Intellectual Politics and Cultural Conflict in the Romantic Period Alex Benchimol,2016-05-23 Intellectual Politics and Cultural Conflict in the Romantic Period maps the intellectual formation of English plebeian radicalism and Scottish philosophic Whiggism over the long eighteenth century and examines their associated strategies of critical engagement with the cultural social and political crises of the early nineteenth century It is a story of the making of a wider British public sphere out of the agendas and discourses of the radical and liberal publics that both shaped and responded to them When juxtaposed these competing intellectual formations illustrate two important expressions of cultural politics in the Romantic period as well as the peculiar overlapping of national cultural histories that contributed to the ideological conflict over the public meaning of Britain s industrial modernity Alex Benchimol s study provides an original contribution to recent scholarship in Romantic period studies centred around the public sphere recovering the contemporary debates and national cultural histories that together made up a significant part of the ideological landscape of the British public sphere in the early nineteenth century

Romantic Love in Cultural Contexts Victor Karandashev,2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world s cultures Yet love displays in different ways because culture has an impact on people s conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts

future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations Flix Neto Professor of Psychology Faculdade de Psicologia e de Ciências da Educação Universidade do Porto Portugal

The Relevance of Romanticism Dalia Nassar, 2014 Since the early 1990s there has been a resurgence of interest in philosophy between Kant and Hegel and in early German romanticism in particular Philosophers have come to recognize that in spite of significant differences between the contemporary and romantic contexts romanticism continues to persist and the questions which the romantics raised remain relevant today *The Relevance of Romanticism: Essays on Early German Romantic Philosophy* is the first collection of essays that offers an in depth analysis of the reasons why philosophers are and should be concerned with romanticism Through historical and systematic reconstructions the collection offers a deeper understanding and more encompassing picture of romanticism as a philosophical movement than has been presented thus far and explicates the role that romanticism plays or can play in contemporary philosophical debates The volume includes essays by a number of preeminent international scholars and philosophers Karl Ameriks Frederick Beiser Richard Eldridge Michael Forster Manfred Frank Jane Kneller and Paul Redding who discuss the nature of philosophical romanticism and its potential to address contemporary questions and concerns Through contributions from established and emerging philosophers discussing key romantic themes and concerns the volume highlights the diversity both within romantic thought and its contemporary reception Part One consists of the first published encounter between Manfred Frank and Frederick Beiser in which the two major scholars directly discuss their vastly differing interpretations of philosophical romanticism Part Two draws significant connections between romantic conceptions of history sociability hermeneutics and education and explores the ways in which these views can illuminate pressing questions in contemporary social political philosophy and theories of interpretation Part Three consists in some of the most innovative takes on romantic aesthetics which seek to bring romantic thought into dialogue with for instance contemporary Analytic aesthetics and theories of cognition mind The final part offers one of the few rigorous engagements with romantic conceptions science and demonstrates ways in which the romantic views of nature scientific experimentation and mathematics need not be relegated to historical curiosities

The Early Roman Expansion into Italy Nicola Terrenato, 2019-05-02 Argues that Roman expansion in Italy was accomplished more by means of

Enlightening Romanticism, Romancing the Enlightenment Professor Miriam L Wallace,2013-04-28 As eighteenth century scholarship expands its range and disciplinary boundaries such as Enlightenment and Romanticism are challenged novels published during the rich period from 1750 to 1832 have become a contested site of critical overlap In this volume scholars who typically write under the rubric of either the long eighteenth century or Romanticism examine novels often claimed by both scholarly periods This shared enterprise opens new and rich discussions of novels and novelistic concerns by creating dialogue across scholarly boundaries Dominant narratives critical approaches and methodological assumptions differ in important ways but these differences reveal a productive tension Among the issues engaged are the eighteenth century novel s development of emotional interiority including theories of melancholia the troubling heritage of the epistolary novel for the 1790s radical novel tensions between rationality and romantic affect issues of aesthetics and politics and constructions of gender genre and race Rather than positing a simple opposition between an eighteenth century Enlightenment of rationality propriety and progress and a Romantic Period of inspiration heroic individualism and sublime emotionality these essays trace the putatively Romantic in the early 1700s as well as the long legacy of Enlightenment values and ideas well into the nineteenth century The volume concludes with responses from Patricia Meyer Spacks and Stephen C Behrendt who situate the essays and elaborate on the stakes Romantic Literature, Race, and Colonial Encounter P. Kitson,2016-04-30 In a fresh investigation of primary sources and original readings Kitson traces the origins of contemporary ideas about race through a variety of late Eighteenth and early Nineteenth century literary texts by Coleridge Byron Shelley De Quincey and other published and unpublished writings about travel and exploration and natural history **Romantic Desire in (Post)modern Art and Philosophy** Jos De Mul,1999-07-16 In this erudite and wide ranging discussion of postmodernism and romanticism in twentieth century art and philosophy Jos de Mul sheds a fascinating light on the ambivalent character of our present culture which oscillates between modern enthusiasm and postmodern irony Along the way he engages the work of such

