expanding the academic achievement of the national student population. However, these tests position immigrant students at the risk of academic failure, leading education experts to search for new strategies and teaching models. The Handbook of Research on Assessment Practices and Pedagogical Models for Immigrant Students is a critical research publication that focuses on research-based pedagogical practices for teaching immigrant students. Edited by a prominent IGI Global editor, this book examines the latest professional development models and assessment practices of English learners (ELs). Covering essential topics such as second language acquisition, SLA, classroom management, teacher education, refugee resettlement programs, and more, this publication is a valuable resource for academicians, professionals, researchers, administrators, faculty, and classroom teachers as the social and academic needs of English language learners continue to present a challenge for many schools and teachers.

Homeschooling High School Jeanne Gowen Dennis, 2004. Homeschooling High School 2nd Edition. Planning Ahead for College Admission gives you the tools you need to design a solid high school program that both maximizes educational freedom and leads to successful college admission. Book Review Digest, 1905. Excerpts from and citations to reviews of more than 8,000 books each year, drawn from coverage of 109 publications. Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language. Reviews of the following types of books are excluded: government publications, textbooks, and technical books in the sciences and law. Reviews of books on science for the general reader, however, are included. The reviews originate in a group of selected periodicals in the humanities, social sciences, and general science published in the United States, Canada, and Great Britain.

Resources in Education, 2000-04. *Teaching Language and Literature in Elementary Classrooms* Marcia S. Popp, 2006-04-21. The goal of this book, a theoretically based, well-organized, useful guide for teaching, is to help the beginning teacher create a classroom environment that integrates literacy development with learning in all areas of the curriculum. The major components of an integrated language program are identified, and the skills teachers need to implement this kind of program in their own classrooms are described. Designed to be kept and used as a resource in the classroom, this text provides fundamental information about language arts teaching. A constructivist orientation, an emphasis on teachers as reflective decision makers, and vivid portrayals of the classroom as a community of learners and inquirers are woven throughout the book. Key features include a wealth of models, suggestions, and step-by-step guidelines for introducing integrated teaching and learning practices into elementary classrooms at the kindergarten, primary, and intermediate levels; a focus on relevant research in language arts and professional teacher development; true-to-life classroom narratives that model instructional strategies and demonstrate interactions between real teachers and students; and an innovative chapter format that makes the text accessible as a resource for student beginning and experienced teachers.
