What is the Point of Being a Christian? Timothy Radcliffe, 2013-01-17 WINNER OF THE MICHAEL RAMSEY PRIZE FOR THE BEST IN THEOLOGICAL WRITING Winner of the Michael Ramsey prize for the best in theological writing Cardinal Timothy Radcliffe is in demand the world over with Bishops priests lay people and above all young people This new book is his response What is the Point of being a Christian One is pointed to God who is the point of everything If one thinks of religion as just useful then one has reduced it to another consumer product But if we are pointed to God then this should make a difference to how we live This is not a moral superiority Christians are usually no better than anyone else But the lives of Christians should be marked by some form of

hope freedom happiness and courage If they are not then why should anyone believe a word they say In this new book Cardinal Radcliffe is at his best writing with a prophetic edge His argument for Christian belief is profoundly Catholic and profoundly human But what is just as remarkable Radcliffe s argument for and interpretation of Christian Gospel is couched in a deep understanding of human nature and the problems and anxieties of modern men and women Radcliffe is far distant from the theologian s ivory tower and yet his understanding of the Gospel is profoundly theological The frame of reference for this book is wide and it is based amongst other things on Fr Radcliffe s pastoral experience of dealing with people with problematic marriages those struggling with celibacy those trying to understand the nature of religious authority and those trying to remain loyal to the Church which finds their sexual orientation irregular *Island of Shame* David Vine,2011-01-03 The American military base on the island of Diego Garcia is one of the most strategically important and secretive U S military installations outside the United States Located near the remote center of the Indian Ocean and accessible only by military transport the little known base has been instrumental in American military operations from the Cold War to the war on terror and may house a top secret CIA prison where terror suspects are interrogated and tortured But Diego Garcia harbors another dirty secret one that has been kept from most of the world until now *Island of Shame* is the first major book to reveal the shocking truth of how the United States conspired with Britain to forcibly expel Diego Garcia s indigenous people the Chagossians and deport them to slums in Mauritius and the Seychelles where most live in dire poverty to this day Drawing on interviews with Washington insiders military strategists and exiled islanders as well as hundreds of declassified documents David Vine exposes the secret history of Diego Garcia He chronicles the Chagossians dramatic unfolding story as they struggle to survive in exile and fight to return to their homeland Tracing U S foreign policy from the Cold War to the war on terror Vine shows how the United States has forged a new and pervasive kind of empire that is quietly dominating the planet with hundreds of overseas military bases *Island of Shame* is an unforgettable expos of the human costs of empire and a must read for anyone concerned about U S foreign policy and its consequences The author will donate all royalties from the sale of this book to the Chagossians Some images inside the book are unavailable due to digital copyright restrictions

Violent Space Anja Nowak, 2023-11-07 For Nazi Germany the ghetto was a conceptual tool used to facilitate social and political exclusion and further their anti Jewish campaign For the Jews who lived in them the ghettos became the center of their lives even though they were also sites of immense suffering Combining thorough historical research with an interdisciplinary analysis of the relationship between space and violence Violent Space provides a unique insight into the history and the socio spatial topography of the Jewish ghetto in German occupied Warsaw 1939 1943 Using rare archival materials and firsthand accounts many of which have never been translated into English Anja Nowak traces out the trauma that the space of the ghetto inflicted on its Jewish inhabitants and how it alienated disoriented and harmed them While the physical ghetto its buildings boundaries and streets has been reabsorbed and redefined by modern day Warsaw s urban structure Violent Space shows us that its presence still lingers in the narratives of those who were forced into this first phase of the Holocaust

We Want What's Ours Bernadette Atuahene, 2014-06-26 Millions of people all over the world have been displaced from their homes and property Dispossessed individuals and communities often lose more than the physical structures they live in and their material belongings they are also denied their dignity These are dignity takings and land dispossessions occurring in South Africa during colonialism and apartheid are quintessential examples There have been numerous examples of dignity takings throughout the world but South Africa stands apart because of its unique remedial efforts The nation has attempted to move

