Rosa Luxemburg Speaks Rosa Luxemburg, 1999 *Rosa Luxemburg Speaks* Mary-Alice Waters, 1971 *Rosa Luxemburg Speaks* Edited with an Introduction by Mary-Alice Waters Rosa Luxemburg, 1970 **Rosa Luxemburg Speaks. Ed. with an Introd. by M.-A. Waters** Rosa Luxemburg, Mary-Alice Waters, 1970 **Rosa Luxemburg Speaks in the Season of Her Death** Lynn Mally, 1980* **Rosa Luxemburg** Stephen Eric Bronner, 2010-11-01 *Open Marxism* Christos Memos, 2025-01-09 Bringing together the various heterodox traditions groups and scholars that came under the heading of Open Marxism for the first time this book assesses the evolution of Open Marxism from the initial usage of the term by Kostas Axelos in France in the 1950s and the journal Arguments principally the anarchist Marx of Maximilien Rubel and the Libertarian Marxism of Daniel Guérin through Open Marxism as it was developed in Eastern Europe especially in the scholarly work of Karel Kosík in Czechoslovakia the work of the Polish Open Marxists and the Praxis group in Yugoslavia to Johannes Agnoli's work in post 1968 West Germany and finally to the work developed by Bonefield Clarke Gunn and Holloway within the framework of the Conference of Socialist Economists CSE in Britain since the 1980s Its comprehensive study of the historical development of Open Marxism in all its various guises and forms reasserts the rich insights of its devastating critique of social democracy Leninism Stalinism and the Althusserian structuralist paradigm It introduces a new readership to Open Marxism's negative fundamental and destructive critique of capitalism and examines the practical relevance of its subversive thinking to the contemporary struggle for a free and open socialist society **Lenin and the Revolutionary Party** Paul Le Blanc, 2016-02-01 For generations historians of the right left and center have all debated the best way to understand V I Lenin's role in shaping the Bolshevik party in the years leading up to the Russian Revolution At their worst these studies locate his influence in the forcefulness of his personality At their best they show how Lenin moved other Bolsheviks through patient argument and political debate Yet remarkably few have attempted to document the ways his ideas changed or how they were in turn shaped by the party he played such a central role in building In this thorough concise and accessible introduction to Lenin's theory and practice of revolutionary politics Paul Le Blanc gives a vibrant sense of the historical context of the socialist movement in Russia and abroad from which Lenin's ideas about revolutionary organization spring What emerges from Le Blanc's partisan yet measured account is an image of a collaborative ever adaptive and dynamically engaged network of revolutionary activists who formed the core of the Bolshevik party **The Algebra of Revolution** John Rees, 2005-06-23 The Algebra of Revolution is the first book to study Marxist method as it has been developed by the main representatives of the classical Marxist tradition namely Marx and Engels Luxemburg Lenin Lukács Gramsci and Trotsky This book provides the only single volume study of major Marxist thinkers views on the crucial question of the dialectic connecting them with pressing contemporary political and theoretical questions John Rees's The Algebra of Revolution is vital reading for anyone interested in gaining a new and fresh perspective on Marxist thought and on the notion

of the dialectic The Revolutionary Legacy of Rosa Luxemburg Marie Frederiksen,2022-04-02 This book sets out to examine Rosa Luxemburg's ideas not from the distorted myths about her political ideas or solely about personal questions such as her love life but from Luxemburg's very own writings. It is an attempt to provide an insight into the treasure trove of ideas and revolutionary theory that Luxemburg's works constitute. The book shows that the real Rosa Luxemburg is often very far from the myths and rumours that surround her. Rosa Luxemburg was is and remains a revolutionary **Socialism Unbound** Stephen Eric Bronner,2011-11-22 Published more than twenty years ago Stephen Eric Bronner's bold defense of socialism remains a seminal text for our time. Treating socialism as an ethic, reinterpreting its core categories and critically confronting its early foundations, Bronner's work offers a reinvigorated class ideal and a new perspective for progressive politics in the twentieth century. **Socialism Unbound** is an extraordinary work of political history that revisits the pivotal figures of the labor movement: Karl Marx, Friedrich Engels, Karl Kautsky, Vladimir Lenin, and Rosa Luxemburg. Examining their contributions as well as their flaws, Bronner shows how critical innovation gave way to dogma. New practical problems have arisen, and this volume engages with the relationship between class and social movements, institutional accountability, and democratic participation, economic justice, and market imperatives, and internationalism and identity. With a foreword by Dick Howard and a new introduction by the author, Bronner's classic study remains indispensable for scholars and activists alike.

Rosa Luxemburg Rosa Luxemburg, Paul Le Blanc, 1999-11 Her examination of capitalist globalization in her era, the destructive dynamics of nationalism, and other topics are joined with hard-hitting political analyses, discussions of labor movement strategy, intimate prison letters, and passionate revolutionary appeals. Luxemburg's powerful impact on the twentieth century is documented in the accompanying essays, which draw readers into the discussions that leading intellectuals and activists have had with this vibrant thinker. **BOOK JACKET Marxism and International Relations**, 2024-04-30 Where is Marxism in International Relations? The answer lies in this collective work by Brazilian authors who have looked to Marxist theory for an alternative perspective and therefore outside the dominant ideas in the field to analyse International Relations. Specifically, the answer is divided into themes: key ideas by Marx and Engels for IR; Marxist thinkers as IR theorists; Marxist theories on imperialism; and the Latin American theory on dependency. With the end result, this book adds to the international intellectual efforts to criticize and overcome capitalism. **Lenin** Paul Le Blanc, 2023-09-20 A welcome gift. Highlighting Lenin's flexibility and cultivation of collective leadership, Le Blanc brings out the practical activism and revolutionary patience crucial to organizing the oppressed on a rapidly overheating planet. Jodi Dean, author of *Comrade Crackling* with intellectual life. Lars T. Lih, author of *Lenin Rediscovered*. A wonderful sketch of Lenin's life and times. Perhaps the best introduction available in English. Michael D. Yates, author of *Can the Working Class Change the World*. Vladimir Lenin lies in a tomb in Moscow's Red Square. History has not been kind to this Russian leader; his teachings reviled by modern mainstream politics. But in today's capitalist society, riven by class inequality and imperialist wars, perhaps it is worth

