Romance Of The Rose Critical Guides To French Texts S:

Dreams of Lovers and Lies of Poets Sylvia Huot, 2017-07-05 The Roman de la Rose explicitly offers an art of love while also repeatedly asserting that the experience of love is impossible to put into words An examination of the intertextual density of the Rose with its citations and adaptations of a range of Latin authors shows that the discourse of bodily desire pleasure and trauma emerges indirectly from the juxtaposition and conflation of sources Huot's new book focuses on Guillaume de Lorris's use of the Ovidian corpus and on Jean de Meun's dazzling orchestration of allusions to a wider range of Latin writers principally Ovid Boethius and Virgil but also including John of Salisbury and Alain de Lille In both parts of the Rose poetic allegory is a language that can express the unspeakable and the ineffable **The Oxford Handbook of Chaucer** Suzanne Conklin Akbari, James Simpson, 2020 This Handbook addresses Chaucer's poetry in the context of several disciplines including late medieval philosophy and science Mediterranean culture comparative European literature vernacular theology and popular devotion **The Face and Faciality in Medieval French Literature, 1170-1390** Alice Hazard, 2021 Modern theoretical approaches throw new light on the concepts of face and faciality in the Roman de la Rose and other French texts from the Middle Ages **The Roman de la rose in its Philosophical Context** Jonathan Morton, 2018-02-01 The Roman de la rose in its Philosophical Context offers a new interpretation of the long and complex medieval allegorical poem written by Guillaume de Lorris and Jean de Meun in the thirteenth century a work that became one of the most influential works of vernacular literature in the European Middle Ages The scope and sophistication of the poem's content especially in Jean's continuation has long been acknowledged but this is the first book length study to offer an in depth analysis of how the Rose draws on and engages with medieval philosophy in particular with the Aristotelianism that dominated universities in the thirteenth century It considers the limitations and possibilities of approaching ideas through the medium of poetic fiction whose lies paradoxically promise truth and whose ambiguities and self contradiction make it hard to discern its positions This indeterminacy allows poetry to investigate the world and the self in ways not available to texts produced in the Scholastic context of universities especially those of the University of Paris whose philosophical controversies in the 1270s form the backdrop against which the poem is analysed At the heart of the Rose are the three ideas of art nature and ethics which cluster around its central subject love While the book offers larger claims about the Rose's philosophical agenda different chapters consider the specifics of how it draws on and responds to Roman poetry twelfth century Neoplatonism and thirteenth century Aristotelianism in broaching questions about desire epistemology human nature the imagination primitivism the philosophy of art and the ethics of money **Courtly Contradictions** Sarah Kay, 2001 Where does courtly literature come from What is the meaning of courtly love What is the relation between religious and secular culture in the Middle Ages and why does it matter This book addresses these questions by way of contradiction which is central both to medieval logic and to most modern protocols of reading

Medieval Mythography, Volume Three Jane Chance, 2019-11-15 With this volume Jane Chance concludes her monumental study of the history of mythography in medieval literature Her focus here is the advent of hybrid mythography the transformation of mythological commentary by blending the scholarly with the courtly and the personal No other work examines the mythographic interrelationships among these poets and their unique and personal approaches to mythological commentary

Reading the World Mary Franklin-Brown, 2024-05-31 The thirteenth century saw such a proliferation of new encyclopedic texts that more than one scholar has called it the century of the encyclopedias Various referred to as a speculum thesaurus or imago mundi the term encyclopedia was not commonly applied to such books until the eighteenth century these texts were organized in such a way that a reader could easily locate a collection of authoritative statements on any given topic Because they reproduced rather than simply summarized parts of prior texts these compilations became libraries in miniature In this groundbreaking study Mary Franklin Brown examines writings in Latin Catalan and French that are connected to the encyclopedic movement Vincent of Beauvais's *Speculum maius* Ramon Llull's *Libre de meravelles* *Arbor scientiae* and *Arbre de filosofia d amor* and Jean de Meun's continuation of the *Roman de la Rose* Franklin Brown analyzes the order of knowledge in these challenging texts describing the wide ranging interests the textual practices including commentary compilation and organization and the diverse discourses that they absorb from preexisting classical patristic and medieval writing She also demonstrates how these encyclopedias like libraries became heterotopias of knowledge spaces where many possible ways of knowing are juxtaposed But Franklin Brown's study will not appeal only to historians she argues that a revised understanding of late medievalism makes it possible to discern a close connection between scholasticism and contemporary imaginative literature She shows how encyclopedists employed the same practices of figuration narrative and citation as poets and romancers while much of the difficulty of the imaginative writing of this period derives from a juxtaposition of heterogeneous discourses inspired by encyclopedias With rich and innovative readings of texts both familiar and neglected *Reading the World* reveals how the study of encyclopedism can illuminate both the intellectual work and the imaginative writing of the scholastic age

