatism had its start in Emerson, the great example to all his successors of how it is possible to redeem even as you set out to change the literature of the past. Poirier demonstrates that Emerson and later William James were essentially philosophers of language and that it is language that embodies our cultural past, an inheritance to be struggled with and transformed before being handed on to future generations. He maintains that in Emersonian pragmatist writing any loss, personal or cultural, gives way to a quest for what he calls superfluousness, a kind of rhetorical excess by which powerfully creative individuals try to elude deprivation and stasis. In a wide-ranging meditation on what James called the vague, Poirier extols the authentic voice of individualism which he argues is tentative and casual rather than aggressive and dogmatic. The concluding chapters describe the possibilities for criticism created by this radically different understanding of reading and writing, which are nothing less than a reinvention of literary tradition itself. Poirier's discovery of this tradition illuminates the work of many of the most important figures in American philosophy and poetry. His reanimation of pragmatism also calls for a redirection of contemporary criticism so that readers inside as well as outside the academy can begin to respond to poetic language as the source of meaning, not to meaning as the source of language.

The Serpent and the Rose: The Immaculate Conception and Hispanic Poetry in the Late Medieval Period Lesley K. Twomey, 2008-06-03

The Serpent and the Rose examines the theological and liturgical context for the doctrine of the Immaculate Conception in the Middle Ages from primary sources in Iberian archives. Its main focus is a study of Marian poetry from Alfonso the Wise and Gonzalo de Berceo through to the poetry collections of the late fifteenth century, showing how poets took themes from the Bible and apocryphal literature, combining them to defend and praise Mary's conception without sin. Individual chapters assess how they depicted Mary's prefiguration in the Old Testament by the Woman who defeated the serpent, the young bride of the Song of Songs, or the semi-deity Wisdom, how they portray her as the mystic rose and as the new Eve.

This collection of essays is conceived not as a summary of past endeavours

but as the beginning of an attempt to present a sense of the wholeness of a distinctively English literature from Beowulf to Spenser The native alliterative tradition of England is represented by its final flowering in two essays on Sir Gawain and the Green Knight and three on Piers Plowman The renewal of English letters in the fourteenth century inspired by continental models in French and Italian is represented by four essays on Chaucer The poetic achievement of these three medieval masters remains unmatched until Spenser announces himself in a third great age in the history of English poetry and this is represented by three essays on the first three books of The Faerie Queene Spenser's indebtedness to Langland and Chaucer and his philosophical conservatism in drawing on the thought of Aristotle and the tradition of medieval commentary surrounding the works of Aristotle ensure that the tradition of English poetry in the Renaissance is securely rooted in its medieval inheritance

Poems of Cupid, God of Love Thelma S. Fenster, Mary Carpenter Erler, 2023-08-21 The lightheartedness of these works both masks and enhances their engagement with provocative issues of continuing interest today conduct in society literary practice and moral praxis relations between men and women the value of received wisdom This volume offers texts of two medieval French poems by Christine de Pizan the Epistre au dieu d'amours and Dit de la Rose together with the first translation of these poems into modern English The medieval English adaptation of Christine's Epistre Thomas Hoccleve's The Letter of Cupid is likewise presented here and provided with a modern English translation Finally an eighteenth century version of Hoccleve's poem George Sewall's The Proclamation of Cupid is edited here for the first time The editions of these poems by Christine last edited a century ago are based on the most recent scholarly findings The edition of Hoccleve's poem reproduces its authorial punctuation from manuscript for the first time and thus sheds light on the vexed question of fifteenth century English metrics The lively modern English translations of both can be used by students scholars and the general reader
