The Unknown God Martin P. Starr, 2024 The Unknown God gives a view into the twentieth century North American occult underground influenced by the English occultist and prophet Aleister Crowley as told through the biography of his disciple in the USA Wilfred Talbot Smith 1885 1957 It draws on accounts from Smith s social network which encompassed Caltech rocket scientist Jack Parsons the Rosicrucian leader H Spencer Lewis the Hollywood actor John Carradine and gay liberationist Harry Hay Students of esoteric Freemasonry the Golden Dawn the Theosophical Society and the Crowley based occult orders will find The Unknown God a fascinating resource this is the book that connects them all The Rosicrucian Fraternity in America Reuben Swinburne Clymer, 1935

The Templars and the Assassins James Wasserman, 2001-04-01 An examination of the interactions of the Christian Knights Templar and their Muslim counterparts the Assassins and of the profound changes in Western society that resulted Restores the reputation of the secret Muslim order of the Assassins disparaged as the world s first terrorist group Dispels many myths about the Knights Templar and provides the most incisive portrait of them to date A thousand years ago Christian battled Muslim for possession of a strip of land upon which both their religions were founded These Crusades changed the course of Western history but less known is the fact that they also were the meeting ground for two legendary secret societies The Knights Templar and their Muslim counterparts the Assassins In The Templars and the Assassins The Militia of Heaven occult scholar and secret society member James Wasserman provides compelling evidence that the interaction of the Knights Templar and the Assassins in the Holy Land transformed the Templars from the Pope s private army into a true occult society from which they would sow the seeds of the Renaissance and the Western Mystery Tradition Both orders were destroyed as heretical some seven hundred years ago but Templar survivors are believed to have carried the secret teachings of the East into an occult underground from which sprang both Rosicrucianism and Masonry Assassin survivors known as Nizari Ismailis flourish to this day under the spiritual leadership of the Aga Khan Wasserman strips the

myths from both groups and penetrates to the heart of their enlightened beliefs and rigorous practices delivering the most probing picture yet of these holy warriors *The Rosicrucian Fraternity in America* Reuben Swinburne Clymer,1935

The Transcendental Universe C. G. Harrison, 1993-04-15 Our very I consciousness is possible because the mineral earth the first layer of the interior of the Earth and the other chthonic regions exist Our human nature is a reflection of the subearthly and supraearthly realms that comprise the macrocosm and the microcosm The true meaning of the microcosm macrocosm analogy is not that the human being is a little cosmos but that the cosmos is a big human being From this perspective it makes complete sense that the subterranean realms described by spiritual science live within the deepest realms of our human nature and subconscious life of darker feelings and will Deep within the human being they radiate into the shadows of thought This region is more familiarly known as Hell Hades or the Abyss The subterranean spheres then are the Earth's dark side from Paul V O Leary's introduction Throughout human history ancient wisdom and traditional myths have placed human beings between the heavens and the underworld describing the heavens as the light filled realm of the gods and the source of goodness and characterizing the underworld as a demon filled realm of darkness and the source of evil Modern science however denies the heavens and knows little of the Earth's interior even physically beyond the first few miles after which it simply resorts to conjecture based on the extrapolation of existing sensory data In other words natural science fails to take into account that the Earth is a living spiritual being and ignores the presence of its soul spiritual qualities and influences To remedy this during the early twentieth century Rudolf Steiner researched the psychic spiritual and cosmic nature of the Earth's interior He described how the different layers of the inner Earth affect and interact with human beings living on Earth More theologically and cosmically he spoke of the layers of Hell through which Jesus Christ traveled in the period between the Crucifixion and the Resurrection uniting and integrating himself with the Earth and with human destiny The seven authors in *The Inner Life of the Earth* approach this difficult and little discussed topic from different directions They discuss how the forces emanating from the interior of the Earth affect the weather our atmosphere human beings and how human behavior in turn affects them showing that earthly and human evolution are a unity and should never be thought of as occurring separately They also discuss the deep significance of Christ's incarnation by which he united with the Earth to become the Spirit of the Earth Without Christ's deed the Mystery of Golgotha which reunites cosmic and human evolution with the divine human beings would be unable to work in freedom with Christ or with Sophia divine feminine Wisdom in her form as the Soul of the Earth to overcome evil and help lift all creation

