Roman Finds Richard Hingley, Steven Willis, 2007-04-10 Studies on finds in Roman Britain and the Western Provinces have come to greater prominence in the literature of recent years The quality of such work has also improved and is now theoretically informed and based on rich data sets Work on finds over the last decade or two has changed our understanding of the Roman era in profound ways and yet despite such encouraging advances and such clear worth there has to date been little in the way of a dedicated forum for the presentation and evaluation of current approaches to the study of material culture The conference at which these papers were initially presented has gone some way to redressing this and these papers bring the very latest studies on Roman finds to a wider audience Twenty papers are here presented covering various themes

Frontiers of Colonialism Christine D. Beaulieu, 2017-07-11 For decades archaeologists have limited studies of frontiers and colonialism to a single polity empire or epoch This has been especially true of historical archaeologists but in this intriguing collection Beaulieu assembles archaeologists from around the world to determine the commonalities and differences of colonialism across the self imposed divide of contact v pre contact The work considers the expanding frontiers of the Romans Iroquois Egyptians Filipinos and the more familiar Mayan and Incan empires The goal of this volume is to expand the theoretical interpretations and perspectives to all archaeologists working in frontier colonial contexts not just those of the European empires
