*Essence and Alchemy* Mandy Aftel, 2011-04-01 An artisan perfumer reveals a lost art and its mysterious sensual history For centuries people have taken what seems to be an instinctive pleasure in rubbing scents into their skin Perfume has helped them to pray to heal and to make love And as long as there has been perfume there have been perfumers or rather the priests shamans and apothecaries who were their predecessors Yet in many ways perfumery is a lost art its creative and sensual possibilities eclipsed by the synthetic ingredients of which contemporary perfumes are composed which have none of the subtlety and complexity of essences derived from natural substances nor their lush histories *Essence and Alchemy* resurrects the social and metaphysical legacy that is entwined with the evolution of perfumery from the dramas of the spice trade to the quests of the alchemists to whom today's perfumers owe a philosophical as well as a practical debt Mandy Aftel tracks scent through the boudoir and the bath and into the sanctums of worship offering insights on the relationship of scent to sex solitude and the soul Along the way she imparts instruction in the art of perfume compositions complete with recipes guiding the reader in a process of transformation of materials that continues to follow the alchemical dictum solve et coagula dissolve and combine and is itself aesthetically and spiritually transforming

**The Perfume Handbook** N. Groom, 2012-12-06 In 1948 I was posted as a Political Officer to a remote part of south west Arabia on the edge of the great desert called the Empty Quarter In valleys made fertile by seasonal flood waters lay the remains of an ancient civilization I found inscriptions and the ruin sites of towns palaces and temples Almost buried under the sand dunes were the tumbled walls of a great city From here two thousand years before huge camel caravans had trudged their way along 1600 miles of burning sand and rocks to Petra

and Gaza burdened with a most precious cargo frankincense myrrh and other perfume materials for the courts temples and perfume shops of Rome My book Frankincense and Myrrh delved into the details of this romantic trade and led to a broader interest in the perfumes of ancient times Then researching on behalf of a perfume house into the Arab contribution to perfumery I came across the collection of perfume recipes assembled by the Arab philosopher scientist Yaqub al Kindi which have never been translated into English some which I have translated myself are now included in an appendix to this book I realized that in that work I had found key evidence to demonstrate how the medieval Arab perfume makers had been the bridge in perfume history between ancient and modern times Perfumery could now be seen as an art with a continuous history of development since the dawn of civilization **A Natural History of the Senses** Diane Ackerman,2011-12-07
