Rome In Spectacular Cross Section:

Rome Stephen Biesty, Andrew Solway, 2004-09 The ancient city of Rome is the perfect subject for Stephen Biesty's illustrations beautifully constructed, technologically advanced and teeming with life. Titus's Roman Holiday takes in the Temple, the Forum and the Baths, the Colosseum and chariot racing at the Circus Maximus, all illustrated in stunning, painstaking detail. There are cross sections cut away and explosions, authoritative annotations, lists and explanations. Biesty captures the epic scale of the city, the capacity crowd at the Colosseum, for example, and there is some wonderful attention to detail in the architecture and the engineering. But he also succeeds in capturing the humanity of the city and has a great eye for the quirky minutiae of daily life. A well-researched reference work with a sizeable glossary and index, Rome is a witty and brilliantly illustrated book pitched at the 9-12 year old but destined to bring the ancient city to life for a wide range of readers. From a review in *The School Librarian* *Stephen Biesty's Ancient World PB* Stephen Biesty, 2010-04-01 Stephen Biesty's astonishingly detailed cross sections reveal the splendours of Ancient Rome, Greece and Egypt. Uncover the glories of art, architecture and the minutiae of every day life. The illustrations are beautifully constructed and teeming with enough detail to keep readers pouring over the pages for hours. [Egypt in Spectacular Cross-Section](#) Stewart Ross, 2007-03-01

Following on from his internationally bestselling book on Rome, master illustrator Stephen Biesty brings his magic touch to the subject of ancient Egypt. It is over 3200 years ago in ancient Egypt in the reign of the great god-king Rameses II. And for 11-year-old Dedia, a great adventure is about to begin. Join Dedia as he accompanies his father and a couple of troublesome relations on a once-in-a-lifetime journey down the Nile. Among the splendours on the way, you will see: BL The hidden secrets of the Valley of the Kings BL Amun Ra's magnificent temple at Karnak Luxor BL Preparation of a mummy and an Egyptian funeral BL The pyramids and Sphinx of Giza BL The ancient Step Pyramid at Saqqara BL Rameses's spectacular palace at Piramesse

I See What You Mean Steve Moline, 2023-10-10 Some educators may view diagrams, pictures and charts as a nice add-on tool for students who are visual thinkers. But Steve Moline sees visual literacy as fundamental to learning and to what it means to be human. In Moline's view, we are all bilingual. Our second language, which we do not speak but which we read and write every day, is visual. From reading maps to decoding icons to using concept webs, visual literacy is critical to success in today's world. The first edition of *I See What You Mean*, published in 1995, was one of the first books for teachers to outline practical strategies for improving students' visual literacy. In this new and substantially revised edition, Steve continues his pioneering role by including dozens of new examples of a wide range of visual texts, from time maps and exploded diagrams to digital tools like smartphone apps and tactile texts. In addition to the new chapters and nearly 200 illustrations, Steve has reorganized the book in a useful teaching sequence, moving from simple to complex texts. In one research strategy called recomposing, Steve shows how to summarize paragraphs of information not as a heap of interesting facts but as a diagram. The diagram can then work as a framework for students to follow when writing an essay. This

overcomes the teacher's problem of cut and paste essays and by following their own diagram summary students have an answer to their familiar questions Where do I start What do I write next
