**Rosehill** Carol Lake,1989 In this collection of linked short stories the author paints a haunting picture of the contemporary British inner city and provides social comment on the poverty and unemployment of the 1980s **Rosehill** Carol Lake,2023-07-07 *The Spiritual City* Philip Sheldrake,2014-07-21 A Spiritual City provides a broad examination of the meaning and importance of cities from a Christian perspective Contains thought provoking theological and spiritual reflections on city making by a leading scholar Unites contemporary thinking about urban space and built environments with the latest in urban theology Addresses the long standing anti urban bias of Christianity and its emphasis on inwardness and pilgrimage Presents an important religious perspective on the potential of cities to create a strong human community and sense of sacred space **Spaces for the Sacred** Philip Sheldrake,2001-01-31 In Spaces for the Sacred Philip Sheldrake brilliantly reveals the connection between our rootedness in the places we inhabit and the construction of our personal and religious identities Based on the prestigious Hulsean Lectures he delivered at the University of Cambridge Sheldrake s book examines the sacred narratives which derive from both overtly religious sites such as cathedrals and secular ones like the Millennium Dome and it suggests how Christian theological and spiritual traditions may contribute creatively to current debates about place **Home Territories** David Morley,2002-09-11 Home Territories examines how traditional ideas of home homeland and nation have been destabilised both by new patterns of migration and by new communication technologies which routinely transgress the symbolic boundaries around both the private household and the nation state David Morley analyses the varieties of exile diaspora displacement connectedness mobility experienced by members of social groups and relates the micro structures of the home the family and the domestic realm to contemporary debates about the nation community and cultural identities He explores issues such as the role of gender in the construction of domesticity and the conflation of ideas of maternity and home and engages with recent debates about the territorialisation of culture **Place and the Politics of Identity** Michael Keith,Steve Pile,2004-11-23 In the last two decades new political subjects have been created through the actions of the new social movements often by asserting the unfixed and overdetermined character of identity Further in attempting to avoid essentialism people have frequently looked to their territorial roots to establish their constituency A cultural politics of resistance as exemplified by Black politics feminism and gay liberation has developed struggles to turn sites of oppression and discrimination into spaces of resistance This book collects together perspectives which challenge received notions of geography which are in danger of becoming anachronisms without a language to articulate the new space of resistance the new politics of identity *Exploring Gender and Sikh Traditions* Doris R. Jakobsh,2021-09-01 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies The intersections of religion and gender are here explored based on an understanding that both are socially constructed Far from being static as so often presented in world religions textbooks religious traditions are constantly in flux

responding to historical cultural and social contexts So too is the Sikh tradition in terms of practices ideologies rituals and notions of identity We here conclude that a Sikh tradition does not exist instead there are numerous forms thereof In this volume Sikhism is presented as a collection of Sikh traditions Gender studies in line with women s liberation masculine and feminist studies have long examined and have long deconstructed the patriarchy but also move to identify other subordinate dominant relations between individuals Indeed there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis as is evidenced by the varied contributions in this volume
