Roman Civilization Vol 2 Naphtali Lewis,1955 **The Book of Acts in its First Century Setting, Volume 2** David W. Gill,Conrad Gempf,2000-11-24 The results of our rapidly expanded historical and archaeological knowledge have here been brought to bear on the Book of Acts to stunning effect Outstanding as Jackson and Lake was in its day this volume on the Graeco Roman setting of Acts holds out the promise of equaling if not surpassing that great achievement Paul Barnett Bishop of North Sydney Australia This well written volume offers a remarkable up to date collection of relevant new data to assist in scenario formation for a considerate reading of the Book of Acts The largely Australian and British team of authors must be congratulated for preparing this very useful data set There are authoritative descriptions of travel of food supply of domestic and political religion of urban elites and of the Eastern Mediterranean provinces and their leadership Such information about the realm of the Graeco Roman world will enable the interpreter of Acts to bring these data to bear in the process of interpretation Of great use to ancient historians classicists and biblical scholars yet written and presented in such a way that it will be fascinating to intelligent nonprofessionals as well Bruce J Malina Creighton University **Roman Civilization** Naphtali Lewis,Meyer Reinhold,1990 Also a History of Philosophy, Volume 2 Jürgen Habermas,2024-09-26 In this second volume of his groundbreaking new work on the history of philosophy Jürgen Habermas traces the development of Western thought from the reception of Platonism by early Christian thought through the revolution in medieval philosophy and theology triggered by the rediscovery of Aristotle's works up to the decoupling of philosophical and theological thought in nominalism and the Reformation that ushered in the postmetaphysical thinking of the modern age In contrast to conventional histories that focus on movements and schools Habermas takes the dialectic of faith and knowledge as a guiding thread for analysing key developments in the thought of major figures such as Augustine Aquinas Scotus Ockham and Luther that constitute milestones in the genealogy of postmetaphysical thinking A distinctive feature of Habermas approach is the prominence he accords practical philosophy and in particular legal and political ideas and the corresponding attention he pays to social institutional and political history especially as these bear on the relationship between church and state As a result the central preoccupations of Christian thought are shown to be original responses to questions raised by the Christian worldview that exploded the framework of Greek metaphysical thinking and remain crucial for the self understanding of contemporary philosophy Far from raising claims to exclusivity completeness or closure Habermas's history of philosophy published in English in three volumes opens up new lines of research and reflection that will influence the humanities and social sciences for decades to come Crossroads and Cultures, Volume I: To 1450 Bonnie G. A History of the Laws of War: Volume 2 Alexander Gillespie,2011-10-07 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This second book on civilians examines four different topics The first topic deals with the targetting of civilians in times of war This discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace The second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition The third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred The final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

Lamp,2013-10-15 In *A City of Marble* Kathleen Lamp argues that classical rhetorical theory shaped the Augustan cultural campaigns and that in turn the Augustan cultural campaigns functioned rhetorically to help Augustus gain and maintain power and to influence civic identity and participation in the Roman Principate 27 b c e 14 c e Lamp begins by studying rhetorical treatises those texts most familiar to scholars of rhetoric and moves on to those most obviously using rhetorical techniques in visual form She then arrives at those objects least recognizable as rhetorical artifacts but perhaps most significant to the daily lives of the Roman people coins altars wall painting This progression also captures the development of the Augustan political myth that Augustus was destined to rule and lead Rome to greatness as a descendant of the hero Aeneas *A City of Marble* examines the establishment of this myth in state rhetoric traces its circulation and finally samples its popular receptions and adaptations In doing so Lamp inserts a long excluded though significant audience the common people of Rome into contemporary understandings of rhetorical history and considers Augustan culture as significant in shaping civic identity encouraging civic participation and promoting social

advancement Lamp approaches the relationship between classical rhetoric and Augustan culture through a transdisciplinary methodology drawn from archaeology art and architectural history numismatics classics and rhetorical studies By doing so she grounds Dionysius of Halicarnassus's claims that the Principate represented a renaissance of rhetoric rooted in culture and a return to an Isocratean philosophical model of rhetoric thus offering a counterstatement to the decline narrative that rhetorical practice withered in the early Roman Empire Thus Lamp's work provides a step toward filling the disciplinary gap between Cicero and the Second Sophistic
