## Romanian Icons On Glass:

Romanian Icons on Glass Juliana Fabritius-Dancu, Dumitru Dancu, 1982      *Romanian Icons on Glass* Juliana Dancu, Dumitru Dancu,      *Romanian Icons Painted on Glass* Cornel Irimie, Marcela Focşa, 1970      **Icoane Româneşti pe sticlă** Dorel Zaica, 2014      **Romania** Caroline Juler, 2007 The many fascinating wonders of Romania for so long closed to the West have finally begun to emerge This illustrated guide includes every tool you need to plan a trip to this most intriguing country in the midst of the new Europe      **Glass icons from the collection of the Museum of the Romanian Peasant** Georgeta Roşu, 2009      *The Materials and Craft of Early Iconographers* Mihaela D. Leonida, 2014-03-25 This book describes in detail the materials and techniques used by medieval iconographers It offers information about the natural sources the raw materials the tools and the technologies involved in preparing them The book allows entry into the secretive world of very knowledgeable and skilled artisans about which very little is known Topics covered include raw materials pigments binders solvents adhesives inks and varnishes Special chapters will be dedicated to the fresco technique as practiced by the early iconographers grinding painting on glass and the training apprenticeship of these craftsmen      Re-Configuring Romanian Culture on its Way Towards Modernity Alexandra Chiriac, 2022-09-26 As a direct result of an international conference organized in the year 2021 the volume tries to shed light on the way in which the translation activity contributed to the Romanian culture and language drawing from different traditions and cultures it came in contact with directly or indirectly and thus mingling the own Slavonic church tradition with the new and revolutionary ideas of the Western world and using this mix to modernise the society language and the politics in this region Furthermore this eclectic collection of articles highlights the fact that it was neither the exclusive merit of the Transylvanian scholars nor of the Moldavian or Wallachian ones to have contributed decisively to the formation of the national consciousness and to the standardisation of the language but it was rather the collaboration the circulation of people and ideas that furthered the modernity in all three Romanian Principalities Without disregarding the regional specificity of the Romanian Enlightenment the volume focuses on the interconnections of the agents involved in the cultural transfer on the networks they created for the dissemination of knowledge and political thought and on the common effort to render the new ideas and concepts of the foreign cultures in a national language that could be accessible to the Romanians      *Last Judgment Iconography in the Carpathians* John-Paul Himka, 2018-10-11 Few subjects in Christianity have inspired artists as much as the last judgment Last Judgment Iconography in the Carpathians examines images of the last judgment from the fifteenth century to the present in the Carpathian mountain region of Ukraine Poland Slovakia and Romania as a way to consider history free from the traditional frameworks and narratives of nations Over ten years John Paul Himka studied last judgment images throughout the Carpathians and found a distinctive and transnational blending of Gothic Byzantine and Novgorodian art in the region Piecing together the story of how these images were produced and how they developed Himka traces their origins on linden

boards and their evolution on canvas and church walls Tracing their origins with monks he follows these images increased popularity as they were commissioned by peasants and shepherds whose tastes so shocked bishops that they ordered the destruction of depictions of sexual themes and grotesque forms of torture A richly illustrated and detailed account of history through a style of art Last Judgment Iconography in the Carpathians will find a receptive audience with art historians religious scholars and slavists Icon in Canada Robert B. Klymasz,1996-01-01 Separated from its origins in the Old World east Christian iconography in Canada has come to enjoy a popular following from coast to coast With its fourteen chapters the present volume documents this living tradition from a variety of perspectives to offer the first national survey of its kind Here for the first time folklorists join with art historians anthropologists a scientist a theologian enthusiasts and iconographers to underscore the richness of a phenomenon that continues to captivate large segments of the country s population Published in English **Romanian Review** ,1983 **Rumanian Review** ,1979 English language edition
