Jack Zipes, 2012 A provocative new theory about fairy tales from one of the world's leading authorities If there is one genre that has captured the imagination of people in all walks of life throughout the world it is the fairy tale Yet we still have great difficulty understanding how it originated evolved and spread or why so many people cannot resist its appeal no matter how it changes or what form it takes In this book renowned fairy tale expert Jack Zipes presents a provocative new

theory about why fairy tales were created and retold and why they became such an indelible and infinitely adaptable part of cultures around the world Drawing on cognitive science evolutionary theory anthropology psychology literary theory and other fields Zipes presents a nuanced argument about how fairy tales originated in ancient oral cultures how they evolved through the rise of literary culture and print and how in our own time they continue to change through their adaptation in an ever growing variety of media In making his case Zipes considers a wide range of fascinating examples including fairy tales told collected and written by women in the nineteenth century Catherine Breillat s film adaptation of Perrault s Bluebeard and contemporary fairy tale drawings paintings sculptures and photographs that critique canonical print versions While we may never be able to fully explain fairy tales *The Irresistible Fairy Tale* provides a powerful theory of how and why they evolved and why we still use them to make meaning of our lives

Roman Legends: A Collection of the Fables and Folk-lore of Rome R. H. Busk, 2020-09-28 At another time one would have to spend hours in listening to detached incidents altogether lacking a thread to connect them or stories of which the point had been so completely lost that they could only have been made available by means of a reconstruction too integral to be honestly attempted As e g Oh yes I know a story of an enchantress who had a gown which made her invisible and a pair of boots which would carry her a thousand miles without walking but I quite forget what she did with them Or else it might be I knew a story of a king whose wife had been fatata subjected to magic influence and maligned by her mother in law while the king was gone to the wars but that s all I remember except that in the end the queen was rehabilitated and the mother in law punished incidents of stories recurring in every collection but tantalisingly lacking all means of further particular identification with any Sometimes too it would be only a title that could be recalled and nothing more as in the case of a certain Uccello Biverde which I have been several times assured is a most beautiful story but I have never yet succeeded in meeting with any one who could supply the narrative I have further felt called sometimes to exercise a difficult forbearance in withholding some specimens which at first promised to afford singular instances of interchanged episodes but which there afterwards appeared reason to conclude were merely jumbled in the bad memory of the narrator and had therefore no individual interest but were rather calculated to mislead One of my worst disappointments was the case of a very old woman who I am assured knows more of such things than anyone in the world but whom nothing can induce to repeat them now She has grown so toothless and tremulous and inconsecutive that it is not easy to understand her but I think her arguments are not difficult to appreciate in the following way that having had a long run of weary bad fortune she had rather not dwell on stories where things turned out as one could wish to have them She wants to go to heaven she says and so she believes in God and whatever else she must believe but for anything more for special interpositions of Providence and anything one is not obliged to believe she had rather say nothing about all that But don t tell them then as if you believed them tell them only as a pastime just to oblige me I thought I had moved her but the utmost she would yield was to promise to think about it before I came again and when I came again

she was as rigid as ever It is vexatious to think that a vast store is going to the grave with her under one's very eyes and that one cannot touch it

Celtic Myths & Legends Eoin Neeson, 1998 Roman Tales Thomas V. Cohen, 2019-05-21 Roman Tales A Reader's Guide to the Art of Microhistory explores both the social and cultural life of Renaissance Rome and the mind set and methods of microhistory This book draws the reader deep into eight stories a Christian Jewish picnic plus an ill aimed stone fight an embassy driven attack on Rome's police a magic prophetic mirror an immured mad hermit a stolen dwarf and the bizarre misadventures of a stolen roll of velvet a truly odd elopement and a thieving child who treats his cronies to dinner at the inn It meditates on the resources and lacunae that shape the telling of these stories and through them it models an historical method that contrives to turn the limits of our knowledge into an advantage by writing honestly and movingly to bring a dead past back to life exemplifying and stretching the genre of microhistory It also discusses strategies for teaching through intensive use of old documents with a particular focus on criminal tribunal papers Engagingly written Roman Tales outlines the main principles of microhistorical research and draws the reader outwards towards a wider exploration and discovery of sixteenth century Rome It is ideal for researchers of microhistory and of medieval and early modern Italy

Imagined Romes C. David Benson, 2019-03-12 This volume explores the conflicting representations of ancient Rome one of the most important European cities in the medieval imagination in late Middle English poetry Once the capital of a great pagan empire whose ruined monuments still inspired awe in the Middle Ages Rome the seat of the pope became a site of Christian pilgrimage owing to the fame of its early martyrs whose relics sanctified the city and whose help was sought by pilgrims to their shrines C David Benson analyzes the variety of ways that Rome and its citizens both pre Christian and Christian are presented in a range of Middle English poems from lesser known anonymous works to the poetry of Gower Chaucer Langland and Lydgate Benson discusses how these poets conceive of ancient Rome and its citizens especially the women of Rome as well as why this matters to their works An insightful and innovative study Imagined Romes
