Policy Politics And Schooling From Hope To Harris:

Policy and the Political Life of Music Education Patrick K. Schmidt, Richard Colwell, 2017 Policy and the Political Life of Music Education is the first book of its kind in the field of Music Education. It offers a far reaching and innovative outlook bringing together expert voices who provide a multifaceted and global set of insights into a critical arena for action today: policy. On one hand, the book helps the novice to make sense of what policy is, how it functions, and how it is discussed in various parts of the world; while on the other, it offers the experienced educator a set of critically written analyses that outline the state of the play of music education policy thinking. As policy participation remains largely underexplored in music education, the book helps to clarify to teachers how policy thinking does shape educational action and directly influences the nature, extent, and impact of our programs. The goal is to help readers understand the complexities of policy and to become better skilled in how to think, speak, and act in policy terms. The book provides new ways to understand and therefore imagine policy, approximating it to the lives of educators and highlighting its importance and impact. This is an essential read for anyone interested in change and how to better understand decision making within music and education. Finally, this book, while aimed at the growth of music educators' knowledge base regarding policy, also fosters open thinking regarding policy as a subject helping educators straddling arts and education to recognize that policy thinking can offer creative designs for educational change.

The Curriculum History of Canadian Teacher Education Theodore Michael Christou, 2017-08-07 Organized by region, this edited collection provides a comprehensive look at how teacher education has evolved regionally and nationally in Canada. Offering an in-depth look at specific provinces and territories, this volume contextualizes the landscape of Canadian public education and the place of teacher education within it. Shedding light on the ways Canadian teacher education was shaped by and in turn influenced its environment, contributors evaluate the current state of education and consider themes, tensions, and historical developments, presenting a view of teacher education that encompasses both its future and its past. A significant contribution to the field of curriculum history, this book offers a benchmark for conversations about the purposes, means, and ends of teacher education in Canada.

Schooling the System Funké Aladejebi, 2021-03-05 In post-World War II Canada, Black women's positions within the teaching profession served as sites of struggle and conflict as the nation worked to address the needs of its diversifying population. From their entry into teachers' college through their careers in the classroom and administration, Black women educators encountered systemic racism and gender barriers at every step. So they worked to change the system. Using oral narratives to tell the story of Black access and education in Ontario between the 1940s and the 1980s, *Schooling the System* provides textured insight into how issues of race, gender, class, geographic origin, and training shaped women's distinct experiences within the profession. By valuing women's voices and lived experiences, Funké Aladejebi illustrates that Black women as a diverse group made vital contributions to the creation and development of anti-racist education in Canada. As cultural mediators within Ontario school systems, these women

circumvented subtle and overt forms of racial and social exclusion to create resistive teaching methods that centred black knowledges and traditions Within their wider communities and activist circles they fought to change entrenched ideas about what Canadian citizenship should look like As schools continue to grapple with creating diverse educational programs for all Canadians *Schooling the System* is a timely excavation of the meaningful contributions of black women educators who helped create equitable policies and practices in schools and communities *A Political Education* Elizabeth

Todd-Breland,2018-10-03 In 2012 Chicago's school year began with the city's first teachers strike in a quarter century and ended with the largest mass closure of public schools in U S history On one side a union leader and veteran black woman educator drew upon organizing strategies from black and Latinx communities to demand increased school resources On the other side the mayor backed by the Obama administration argued that only corporate style education reform could set the struggling school system aright The stark differences in positions resonated nationally challenging the long standing alliance between teachers unions and the Democratic Party Elizabeth Todd Breland recovers the hidden history underlying this battle She tells the story of black education reformers community based strategies to improve education beginning during the 1960s as support for desegregation transformed into community control experimental schooling models that pre dated charter schools and black teachers challenges to a newly assertive teachers union This book reveals how these strategies collided with the burgeoning neoliberal educational apparatus during the late twentieth century laying bare ruptures and enduring tensions between the politics of black achievement urban inequality and U S democracy *Young People and the Politics of Outrage and Hope*,2018-11-26

Young People and the Politics of Outrage and Hope brings together contributions from international youth studies experts who ask how young people and institutions are responding to high levels of unemployment student debt housing costs that lock many out of home ownership and the challenge to find meaningful modes of participation in neo liberal social contexts Contributors including Henry Giroux Anita Harris and Judith Bessant draw on a range of theoretical methodological and empirical work to identify and debate some of the challenges and opportunities of the politics of outrage and hope that should accompany academic community and political discussions about the futures that young people will inherit and make *Young People and the Politics of Outrage and Hope* is now available in paperback for individual customers **Constructing National Identity in Canadian and Australian Classrooms** Stephen