thinkers as Nietzsche Freud Heidegger Habermas Lacan Barthes and Derrida visual artists Magritte and Stella poets Georg and Coleridge and composers Schonberg Cage and Reich among others providing a sort of intellectual history of Romantic Modernist and Postmodernist tempers *Apocalyptic Discourse in Contemporary Culture* Monica Germana, Aris

Mousoutzanis, 2014-09-15 This interdisciplinary collection of essays focuses on critical and theoretical responses to the apocalypse of the late twentieth and early twenty first century cultural production Examining the ways in which apocalyptic discourses have had an impact on how we read the world's globalised space the traumatic burden of history and the mutual relationship between language and eschatological belief fifteen original essays by a group of internationally established and emerging critics reflect on the apocalypse its past tradition pervasive present and future legacy The collection seeks to offer a new reading of the apocalypse understood as a complex and frequently paradoxical paradigm of contemporary Western culture The majority of published collections on the subject have been published prior to the year 2000 and in their majority of cases locate the apocalypse in the future and envision it as something imminent This collection offers a post millennial perspective that perceives the end as immanent and simultaneously rooted in the past tradition **Forget English!** Aamir

R. Mufti, 2016-02-16 World literature advocates have promised to move humanistic study beyond postcolonial theory and antiquated paradigms of national literary traditions Aamir Mufti scrutinizes these claims and critiques the continuing dominance of English as both a literary language and the undisputed cultural system of global capitalism **Prose Poetry**

Paul Hetherington, Cassandra Atherton, 2020-10-13 An engaging and authoritative introduction to an increasingly important and popular literary genre Prose Poetry is the first book of its kind an engaging and authoritative introduction to the history development and features of English language prose poetry an increasingly important and popular literary form that is still too little understood and appreciated Poets and scholars Paul Hetherington and Cassandra Atherton introduce prose poetry's key characteristics chart its evolution from the nineteenth century to the present and discuss many historical and contemporary prose poems that both demonstrate their great diversity around the Anglophone world and show why they represent some of today's most inventive writing A prose poem looks like prose but reads like poetry it lacks the line breaks of other poetic forms but employs poetic techniques such as internal rhyme repetition and compression Prose Poetry explains how this form opens new spaces for writers to create riveting works that reshape the resources of prose while redefining the poetic Discussing prose poetry's precursors including William Wordsworth and Walt Whitman and prose poets such as Charles Simic Russell Edson Lydia Davis and Claudia Rankine the book pays equal attention to male and female prose poets documenting women's essential but frequently unacknowledged contributions to the genre Revealing how prose poetry tests boundaries and challenges conventions to open up new imaginative vistas this is an essential book for all readers students teachers and writers of prose poetry Nonfictional Romantic Prose Steven P. Sondrup, Virgil Nemoianu, Gerald

Gillespie, 2004 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical

literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth. They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self-referential fanciful creation. Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study. Others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary. Travel narratives, pamphlets, religious and theological texts, familiar essays, autobiographies, literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought.

The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents.

Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams.

Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd.

Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments.

Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, Romantic Prose Fiction, where the basic Romantic themes and story types, the romance, novel, novella, short story and other narrative forms are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations.

As an aid to readers, the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late

eighteenth and the nineteenth centuries a heritage still very close to our age **Civilizations in Dispute** Johann P.
