Romantic Passion A Universal Experience:

Romantic Passion William Jankowiak, William R. Jankowiak, 1997-02-13 Observers from the West the book contends have incorrectly projected rigid ethnocentric notions of love and marriage onto cultures around the world Contributors look beyond each society's official institutions to explore expressions of love offering new perspectives on arranged marriages and polygamy and reexamining as well the other side of the equation rejection and grief **Romantic Love and Sexual**

Behavior Victor C. de Munck, 1998-04-16 Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated Rethinking

Romantic Love Begonya Enguix, Jordi Roca, 2016-11-14 This volume is the result of a thorough exploration of contemporary conceptions of romantic love from different points of view Beginning with an initial text where the meanings of romantic love are discussed theoretically and historically the contributions gathered here present current discussions about love in the present day and in different geographical contexts that range from Hungary to Italy or Spain The first part of the book is devoted to the analysis of mobilities for the sake of love as a result of globalization These mobilities are analysed in relation to love ideals to gender equality and to online searches for the ideal partners The second part of the book deals with the exploration of different imaginaries of love in particular geographical contexts The topics dealt with here include love as sickness love and violence love ideals for men engaged in gender equality and love ideals for those who engage in cross dressing practices In the third part writing about and for love is addressed Love writings to the beloved dead teenage girls blogs and bestsellers such as Fifty Shades of Grey are discussed in particular detail This book addresses current conceptions of romantic love in different social groups through different practices and in different countries and shows that despite the

variability of discourses experiences and practices related to love a number of ideas of what love should be like related to the Western ideals of romantic love persist in all these contexts The contributions to this volume are derived from extensive fieldwork and ethnographic research and will be of undoubted interest for the academic milieu However given the topic it deals with the book will also appeal to the general public who will find in these pages many love stories derived from the detailed study of the society which we inhabit and the ideals of love that we breathe

Romantic Love in Cultural Contexts Victor Karandashev,2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature

Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world *Romantic Love in Cultural Contexts* updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations

Love, Heterosexuality and Society Paul Johnson, 2007-04-11 Heterosexuality is a largely silent set of practices and identities it is assumed to be everywhere and yet often remains unnamed and unexplored Despite recent changes in the theoretical understanding and representation of sexuality heterosexuality continues to be socially normative Forging a new agenda for the study of heterosexuality this in depth volume the first research monograph to focus on heterosexuality and society presents an empirical study of the construction negotiation and enactment of heterosexual sexuality Using detailed interview data it investigates how heterosexuality as both an identity and a set of practices is accomplished through love relationships Rather than assuming that romantic love is an outcome or expression of a pre defined sexuality Johnson explores how sexuality is brought to life through love Situated in the ongoing theoretical debates concerning the relationship between gender and sexuality Paul Johnson's book shows how ways of loving are interwoven with the construction practice regulation and government of heterosexuality Excellently written this important book also looks at gender in society and explores such areas as heterosexual subjectivities and the borders of desire As such the research it contains will be valuable for all students of sociology and gender studies

Modern Love David Shumway, 2003-08-01 My ideas of romance came from the movies said Woody Allen and it is to the movies as well as to novels advice columns and self help books that David Shumway turns for his history of modern love Modern Love argues that a crisis in the meaning and experience of marriage emerged when it lost its institutional function of controlling the distribution of property and instead came to be seen as a locus for feelings of desire togetherness and loss Over the course of the twentieth century partly in response to this crisis a new language of love intimacy emerged not so much replacing but rather coexisting with the earlier language of romance Reading a wide range of texts from early twentieth century advice columns and their late twentieth century antecedent the relationship self help book to Hollywood screwball comedies and from the relationship films of Woody Allen and his successors to contemporary realist novels about marriages Shumway argues that the kinds of stories the culture has told itself have changed Part layperson's history of marriage and romance part meditation on intimacy itself Modern Love will be both amusing and interesting to almost anyone who thinks about relationships and who doesn't