Jackson,2018-06-06 This book explores the evolution of Canadian and Australian national identities in the era of decolonization by evaluating educational policies in Ontario Canada and Victoria Australia Drawing on sources such as textbooks and curricula the book argues that Britishness a sense of imperial citizenship connecting white Anglo Saxons across the British Empire continued to be a crucial marker of national identity in both Australia and Canada until the late 1960s and early 1970s when educators in Ontario and Victoria abandoned Britishness in favor of multiculturalism Chapters explore how textbooks portrayed imperialism the close relationship between religious education and Britishness and efforts

to end assimilationist Anglocentrism and promote equality in education The book contributes to British World scholarship by demonstrating how decolonization precipitated a massive search for identity in Ontario and Victoria that continues to challenge educators and policy makers today

Minding the Marginalized Students Through Inclusion, Justice, and Hope Jose W. Lalas, Heidi Luv Strikwerda, 2021-07-26 While the issue of advancing equity occupies the pages of many education journals across the world and pursuing it in schools and classrooms is a common instructional goal there is an obvious absence of established school policies combined with pedagogies on how to achieve educational equity

The State of the System Paul W. Bennett, 2020-09-23 Over the last fifty years Canada's public schools have been absorbed into a modern education system that functions much like Max Weber's infamous iron cage Crying out for democratic school level reform the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers Exploring the nature of the Canadian education order in all its dimensions *The State of the System* explains how public schools came to be so bureaucratic confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces and addresses the need for systemic reform Going beyond a diagnosis of the stresses strains and ills present in the system Paul Bennett proposes a bold plan to re-engineer schools on a more human scale as the first step in truly reforming public education In place of school consolidation and managerialism one size fits all uniformity limited school choice and the success for all curriculum Bennett advocates for a new set of priorities decentralize school governance deprogram education ministries and school districts listen to parents and teachers and revitalize local education democracy Tackling the thorny issues besetting contemporary school systems in Canada *The State of the System* issues a clarion call for more responsive engaged and accountable public schools

theories Class Action Andy Hanson, 2021-09-15 In this inspiring history of a union labour historian Andy Hanson delves deep into the Elementary Teachers Federation of Ontario ETFO and how it evolved from two deeply divided unions to one of the province's most united and powerful voices for educators Today's teacher is under constant pressure to raise students test scores while the rise of neoliberalism in Canada has systematically stripped our education system of funding and support But educators have been fighting back with decades of fierce labour action from a landmark province wide strike in the 1970s to record breaking front line organizing against the Harris government and the Common Sense Revolution to present day picket lines and bargaining tables Hanson follows the making of elementary teachers in Ontario as a distinct class of white collar public sector workers who awoke in the last quarter of the twentieth century to the power of their collective strength The Oxford Handbook of Assessment Policy and Practice in Music Education, Volume 1 Timothy S.

Brophy, 2019-01-02 In the music classroom instructors who hope to receive aid are required to provide data on their classroom programs Due to the lack of reliable valid large scale assessments of student achievement in music however music educators in schools that accept funds face a considerable challenge in finding a way to measure student learning in their classrooms From Australia to Taiwan to the Netherlands music teachers experience similar struggles in the quest for a definitive assessment resource that can be used by both music educators and researchers In this two volume Handbook contributors from across the globe come together to provide an authority on the assessment measurement and evaluation of student learning in music The Handbook's first volume emphasizes international and theoretical perspectives on music education assessment in the major world regions This volume also looks at technical aspects of measurement in music and outlines situations where theoretical foundations can be applied to the development of tests in music The Handbook's second volume offers a series of practical and US focused approaches to music education assessment Chapters address assessment in different types of US classrooms how to assess specific skills or requirements and how assessment can be used in tertiary and music teacher education classrooms Together both volumes of The Oxford Handbook of Assessment in Music Education pave the way forward for music educators and researchers in the field *A Stone of Hope* David L. Chappell, 2009-12-07 The

civil rights movement was arguably the most successful social movement in American history In a provocative new assessment of its success David Chappell argues that the story of civil rights is not a story of the ultimate triumph of liberal ideas after decades of gradual progress Rather it is a story of the power of religious tradition Chappell reconsiders the intellectual roots of civil rights reform showing how northern liberals faith in the power of human reason to overcome prejudice was at odds with the movement's goal of immediate change Even when liberals sincerely wanted change they recognized that they could not necessarily inspire others to unite and fight for it But the prophetic tradition of the Old Testament sometimes translated into secular language drove African American activists to unprecedented solidarity and self sacrifice Martin Luther King Jr Fannie Lou Hamer James Lawson Modjeska Simkins and other black leaders believed as the

Hebrew prophets believed that they had to stand apart from society and instigate dramatic changes to force an unwilling world to abandon its sinful ways Their impassioned campaign to stamp out the sin of segregation brought the vitality of a religious revival to their cause Meanwhile segregationists found little support within their white southern religious denominations Although segregationists outvoted and outgunned black integrationists the segregationists lost Chappell concludes largely because they did not have a religious commitment to their cause **Resources in Education** ,1998
