Roman Society Samuel Dill, 2015-07-01 Excerpt from *Roman Society In the Last Century of the Western Empire* A few words of preface seem to be necessary to explain the object of this book and the limits within which the writer has wished to confine it It is perhaps superfluous to say that nothing like a general history of the period has been attempted That is a task which has been already accomplished by abler hands The subject of this work is mainly what it professes to be the inner life and thoughts of the last three generations in the Empire of the West If external events are referred to it is only because men's private fortunes and feelings cannot be severed from the fortunes of the State The limits of the period covered by this study of Roman society have not been arbitrarily chosen The last hundred years of the Western Empire seem marked off both by momentous events and for the student of society by the authorities at his command The commencement of the period coincides roughly with the passage of the Gothic hordes across the Danube the accession of Gratian and Theodosius the termination of the long truce between paganism and the Christian Empire and the reopening of the conflict which within twenty years ended in the final

prohibition of heathen rites It closes not only with the deposition of the last shadowy Emperor of the West but with the practical extinction of Roman power in the great prefecture of the Gauls Perhaps even more obvious are the lines drawn by the fullest authorities for our subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Late Antiquity is often assumed to have witnessed the demise of literature as a social force and its retreat into the school and the private reading room whereas the sophists of the Second Sophistic were influential social players their late antique counterparts are thought to have been overshadowed by bishops Literature and Society in the Fourth Century AD argues that this presumed difference should be attributed less to a fundamental change in the role of literature than to different scholarly methodologies with which Greek and Latin texts from the second and the fourth century are being studied Focusing on performance the literary construction of reality and self presentation this volume highlights how literature continued to play an important role in fourth century elite society [History of Rome Through the Fifth Century](#) A.H.M.