returning to this communist icon's demand for Peace, Land and Bread and his radical understanding of democracy. Lenin was wrestling with the question of what is to be done when facing the catastrophes of his own time. Against the odds, the Bolshevik party succeeded in rejecting both the corrupt and decaying Romanov dynasty as well as the capitalist economic system which had started to take root in Russia. To understand how this happened and what we can learn from him today, Paul Le Blanc takes us through Lenin's dynamic revolutionary thought: how he worked as part of a larger collective and how he centered the labor movement in Russia and beyond, uncovering a powerful form of democracy that could transform our activism today. Paul Le Blanc is an activist and acclaimed American historian teaching at La Roche University, Pennsylvania. He is the author of many books.

The Living Flame Paul Le Blanc, 2020-02-04. A collection of essays illuminating the historic Polish philosopher, economist and activist's tremendous contributions to revolutionary struggle. Rosa Luxemburg, brilliant early twentieth-century German revolutionary, comes alive in a rich set of essays on her life, ideas and lasting influence. The essays deal not only with her remarkable contributions to political, social and economic theory but also touch on her vibrant personality and intimate friendships. This collection, the fruit of more than four decades of involvement with Luxemburg's work, simultaneously showcases her penetratingly intellectual, political and deeply humanistic qualities. An indispensable contribution to our understanding of Rosa Luxemburg, who emerges as formidable theorist, principled activist and above all a fully realized human being. *The Living Flame* affirms Luxemburg's lasting contribution and underscores the relevance of her legacy for our own very different age.

Helen Scott, author *The Storm of History*, Shakespeare's *Tempest* and *Capitalism*. A profound and multidimensional investigation of a giant thinker and revolutionary. These essays show meticulous historical and theoretical attentiveness and at the same time are hugely timely, a significant contribution to Rosa Luxemburg studies and Marxist theory and history.

Dana Mills, author *Rosa Luxemburg: Critical Lives*. Uncommonly nuanced, probing and also deeply principled explorations. Le Blanc's mode of engagement nicely complements that of Rosa Luxemburg and shows us her thoughts as a living and breathing work in progress, not merely echoes from an increasingly distant past. In addition, Le Blanc models how Marxists and Leftists in general might want to relate to one another when we debate complex issues and at times disagree.

Axel Fair Schulz, associate professor at SUNY Potsdam. **Communication and Capitalism** Christian Fuchs, 2020-05-19. An authoritative analysis of the role of communication in contemporary capitalism and an important contribution to debates about the forms of domination and potentials for liberation in today's capitalist society.

Professor Michael Hardt, Duke University, co-author of the tetralogy *Empire*, *Commonwealth*, *Multitude* and *Assembly*. A comprehensive approach to understanding and transcending the deepening crisis of communicative capitalism. It is a major work of synthesis and essential reading for anyone wanting to know what critical analysis is and why we need it now more than ever.

intersection of feminism politics and philosophy Women in Political Theory sheds light on the contributions of women philosophers and theorists to contemporary political thought With close attention to the work of five central thinkers Sarah Grimké Anna Julia Cooper Jane Addams Rosa Luxemburg and Hannah Arendt this book not only offers sustained analyses of the thought of these leading figures but also examines their relationship with established political theorists of the past such as Locke Machiavelli and the ancients Demonstrating that each of the figures covered was indeed a political theorist of her time whilst highlighting the strength of her thought and the reasons for which it has not been accorded the attention that it merits Women in Political Theory offers a fascinating overview of the political thought of five theorists whose work is central to an understanding of modern thought As such it will be of interest to scholars and students of sociology philosophy political and social theory feminist thought and gender studies **Russia: From Proletarian Revolution to State-Capitalist**

Counter-Revolution Raya Dunayevskaya, 2017-07-10 Russia From Proletarian Revolution to State Capitalist Counter Revolution is a selection of writings by the Marxist Humanist philosopher Raya Dunayevskaya which begins with an examination of Lenin's Hegel Notebooks his philosophic preparation for proletarian revolution followed by a section on What Happens After the revolution the first years post 1917 Analyses of Trotsky Stalin Bukharin and Luxemburg are presented A key section is Russia's Transformation into Opposite The Theory of State Capitalism Opposition to Russian state capitalism such as the 1953 East Germany Revolt and the 1956 Hungarian Revolution are described Mao's China as another form of state capitalism as well as the Sino Soviet conflict is discussed The study ends with a battle of ideas with other analyses of the Revolution and its aftermath A-Z Guide to Modern Social and Political Theorists Professor Stuart Sim, Noel

Parker, 2014-06-03 The A Z Guide to Modern Social and Political Theories is a companion volume to the already published A Z Guide to Modern Literary and Cultural Theorists It ranges widely through the social sciences and related areas to identify thinkers who have had a major impact on the development of modern social and political theory and given clear accessible summaries of their work While the accent is on the later twentieth century several up and coming theorists are included to ensure a contemporary edge to the volume classic names in the field from the earlier twentieth century are not neglected and

the collection also delves back into the nineteenth century for such founding figures of the social sciences as Marx and Comte The volume is therefore both up to date and mindful of the sources of modern debates Discourses of Extremity