beyond the more common step of providing reparations compensation for physical losses to instead facilitating dignity restoration which is a comprehensive remedy that seeks to restore property while also confronting the underlying dehumanization infantilization and political exclusion that enabled the injustice Dignity restoration is the fusion of reparations with restorative justice In *We Want What's Ours* Bernadette Atuahene's detailed research and interviews with over one hundred and fifty South Africans who participated in the nation's land restitution program provide a snapshot of South Africa's successes and failures in achieving dignity restoration *We Want What's Ours* is globally relevant because dignity takings have happened all around the world and throughout history the Nazi confiscation of property from Jews during World War II the Hutu taking of property from Tutsis during the Rwandan genocide the widespread commandeering of native peoples property across the globe and Saddam Hussein's seizing of property from the Kurds and others in Iraq are but a few examples When people are deprived of their property and dignity in years to come the lessons learned in South Africa can help governments policy makers scholars and international institutions make the transition from reparations to the more robust project of dignity restoration

The Hip Hop Wars Tricia Rose,2008-12-02 A pioneering expert in the study of hip hop explains why the music matters and why the battles surrounding it are so very fierce *Women Who Invented the Sixties* Steve Golin,2022-09-20 While there were many protests in the 1950s against racial segregation economic inequality urban renewal McCarthyism and the nuclear buildup the movements that took off in the early 1960s were qualitatively different They were sustained not momentary they were national not just local they changed public opinion rather than being ignored *Women Who Invented the Sixties* tells the story of how four women helped define the 1960s and made a lasting impression for decades to follow In 1960 Ella Baker played the key role in the founding of the Student Nonviolent Coordinating Committee which became an essential organization for students during the civil rights movement and the model for the antiwar and women s movements In 1961 Jane Jacobs published *The Death and Life of Great American Cities* changing the shape of urban planning irrevocably In 1962 Rachel Carson published *Silent Spring* creating the modern environmental movement And in 1963 Betty Friedan wrote *The Feminine Mystique* which sparked second wave feminism and created lasting changes for women Their four separate interventions helped together to end the 1950s and invent the 1960s *Women Who Invented the Sixties* situates each of these four women in the 1950s Baker s early activism with the NAACP and the Southern Christian Leadership Conference Jacobs s work with Architectural Forum and her growing involvement in neighborhood protest Carson s conservation efforts and publications and Friedan s work as a labor journalist and the discrimination she faced before exploring their contributions to the 1960s and the movements they each helped shape *The Gap in God's Country* Laurie M. Johnson,2024-10-18 Laurie M Johnson argues that America s culture wars may seem to have erupted in the past couple of decades but they go back centuries For those who think that Christian nationalism or right wing populism is the problem to be solved that some people simply need to understand Christianity or politics better and become reasonable read on Christian nationalism and other ideological extremes are symptoms of major economic technological spiritual and psychological shifts that have left too many people uprooted disenchanted and precarious There are no easy answers but Johnson tries to show a path out that enlists not only individuals but also church and state Without leadership and structure provided at the levels of the church and state Christians and those impacted by them will remain part of the problem and not

the solution Johnson says to Christians change is not talk it s action and Christian action can only happen with leadership that creates a context where we can work together rather than wasting our time in culture wars *Main Street* Mindy Thompson Fullilove, 2020-09-08 Mindy Thompson Fullilove traverses the central thoroughfares of our cities to uncover the ways they bring together our communities After an 11 year study of Main Streets in 178 cities and 14 countries Fullilove discovered the power of city centers to help us name and solve our problems In an era of compounding crises including racial injustice climate change and COVID 19 the ability to rely on the power of community is more important than ever However Fullilove describes how a pattern of disinvestment in inner city neighborhoods has left Main Streets across the U S in disrepair weakening our cities and leaving us vulnerable to catastrophe In the face of urban renewal programs built in response to a supposed lack of personal responsibility Fullilove offers a different story that of a series of forced displacements that had devastating effects on inner city communities Through that lens we can appreciate the strength of segregated communities that managed to temper the ravages of racism through the Jim Crow era and build political power and many kinds of wealth Only a very well integrated powerful community one with deep spiritual principles could have accomplished such a feat This is the power she hopes we will find again Throughout *Main Street* readers glimpse strong vibrant communities who have conquered a variety of disasters from the near loss of a beloved local business to the devastation of a hurricane Using case studies to illustrate her findings Fullilove turns our eyes to the cracks in city centers the parts of the city that tend to be avoided or ignored Providing a framework for those who wish to see their communities revitalized Fullilove s *Main Street* encourages us all to look both inward and outward to find the assets that already exist to create meaningful change
