Arvanitaki, 2024-05-14 This book focuses on the projections of romantic love and its progression in a selection of popular romance novels and identifies an innovation within the genre's formula and structure Taking into account Giddens's notion of confluent love this book argues that two forms of love exist within these texts romantic and confluent love The analysis of these love variants suggests that a continuum emerges which signifies the complexity but also the formation and progressive nature of the protagonists' love relationships This continuum is divided into three stages the pre personal semi personal and personal The first phase connotes the introduction of the protagonists and describes the sexual attraction they experience for each other The second phase refers to the initiation of the sexual interaction between the heroine and hero without any emotional involvement The third and final phase begins when emotions such as jealousy shame guilt anger and self sacrifice are awakened and acknowledged **The Psychology of Love** Michele A. focuses on the projection of the hero's masculinity in a selection of post millennial popular romance narratives and attempts to discover if and to what extent this projection reinforces or challenges patriarchal ideas about gender In the majority of these narratives the hero is often presented as a hegemonic alpha male However hegemonic masculinity is not a fixed concept Rather it is subject to continuous change which allows for the emergence of various dominant masculinities Under a poststructuralist lens and through a close textual analysis approach and a gender reading of romance narratives the book suggests that to a certain extent the romance hero could be described as a platform onto which different forms of dominant masculinity are displayed and highlights that these masculinities do not necessarily clash depend on or function as a prerequisite for each other *The Complete Idiot's Guide to Writing Erotic Romance* Alison Kent, 2006 The basic rules for turning basic instincts into blockbuster success Erotic romance reigns supreme as a big category of women's fiction a billion

Consumerism and Prestige Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts, such as the cover, binding, typography, and paper stock, reflect or even determine their cultural status. In many cases, for example, the distinctions between highbrow and lowbrow taste have little to do with the content of the texts themselves, as books often function as markers of socioeconomic status, like clothing or home décor. One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment. The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology, literacy, and social power.

Love and the Novel G. Paizis, 1998-09-07 The popularity of romance fiction is such that it constitutes nearly one quarter of new paperback fiction printed in the world. Its success depends on its ability to reflect and articulate the reader's aspirations for a better life and stands at the same time as a testament to her alienation. This fresh look at the romantic fiction seeks to discover the reason for its appeal by combining analysis of the poetics of the genre with a study of the real reader's intervention.

Geographies of Love Christian Lenz, 2016-04-15 *Geographies of Love* is the first study to explore the cultural lifeworlds of British, Australian, and Indian chick and ladlit characters. Offering unique case studies, including Bridget Jones's *Diary*, *About a Boy*, and *Almost Single*, the book explores how women and men search for love and how they commit themselves to romances in specific spaces and places: the home and the office, as well as shops, clubs, and bars. This cross-disciplinary study provides scholars, students, and keen readers with multiple points of access and easily relatable situations. It applies the complex phenomenon of cultural geographies within the field of literary studies and sheds new light on a most passionate feeling.