toward goodness and greater human cosmic and divine fellowship **The Ephrata Commune** E.G. Alderfer, 2011-10-24 E G Alderfer has chosen a dramatic story to tell the founding and subsequent history of Ephrata a mystical religious community that flourished in eastern Pennsylvania in the mid eighteenth century The history of the commune is inseparable from that of its leader Conrad Beissel a German Pietist who came to America in 1720 seeking spiritual peace and solitude When he settled in the virgin forest of Lancaster County his talents and charisma attracted other German settlers who shared his vision of a community built in the image of apostolic Christianity In its heyday from about 1735 to 1765 the community at Ephrata numbered some two hundred people the celibate members living in simple wooden buildings noted for the harmony and serenity of their architecture The cultural achievements of the group were exceptional They produced an extensive body of mystical literature and constructed the most complete printing establishment in the colonies at that time They were also adept at the art of Fraktur and many exquisitely decorated manuscripts survive Music was a particular interest of Beissel s and the choral music performed at Ephrata was well known and much admired Mr Alderfer who has written widely on colonial Pennsylvania shows the relationship of the Ephrata commune to other experiments at withdrawal from the world and in particular to the many strands of Old World mysticism and the German Pietist movement He also discusses American religious and communal movements of later times in the light of the Ephrata experience His is the first history of the community to provide extensive documentation including analysis of many surviving manuscripts and books written at Ephrata Although the commune died out in the nineteenth century the site and many of the buildings survived Today the Ephrata Cloisters Park is operated by the Pennsylvania Historical and Museum Commission Current List of Medical Literature ,1961 Includes section Recent book acquisitions varies Recent United States publications formerly published separately by the U S Army Medical Library Magic and Witchery in the Modern West Shai Feraro, Ethan Doyle White, 2019-06-26 This book marks twenty years since the publication of Professor Ronald Hutton s *The Triumph of the Moon* a major contribution to the historical study of Wicca Building on and celebrating Hutton s pioneering work the chapters in this volume explore a range of modern magical occult and Pagan groups active in Western nations Each contributor is a specialist in the study of modern Paganism and occultism although differ in their embrace of historical anthropological and psychological perspectives Chapters examine not only the history of Wicca the largest and best known form of modern Paganism but also modern Pagan environmentalist and anti nuclear activism the Pagan interpretation of fairy folklore and the contemporary Traditional Witchcraft phenomenon *Perdurabo, Revised and Expanded Edition* Richard Kaczynski, 2012-04-10 A rigorously researched biography of the founder of modern magick as well as a study of the occult sexuality Eastern religion and more The name Aleister Crowley instantly conjures visions of diabolic ceremonies and orgiastic indulgences and while the sardonic Crowley would perhaps be the last to challenge such a view he was also much more than the Beast as this authoritative biography shows *Perdurabo* entitled after the magical name Crowley chose when inducted into

the Hermetic Order of the Golden Dawn traces Crowley's remarkable journey from his birth as the only son of a wealthy lay preacher to his death in a boarding house as the world's foremost authority on magick. Along the way he rebels against his conservative religious upbringing, befriends famous artists, writers and philosophers and becomes a poet himself. He is attacked for his practice of the black arts and teaches that science and magick can work together. While seeking to spread his infamous philosophy of 'Do what thou wilt shall be the whole of the Law', Crowley becomes one of the most notorious figures of his day. Based on Richard Kaczynski's twenty years of research and including previously unpublished biographical details, Perdurabo paints a memorable portrait of the man who inspired the counterculture and influenced generations of artists, punks, wiccans and other denizens of the demimonde.

New Religions and Spiritualities Stephen Hunt, 2017-03-02 Since the 1960s a fresh wave of new religions and what has come to be termed spiritualities have been evident on a global scale. This volume in *The Library of Essays on Sexuality and Religion* focuses on these new religions and their often contentious attitudes towards human sexuality. Part 1 through previously published articles provides instances of affirming orientations of the new religions towards sexuality. This entails scrutinising examples of innovative religion from a historical perspective as well as those of a more contemporary nature. Part 2 examines with pertinent illustrations the controversial character of new religions in their cultist forms and matters of sexual control and abuse. Part 3 considers sexuality as articulated through paganism, the occult and esotericism in the postmodern setting. Part 4 examines both hetero and non hetero expressions of sexuality through the so called New Spiritualities, Quasi religions and the more hidden forms of religiosity.

The Encyclopedia of Cults, Sects, and New Religions James R. Lewis, 2001-03 Surpassing the scope and the thoroughness of the first edition, this new edition of *The Encyclopedia of Cults, Sects, and New Religions* is the most wide ranging and accessible resource on the historically significant and more obscure sinister and bizarre religious groups. Including many entries by scholarly specialists, this volume explains more than 1 000 diverse groups and movements from such well known sects as the Branch Davidians, Aum Shinrikyo and Heaven's Gate to obscure groups like Ordo Templi Satanas, Witches International and the Nudist Christian Church of the Blessed Virgin Jesus. In addition to an exhaustive index and handy cross references, the second edition includes over a hundred new topical entries on subjects relevant to understanding sectarian movements from snake handling and satanic ritual abuse to brainwashing and exorcism. This book a must for all libraries and schools will endure as the first and only point of reference for researchers, scholars, students and anyone interested in fringe religious groups.