The Medieval Natural World Richard Jones, 2013-11-14 How did medieval people make sense of their surroundings and how did this change over the years as understanding and knowledge expanded This new Seminar Study is designed to familiarise students of medieval history with the ways in which medieval people interpreted the world around them how they rationalised their observations and why they developed the models for understanding that they did Most importantly it shows how ideas changed over the medieval period and why With extensive primary source material this book builds up a picture using medieval encyclopedias prose literature and poetry records of estate management agricultural treatises scientific works annals and chronicles as well as the evidence from art architecture archaeology and the landscape itself An excellent introduction for undergraduate students of Medieval history or for anyone with an interest in the medieval natural world

The Romance of the Rose Illuminated Alcuin Blamires, Gail C.

Holian,2002 This book reproduces in colour with commentary and full contextual discussion all the miniatures from unpublished illuminated manuscripts of Le Roman de la Rose in the National Library of Wales A central work in medieval culture the Rose was among the most consistently illustrated of medieval secular texts By presenting all the illuminations from all five illuminated Aberystwyth manuscripts the present study enables absorbing comparisons to be made This is a book that will stir controversy through its scepticism about moral readings of Rose illustrations and through its insistence on an accidental element in the interpretative value of miniatures in secular texts It will interest anyone who studies art and literature including students of Chaucer a poet who absorbed the Roman de la Rose to the core by translating it The reader is first introduced to the narrative and to characteristic sites of illustration within it The introduction goes on to identify existing published sources of reproductions and then to argue the crucial role that a grasp of the practical circumstances of production should play in interpreting medieval miniatures A final complementary chapter formally describes all seven Aberystwyth Rose manuscripts

Piers Plowman and the Books of Nature Rebecca Davis,2016-09-08 Piers Plowman and the Books of Nature explores the relationship of divine creativity poetry and ethics in William Langland s fourteenth century dream vision These concerns converge in the poem s rich vocabulary of kynde the familiar Middle English word for nature broadly construed But in a remarkable coinage Langland also uses kynde to name nature s creator who appears as a character in Piers Plowman The stakes of this representation could not be greater by depicting God as Kynde that is under the guise of creation itself Langland explores the capacity of nature and of language to bear the plenitude of the divine In doing so he advances a daring claim for the spiritual value of literary art including his own searching form of theological poetry This claim challenges recent critical attention to the poem s discourses of disability and failure and reveals the poem s place in a long and diverse tradition of medieval humanism that originates in the twelfth century and indeed points forward to celebrations of nature and natural capacity in later periods By contextualizing Langland s poetics of kynde within contemporary literary philosophical legal and theological discourses Rebecca Davis offers a new literary history for Piers Plowman that opens up many of the poem s most perplexing interpretative problems

Idleness Working Gregory M. Sadlek,2004 Roman and medieval poets and authors not only explored the physicality and sexuality of love driven by passion and desire but also saw love as a labour a project to be worked on and achieved to reach the final goal

Mixed Metaphors Stefanie Knöll,Sophie Oosterwijk,2015-06-18 This groundbreaking collection of essays by a host of international authorities addresses the many aspects of the Danse Macabre a subject that has been too often overlooked in Anglo American scholarship The Danse was once a major motif that occurred in many different media and spread across Europe in the course of the fifteenth century from France to England Germany Scandinavia Poland Spain Italy and Istria Yet the Danse is hard to define because it mixes metaphors such as dance di

Queering the Middle Ages Glenn Burger,Steven F. Kruger,2001 The essays in this volume present new work that in one way or another queers stabilized conceptions of the Middle Ages allowing us to see the period and its systems of sexuality in radically different off center and revealing ways While not denying the force of gender and sexual norms the authors consider how historical work has written out or over what might have been non normative in medieval sex and culture and they work to restore a sense of such instabilities At the same time they ask how this pursuit might allow us not only to re envision medieval studies but also to rethink how we study culture from our current set of vantage points within postmodernity The authors focus on particular medieval moments Christine de Pizan s representation of female sexuality chastity in the Grail romances the illustration of the sodomite in manuscript commentaries on Dante s Commedia the complex ways that sexuality inflected English national politics at the time of Edward II s deposition the construction of the sodomitic Moor by Reconquista Spain Throughout their work seeks to disturb a logic that sees the past as significant only insofar as it may make sense for and of a stabilized present
