Drawing from a wide range of case studies including examinations of British colonial interests in India and the Nazi *Revolts and Political Violence in Early Modern Imagery* Malte Griesse, Monika Barget, David de Boer, 2021-11-29 In the early modern period images of revolts and violence became increasingly important tools to legitimize or contest political structures. This volume offers the first in-depth analysis of how early modern people produced and consumed violent imagery and assesses its role in memory practices, political mobilization and the negotiation of cruelty and justice. Critically evaluating the traditional focus on Western European imagery, the case studies in this book draw on evidence from Russia, China, Hungary, Portugal, Germany, North America and other regions. The contributors highlight the distinctions among visual cultures of violence as well as their entanglements in networks of intensive transregional communication, early globalization and European colonization. The Navies of Rome Michael Pitassi, 2010. Fleet of warships numerically far larger than anything in existence today. And yet this fascinating aspect of Roman rule has remained largely unstudied. Structured around a detailed chronology of the establishment, development and eventual decline of Rome's sea-going forces, this work examines the role of naval warfare in the construction of Europe's first great empire. Bringing together archaeological, pictorial and documentary evidence, it suggests many new avenues for research and highlights a long overlooked arena of naval scholarship. Book Jacket.
