Transition to Adulthood
 Richard A. Young, Sheila K. Marshall, Ladislav Valach, José F. Domene, Matthew D. Graham, Anat Zaidman-Zait, 2010-09-08
 The transition to adulthood involves for most individuals moving from school to work, establishment of long-term relationships, possibly parenting and a number of other psychosocial transformations. Now more than ever, there is a concern within popular and research literature about children growing up too soon or too late or failing to realize changes associated with being adult. With this in mind, the book intends to answer a series of timely questions in regard to transition to adulthood and propose a wholly new approach to counseling that enables youth to engage fully in their lives and achieve their best.

Active Transition to Adulthood: A New Approach for Counseling will discuss the authors' work on the transition to adulthood, including early and late adolescence, from an entirely innovative perspective: action theory. Over a period of 10-15 years, the authors have collected substantial data on adolescents and youth in transition and will present an approach to counseling based on these data and cases. The action theory perspective, in which the authors have grounded their work, addresses the intentional, goal-directed behavior of persons and groups that is expressed through particular actions, longer-term projects and life-encompassing careers. In this book, both transition to adulthood and counseling will be covered in the language of goal-directed action. In this way, both transition and counseling reflect and capture the action projects and careers in which families, youth and clients are engaged and use to construct ongoing identity and other narratives.

 Alan Booth, Ann C. Crouter, Anastasia Snyder, 2015-12-07
 In this classic edition, top scholars in family research examine the nature and origin of adolescents' contemporary patterns of sexual and romantic relationships from the evolutionary roots of these behaviors to policies and programs that represent best practices for addressing these issues in schools and communities. The text offers interdisciplinary expertise from scholars of psychology, social work, sociology, demography, economics, human development and family studies and public policy. the duration of adolescence has increased significantly Amongst the most important influences in this trend have been low rates of secure employment unmet expectations of good jobs by both male and female graduates housing problems inflation the significant costs including mehr or dowry of formal marriage and poverty and the greater expectation now of autonomy and self direction in younger adults These factors insofar as they are recognised at all are a matter of concern sometimes alarm on the part of older family members and traditionalists who fear that their faith culture and traditions are under threat Thousands of young Iranians therefore live double lives conventionally single in public but living as married couples in private Since the law concedes nothing to these private arrangements there is no protection for the more vulnerable partner and indeed no prospect of active citizenship for any children born to the couple these illegitimate offspring Ahmady tells us will not even acquire a birth certificate or rights to education There is he says an urgent necessity for legislators in Iran to acknowledge and face up to these serious problems and issues Driving the trend to illicit or temporary marriage are a number of matters considered entirely private and personal in most of western society Kameel Ahmady s and his team respondents have a lot to tell us quite explicitly about their sexual needs and about the necessity according to the Iranian Civil Code or otherwise of virginity before marriage These are unlikely issues for discussion in most though not all parts of the modern world For the first time in Iran this book will reveal the hidden and wide angle aspects of this phenomenon at macro level with an emphasis on the Tehran Mashhad and Isfahan metropolitan areas house_ with_ open_ door Age_of_marriage_in_Iran temporary_marriage white_marriage cohabitation Cohabitation_in_Iran White_marriage_in_Iran sighe_mahramiat Gender gender_problem_in_iran women women_right Handbook of Relationship Initiation Susan Sprecher,Amy Wenzel,John Harvey,2018-09-05 The Handbook of Relationship Initiation is the first volume to focus specifically on the very beginning stage of relationships their origin In this Handbook leading scholars on relationships review the literature on various processes related to the initiation of relationships how people meet communicate for the first time and begin to define themselves as being in a relationship Topics include attraction mate selection influence of social networks on relationship initiation initiation over the internet hook ups among young adults and flirting and opening gambits In addition the dark side of relationship initiation is considered including unwanted relationship pursuit and barriers to relationship initiation including social anxiety This volume provides an overdue synthesis of the literature on this topic It is especially timely in view of the growing prevalence on relationship initiation online through matchmaking and other social networking sites which has increased awareness that science can be used to understand create and facilitate compatible matching This Handbook provides an essential resource for an interdisciplinary range of researchers and students who study relationships including social psychologists communication scientists and scholars of marriage and the family **The Intricacies of Love and Intimacy** Ami Rokach,2024-08-30 This book explores the meaning of love and intimacy from a variety of perspectives specifically philosophical psychological and cultural This volume is a focussed study on what makes
