*Who Killed American Poetry?* Karen L. Kilcup, 2019-10-25 Throughout the 19th century American poetry was a profoundly populist literary form It circulated in New England magazines and Southern newspapers it was read aloud in taverns homes and schools across the country Antebellum reviewers envisioned poetry as the touchstone democratic genre and their Civil War era counterparts celebrated its motivating power singing poems on battlefields Following the war however as criticism grew more professionalized and American literature emerged as an academic subject reviewers increasingly elevated difficult dispassionate writing and elite readers over their supposedly common counterparts thereby separating authentic poetry for intellectuals from popular poetry for everyone else Conceptually and methodologically unique among studies of 19th century American poetry *Who Killed American Poetry* not only charts changing attitudes toward American poetry but also applies these ideas to the work of representative individual poets Closely analyzing hundreds of reviews and critical essays Karen L. Kilcup tracks the century s developing aesthetic standards and highlights the different criteria reviewers used to assess poetry based on poets class gender ethnicity and location She shows that as early as the 1820s critics began to marginalize some kinds of emotional American poetry a shift many scholars have attributed primarily to the late century emergence of affectively restrained modernist ideals Mapping this literary critical history enables us to more readily apprehend poetry s status in American culture both in the past and present and encourages us to scrutinize the standards of academic criticism that underwrite contemporary aesthetics and continue to constrain poetry s appeal *Who American Killed Poetry* enlarges our

understanding of American culture over the past two hundred years and will interest scholars in literary studies historical poetics American studies gender studies canon criticism genre studies the history of criticism and affect studies It will also appeal to poetry readers and those who enjoy reading about American cultural history      **The United States Catalog**,1901      *International Who's Who in Poetry 2005* Europa Publications,2004-08-02 The 13th edition of the International Who's Who in Poetry is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other poetry prizes      **Finding List of Books and Pamphlets** Buffalo..Public library,1897      **Second Supplement to the Catalogue of Books in the Mercantile Library of the City of New York** Mercantile Library Association of the City of New-York,1869
