Rome Against Carthage:

Rome and Carthage Reginald Bosworth Smith, 1887

Between Rome and Carthage Michael P. Fronda, 2010-06-10

Hannibal invaded Italy with the hope of raising widespread rebellions among Rome's subordinate allies. Yet even after crushing the Roman army at Cannae, he was only partially successful. Why did some communities decide to side with Carthage and others to side with Rome? This is the fundamental question posed in this book, and consideration is given to the particular political, diplomatic, military, and economic factors that influenced individual communities' decisions. Understanding their motivations reveals much not just about the war itself but also about Rome's relations with Italy during the prior two centuries of aggressive expansion. The book sheds new light on Roman imperialism in Italy, the nature of Roman hegemony, and the transformation of Roman Italy in the period leading up to the Social War. It is informed throughout by contemporary political science theory and archaeological evidence and will be required reading for all historians of the Roman Republic.

As the two most powerful civilizations in the western Mediterranean, they were destined to clash, curse or not. Roman historians placed the foundation of Carthage at approximately 814 BCE, several decades before Rome. The settlers of Carthage were of Phoenician descent, tracing their ancestry back to the great city of Tyre on the southern coast of Lebanon, but Carthage soon transformed from a minor Phoenician colony into the capital of its own growing civilization. The city itself was well positioned for shipping and it soon dominated maritime trade. Along with that, the Carthaginians built a powerful and well-trained navy whose protection combined with its strategic location made the city of Carthage a formidable prospect to attack. At its height, Carthage housed several hundred thousand inhabitants living under a republican governmental system operated by the Carthaginian Senate. As Carthage grew, it began to expand, conquering by sea and establishing new colonies to improve trade networks. One of the Carthaginians' key objectives was Sicily. Certain foreign policy decisions led to continuing enmity between Carthage and the burgeoning power of Rome, and what followed was a series of wars which turned from a battle for Mediterranean hegemony into an all-out struggle for survival. Although the Romans gained the upper hand in the wake of the First Punic War, Hannibal brought the Romans to their knees for over a decade during the Second Punic War. While military historians are still amazed that he was able to maintain his army in Italy near Rome for nearly 15 years, scholars are still puzzled over some of his decisions, including why he never attempted to march on Rome in the first place. After the serious threat Hannibal posed during the Second Punic War, the Romans didn't wait much longer to take the fight to the Carthaginians in the Third Punic War, which ended with Roman legions smashing Carthage to rubble. As legend has it, the Romans literally salted the ground upon which Carthage stood to ensure its destruction once and for all. Despite having a major influence on the Mediterranean

for nearly five centuries little evidence of Carthage's past might survive. The city itself was reduced to nothing by the Romans who sought to erase all physical evidence of its existence and though its ruins have been excavated they have not provided anywhere near the wealth of archaeological items or evidence as ancient locations like Rome, Athens, Syracuse or even Troy. Today Carthage is a largely unremarkable suburb of the city of Tunis and though there are some impressive ancient monuments there for tourists to explore the large majority of these are the result of later Roman settlement. The Punic Wars spanned more than a century, brought the loss of approximately 400,000 lives and eventually led to the utter defeat and destruction of Carthage, but it was no easy victory for Rome and on several occasions the young Roman Republic was close to annihilation. Given what happened in the wake of the Punic Wars, historians have long been left to ponder what might have happened had the Carthaginians won, especially given how close Hannibal came to accomplishing such a victory against Rome during the Second Punic War.

What if Carthage Won the Punic Wars? An Alternative History of the Conflict Between Rome and Carthage profiles the conflict and examines how events may have gone quite differently for Europe if Rome had been defeated. *Rome and Carthage, the Punic Wars* Reginald Bosworth Smith, 2017-04-16

The battles for control of the lands of the Middle Sea. This book usefully, concisely and comprehensively describes the history of the conflict that raged for a century between the Roman Republic and the Carthaginian Empire. In the ancient world these were among the largest conflicts ever fought. At the outset of this struggle the Carthaginians, who had come from Phoenician beginnings, were the dominant power in the Mediterranean region. Rome was aggressively in the ascendant, grasping territory with ruthless efficiency. Each side realised that there was only room for one power of imperial influence in the region and that this was a war without compromise, victory or annihilation. The famous and infamous commanders of both forces appear within these pages, including the indomitable Hannibal Barca and Scipio Africanus, together with the equally renowned battles and campaigns that they fought from Spain to Italy and upon the sands of North Africa itself. The contest resulted, of course, in the destruction of Carthage, as Rome rose to be the most significant imperial power of the ancient world. Contains useful battle field maps. Leonaur editions are newly typeset and are not facsimiles; each title is available in softcover and hardback with dustjacket; our hardbacks are cloth bound and feature gold foil lettering on their spines and fabric head and tail bands.

The Death of Carthage Robin E. Levin, 2011-12 The Death of Carthage tells the story of the Second and third Punic wars that took place between ancient Rome and Carthage in three parts The first book Carthage Must Be Destroyed covering the second Punic war is told in the first person by Lucius Tullius Varro a young Roman of equestrian status who is recruited into the Roman cavalry at the beginning of the war in 218 BC Lucius serves in Spain under the Consul Publius Cornelius Scipio and his brother the Proconsul Cneius Cornelius Scipio Captivus the second book is narrated by Lucius's first cousin Enneus who is recruited to the Roman cavalry under Gaius Flaminius and taken prisoner by Hannibal's general Maharbal after the disastrous Roman defeat at Lake Trasimene in 217 BC Enneus is transported to Greece and sold as a slave where he is put to work as a shepherd on a large estate and establishes his life there The third and final book The Death of Carthage is narrated by Enneus's son Ectorius As a rare bilingual Ectorius becomes a translator

dominance at sea Over the course of the war naval engagements dominated and the conflict resulted in significant losses for both sides Despite initial setbacks Rome ultimately prevailed after 23 years of intense fighting inflicting severe losses on the Carthaginian fleet and forcing Carthage to pay massive reparations The island of Sicily became Rome s first province marking a significant step in the Republic s expansion The end of the First Punic War also saw the outbreak of the Mercenary War within Carthage s borders a revolt by Carthaginian soldiers who had not been paid further weakening the empire

Carthage's Other Wars Dexter Hoyos,2019-12-19 A very good read and a reminder that the Romans were hardly the only imperialist warmongers of the ancient world StrategyPage Carthage was the western Mediterranean s first superpower long before Rome and her military history was powerful eventful and checkered even before her Punic Wars against Rome Although characterized in the surviving sources and modern studies as a predominantly mercantile state Carthage fought many wars both aggressive and defensive before and in between the contests with the Roman parvenus The Greek states of Sicily above all Syracuse under its tyrants Dionysius the Great and then Agathocles were her most resolute opponents but in North Africa itself in Sardinia and later on in Spain she won and sometimes lost major wars This is the first full length study dedicated to these other wars that furthered Carthage s interests for over half a millennium Based firmly and analytically on ancient sources it also offers the insight that Carthage though usually considered a naval power did more fighting on land than at sea and with more success Includes illustrations

The Fall of Carthage Adrian Goldsworthy,2012-08-30 The struggle between Rome and Carthage in the Punic Wars was arguably the greatest and most desperate conflict of antiquity The forces involved and the casualties suffered by both sides were far greater than in any wars fought before the modern era while the eventual outcome had far reaching consequences for the history of the Western World namely the ascendancy of Rome An epic of war and battle this is also the story of famous generals and leaders Hannibal Fabius Maximus Scipio Africanus and his grandson Scipio Aemilianus who would finally bring down the walls of Carthage
